Kim-Van-Kieu, for centuries, has been regarded by the Vietnamese as the most beautiful jewel in painting the sentimental tenderness of the human soul. Edited in the early 1813s, this masterpiece of 3250 verses was structured in a particular form of prosody that has become since then a cherished anthem of Vietnamese poetry. The story concerns a maiden endowed with mental and bodily graces; an elite who, placed between love and filial devotion, deliberately chose the harder way: she sold herself to save her father, a victim of an unjust calamity. And from that day on, she passed from one misfortune to another until she sank into the most abject depravity. But, like the lotus, after a long chain of stormy winds, she succeeded in elevating herself and preserving the pure perfume of her original soul. Homesickness seemed to carry away Her soul toward the forlorn clouds of Tsin. My poor old parents! Both now must be quite old! Since my departure, has their grievance Subsided any as time went by? So fast, more than ten years out of sight! If they still live, maybe their skin Has been wrinkled, and their hair has turned gray Like frost-covered as it had never been! And the old love! Regretful, I may say! Like the lotus torn off from its stem, Though their former binding had been broken, The feelings Kieu had conceived for Kim Seemed to still have a slight venation. Kim-Van-Kieu 1963 Edition, English translation by Professor Le-Xuan-Thuy, had given the Western readers a chance to taste the delights of a new style of poem-in-prose version of Vietnamese poetry into English. Forty six years later came into light a fresher gem with a more inspired form, The Soul of Poetry inside Kim-Van-Kieu, a vibrant versification of Kim-Van-Kieu by Professor Le Xuan Thuy himself, well known online as international poet Hall-of-Fame Thuy Lexuan, ASO.

Canada's automotive "Dr. Phil" says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar, a worldwide recession driving prices downward, and a more competitive Japanese auto industry that's still reeling from a series of natural disasters.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are

beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway. Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers. GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago. You can save \$2,000 by cutting freight fees and "administrative" charges. Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea. Monberg's account of the Bellonese religion is descriptive ethnography at its best. It is rich in detail, and the organization of the material gives a coherent view of Bellonese culture and society. While not a comparative study in itself, it provides an abundance of data that will be invaluable for other works that are more comparative in nature. -from the Editor's Note Pacific Islands Monograph Series No.9 Center for Pacific Islands Studies, UH

As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz -- rich cars, poor quality. There's only one Saturn you should buy. Toyota -- enough apologies: "when you mess up, 'fess up."
