The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper P6, Advanced Taxation, requires you to extend the core tax knowledge that you learnt for Paper F6. As well as widening your knowledge of the core taxes, you will need to study inheritance tax, stamp taxes and trusts for the first time. In this paper you will also be expected to comment on ethical issues. In Paper P6 all of the questions set will be scenario type questions as opposed to the purely computational questions that you met at Paper F6. The emphasis of the questions will be on the interpretation of a given situation. You may need to propose alternative strategies and compare and contrast the results. Marks will be specifically awarded in the examination for the demonstration of effective communication skills. You will also need to demonstrate that you are aware that there may be non-tax matters that should be taken into account. The important point about this paper is that you need to develop your application skills. The best way to do this is to practise as many exam standard questions as possible. BPP Learning Media's P6 FA2008 Practice and Revision kit allows you to do just this. The Practice and Revision kit is new and has been specifically written for this paper. Most of our questions are exam standard, although some are preparation questions which ease you into the topic you are studying. Questions are grouped into topic areas so that you can easily identify those that cover particular areas. Our detailed solutions often provide top tips, advice on how to approach the question or advice on gaining easy marks. There is also a reference so that you know where the topics concerned are covered in the study text. BPP Learning Media is the publisher of choice for many ACCA students and tuition providers worldwide. Join them and plug into a world of expertise in ACCA exams. An in-depth, enlightening look at the integrated reporting movement The Integrated Reporting Movement explores the meaning of the concept, explains the forces that provide momentum to the associated movement, and examines

the motives of the actors involved. The book posits integrated reporting as a key mechanism by which companies can ensure their own long-term sustainability by contributing to a sustainable society. Although integrated reporting has seen substantial development due to the support of companies, investors, and the initiatives of a number of NGOs, widespread regulatory intervention has yet to materialize. Outside of South Africa, adoption remains voluntary, accomplished via social movement abetted, to varying degrees, by market forces. In considering integrated reporting's current state of play, the authors provide guidance to ensure wider adoption of the practice and success of the movement, starting with how companies can improve their own reporting processes. But the support of investors, regulators, and NGOs is also important. All will benefit, as will society as a whole. Readers will learn how integrated reporting has evolved over the years, where frameworks and standards are today, and the practices that help ensure effective implementation—including, but not limited to an extensive discussion of information technology's role in reporting and the importance of corporate reporting websites. The authors introduce the concepts of an annual board of directors' "Statement of Significant Audiences and Materiality" and a "Sustainable Value Matrix" tool that translates the statement into management decisions. The book argues that the appropriate combination of market and regulatory forces to speed adoption will vary by country, concluding with four specific recommendations about what must be done to accelerate high quality adoption of integrated reporting around the world.
