"This is a detailed analysis of the business of the scholarly publishing in the U.S. of: books; journals; pre-prints; and various scholarly publications in institutional repositories. Drawing on an extensive review of the literature, and statistical sources, the book examines: the changing environment of scholarly publishing; the product, price, placement, promotion, and costs (including some P & L statements) of scholarly books and journals. Special attention is paid to: the history and development of scholarly books and journals; intellectual property issues, including the development of the U.S. copyright law and infringement issues Sci-Hub; an author's contract; and the impact of technology (including open access) on books and journals. The book also discusses how scholarly publishers are trying to manage in what are turbulent times. The book contains extensive notes, a detailed bibliography, book and journal statistical tables, and figures."--

universities As an interdisciplinary field, these volumes will prove to be an essential resource for students and researchers in education, sociology, politics and other related fields across the humanities and social science disciplines. When that research paper comes due and you've forgotten your style manual, get the guidance you need quickly with the Chicago Manual of Style QuickStudy guide. Based on the 16th edition of CMS, this handy, easy-to-carry three-panel guide contains the information you need for writing academic papers to CMS specifications, pared down to the essentials, including common, real-world sample references for both CMS citation formats so that you can be sure you are giving appropriate credit where credit is due.

When Kate L. Turabian first put her famous guidelines to paper, she could hardly have imagined the world in which today's students would be conducting research. Yet while the ways in which we research and compose papers may have changed, the fundamentals remain the same: writers need to have a strong research question, construct an evidence-based argument, cite their sources, and structure their work in a logical way. *A Manual for Writers of Research Papers, Theses, and Dissertations*—also known as “Turabian”—remains one of the most popular books for writers because of its timeless focus on achieving these goals. This new edition filters decades of expertise into modern standards. While previous editions incorporated digital forms of research and writing, this edition goes even further to build information literacy, recognizing that most students will be doing their work largely or entirely online and on screens. Chapters include updated advice on finding, evaluating, and citing a wide range of digital sources and also recognize the evolving use of software for citation management, graphics, and paper format and submission. The ninth edition is fully aligned with the recently released
