In 52 BC Caesar's continued strategy of annihilation had engendered a spirit of desperation, which detonated into a revolt of Gallic tribes under the leadership of the charismatic young Arvernian noble Vercingetorix. Major engagements were fought at Noviodunum, Avaricum, and Gergovia, with the last action being the most serious reverse that Caesar faced in the whole of the Gallic War. However, Vercingetorix soon realized that he was unable to match the Romans in pitched battle. Taking advantage

of the tribesmen's superior knowledge of their home territory, Vercingetorix began a canny policy of small war and defensive manoeuvres, which gravely hampered Caesar's movements by cutting off his supplies. For Caesar it was to be a grim summertime – his whole Gallic enterprise faced disaster. In the event, by brilliant leadership, force of arms, and occasionally sheer luck, Caesar succeeded in stamping out the revolt in a long and brutal action culminating in the siege of Alesia. Vercingetorix finally surrendered and Alesia was to be the last significant resistance to the Roman will. Never again would a Gallic warlord independent of Rome hold sway over the Celts of Gaul.

The ambitious 15-year agenda known as the Sustainable Development Goals, adopted in 2015 by all members of the United Nations, contains a pledge that “no one will be left behind.” This book aims to translate that bold global commitment into an action-oriented mindset, focused on supporting specific people in specific places who are facing specific problems. In this volume, experts from Japan, the United States, Canada, and other countries address a range of challenges faced by people across the globe, including women and girls, smallholder farmers, migrants, and those living in extreme poverty. These are many of the people whose lives are at the heart of the aspirations embedded in the 17 Sustainable Development Goals. They are the people most in need of

such essentials as health care, quality education, decent work, affordable energy, and a clean environment. This book is the result of a collaboration between the Japan International Cooperation Research Institute and the Global Economy and Development program at Brookings. It offers practical ideas for transforming “leave no one behind” from a slogan into effective actions which, if implemented, will make it possible to reach the Sustainable Development Goals by 2030. In addition to policymakers in the field of sustainable development, this book will be of interest to academics, activists, and leaders of international organizations and civil society groups who work every day to promote inclusive economic and social progress.

This book is an experiment in writing an American sexual history, spanning the spectrum of queer, trans, and the allegedly 'normal'. The sexual histories in this book are those where pornography and sexual research are indistinguishable; where personal obsession becomes tomorrow's archive.

Most studies of musical improvisation focus on individual musicians. But that is not the whole story. From jazz to flamenco, Shona mbira to Javanese gamelan, improvised practices thrive on group creativity, relying on the close interaction of multiple simultaneously improvising performers. In *Making It Up Together*, Leslie A. Tilley explores the practice of collective musical improvisation cross-culturally,

making a case for placing collectivity at the center of improvisation discourse and advocating ethnographically informed music analysis as a powerful tool for investigating improvisational processes. Through two contrasting Balinese case studies—of the reyong gong chime’s melodic norot practice and the interlocking drumming tradition kendang arja—Tilley proposes and tests analytical frameworks for examining collectively improvised performance. At the micro-level, Tilley’s analyses offer insight into the note-by-note decisions of improvising performers; at the macro-level, they illuminate larger musical, discursive, structural, and cultural factors shaping those decisions. This multi-tiered inquiry reveals that unpacking how performers play and imagine as a collective is crucial to understanding improvisation and demonstrates how music analysis can elucidate these complex musical and interactional relationships. Highlighting connections with diverse genres from various music cultures, Tilley’s examinations of collective improvisation also suggest rich potential for cross-genre exploration. The surrounding discussions point to larger theories of communication and interaction, creativity and cognition that will be of interest to a range of readers—from ethnomusicologists and music theorists to cognitive psychologists, jazz studies scholars, and improvising performers. Setting new parameters for the study of improvisation, *Making It Up Together* opens up fresh possibilities for

understanding the creative process, in music and beyond.

Where there was effort, there will be ease. Where there was fear, there will be

control. Where there was lack, there will be wealth. If you fear evil, know that there is no evil in this grimoire other than the evil that you bring. Be at ease with your desires, and you will not falter. The practical magick in this book gives you powers that include influence and control, with magick for money, sex, passion, and seduction. There are powers of persuasion, charm, and trust, alongside those for healing, guidance, wisdom, and peace. The demons enable you to solve legal problems, finding justice and improving your willpower. You will discover protection, bindings, and ways to improve personal skills and creativity. For those who seek greater control, there is a sequence of corruption and cursing rituals and methods for causing disease and mental suffering. Other powers create illusion or concealment and even manipulate time and reality itself. Working with demons is safe when you accept that the demons do not need to be restrained or controlled. A demon wants to fulfill its destiny by helping you obtain what you desire. When you get what you want, that is what the demon wants. This is the true harmony of magick. When you are clear about your desire, there is no risk in surrendering to the power of this magick. You are not selling your soul or making a pact with the devil, but connecting to a legion of consciousness that rewards desire, choice, and determination. Working as The Order of The Unveiled Faces we have performed magick with the powers of Lucifer and The

Hidden Demons since 1955. Our intention is to clarify the mysteries and dispel the myths. For those who seek magick, we swear an oath to provide you only with the methods that we know to be true. This is not another book about the demons of Goetia, but one that reveals the Legion of Lucifer. There are more than 100 demons in this book, and most are unknown outside of the secret orders. We reveal the full details of our source materials so you can see how these demons were hidden, and how they were found. You will have the ability to work with hundreds of unique powers. Open your mind, and you will be granted the power to shape, guide, and transform your reality.

There is a path leading to authentic manhood, cut by men who have gone before us, sons following in the footsteps of their fathers, generation after generation. There are perils along the trail, even disasters—all the more reason to rely on the guidance of a Father who has gone before. But in an age when true fathers are in short supply, how do you find the path to manhood? How do you steer clear of the dangers? John Eldredge calls men back to a simple and reassuring truth: God is our Father. In life's trials and triumphs, God is initiating boys and men through the stages of manhood from Beloved Son to Cowboy to Warrior to Lover to King to Sage. *Fathered by God* maps out the path of manhood—not more rules, not another list of principles, not formulas, but a sure path men have followed for centuries before us. Find that path and become the man God sees in you.

Excerpt from Source Problems English History This volume conforms to the basic notion of the series to which it belongs, the grouping of sources about a given problem or theme for intensive study instead of stringing together "fragments" in chronological order. It is better teaching to have a few source orgies at set times during the course than to be habitually taking the sources in attenuated doses. Yet in one respect this work is a variant: in most cases its sources are vertical rather than parallel. None of these studies deals with a single episode. Most of them cover rather long periods and are concerned with the broader problems of the origin and development of certain

political practices, with critical periods in national struggles, or with economic and social changes. The editors have often attempted to set such problems while using source books of the older type. The present grouping and the introductory material should greatly aid this kind of work. The difficulties in preparing such a book are obvious. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The introduction and rapid spread of two Eurasian mussel species, *Dreissena polymorpha* (zebra mussel) and *Dreissena rostriformis bugensis* (quagga mussel), in waters of North America has caused great concern among industrial and recreational water users. These invasive species can create substantial problems for raw water users such as water treatment facilities and power plants, and they can have other negative impacts by altering aquatic environments. In the 20 years since the first edition of this book was published, zebra mussels have continued to spread, and quagga mussels have become the greater threat in the Great Lakes, in deep regions of large lakes, and in the southwestern United States. Quagga mussels have also expanded greatly in eastern and western Europe since the first book edition was

published. Quagga and Zebra Mussels: Biology, Impacts, and Control, Second Edition provides a broad view of the zebra/quagga mussel issue, offering a historic perspective and up-to-date information on mussel research. Comprising 48 chapters, this second edition includes reviews of mussel morphology, physiology, and behavior. It details mussel distribution and spread in Europe and across North America, and examines policy and regulatory responses, management strategies, and mitigation efforts. In addition, this book provides extensive coverage of the impact of invasive mussel species on freshwater ecosystems, including effects on water clarity, phytoplankton, water quality, food web changes, and consequences to other aquatic fauna. It also reviews and offers new insights on how zebra and quagga mussels respond and adapt to varying environmental conditions. This new edition includes seven video clips that complement chapter text and, through visual documentation, provide a greater understanding of mussel behavior and distribution.

'I mean who cares about opinions, gossip, whatever, when bodies are so vulnerable, in search only of love and breath.' The body frequently escapes her, but is always very much present in these compellingly vivid, clear-eyed essays on an embodied self in flight through the world, from the brilliant young writer Ellena Savage. In Portuguese police stations and Portland college campuses, in suburban Melbourne libraries and wintry Berlin apartments, Savage shows bodies in pain and in love, bodies at work and at rest. She circles back to scenes of crimes or near-crimes, to lovers or near-lovers, to turn over the stones, re-read the paperwork, check the deeds, approach from another angle altogether. These essays traverse cities and spaces, bodies and histories, moving through forms and modes to find a closer kind of truth. Blueberries is ripe with acid, promise, and sweetness.

In 53 BC, Roman and Parthian forces collided in a confrontation that would reshape the geopolitical map and establish a frontier between East and West that would endure for the next 700 years. From the initial clash at Carrhae through to the battle of Nisibis more than 250 years later, Roman and Parthian forces fought a series of bloody campaigns for mastery of the Fertile Crescent. As Roman forces thrust ever deeper into the East, they encountered a civilization unlike any they had crossed swords with before. Originating in the steppes of Central Asia, the Parthians ruled a federated state stretching from the Euphrates to the Indus. Although Rome's legions were masters of the battlefield in the Mediterranean, the Parthians refused to fight by the rules as Rome understood them. Harnessing the power of the composite bow and their superior manoeuvrability, the Parthians' mode of warfare focused exclusively on the horse. They inflicted a bloody defeat on the legions at Carrhae and launched their own invasion of Roman territory, countered only with great difficulty by Rome's surviving forces. The Parthians were eventually thrown out, but neither side could sustain a permanent ascendancy over the other and the conflict continued. Packed with stunning artwork, including battlescenes, maps and photographs, this title examines the conflict through the lens of three key battles, revealing a clash between two armies alien to each other not only in culture but also in their radical approaches to warfare.

What does it mean to be a man? Moreover, how do you as a father instill that reality in your son? By *Raising a Modern-Day Knight*. The medieval custom of knighthood offers a unique approach to shaping a boy into a strong, godly man. Centuries ago, select boys went through a rigorous, years-long process of clearly defined objectives, goals, and ceremonies—with the hope of achieving knighthood. Along the way, they acquired a boldly masculine vision, an

uncompromising code of conduct, and a noble cause in which to invest their lives. They were the heroes of their age. In much the same way, *Raising a Modern-Day Knight* will show how you, too, can confidently guide your son to the kind of authentic, biblical manhood that can change our world. Complete with ceremony ideas to celebrate accomplishments and ingrain them in the mind of a knight-in-training, this resource is as insightful as it is practical in raising a boy to be a chivalrous, godly man.

The esoteric knowledge presented here, represents what are in my belief, some of the most carefully guarded, heavily veiled, and least understood secrets of biblical wisdom traditions. Many have stumbled upon this knowledge without necessarily grasping just what the full implications this knowledge means for unlocking and deciphering the riddles of our Holy Bible as bestowed upon us by our Father Yahweh through the line of prophets and even His only begotten Son Yahushuah Savior Messiah. The secret that unlocks all things biblical is knowledge that Cain was a child of Eve and Lucifer and not the first born son of Adam. Understanding that there are two blood lines upon the planet and that these two bloodlines have been warring with one another since the inception and dawning of humanity upon this world will help one to decipher this critical theme as it plays out through the totality of all available scripture, from the fall to soon coming judgment.

In 1519, the Conquistador Hernán Cortés landed on the mainland of the Americas. His quest to serve God, win gold, and achieve glory drove him into the heartland of what is now Mexico, where no European had ever set foot before. He marched towards to the majestic city of Tenochtitlan, floating like a jewel in the midst of Lake Texcoco. This encounter brought together cultures that had hitherto evolved in complete isolation from each other – Catholic Spain and the Aztec Empire. What ensued was the swift escalation from a clash of civilizations to a war of the worlds. At the conclusion of the Conquistador campaign of 1519–21, Tenochtitlan lay in ruins, the last Aztec Emperor was in chains, and Spanish authority over the native peoples had been definitively asserted. With the colourful personalities – Cortés, Malinche, Pedro Alvarez, Cuitláhuac, Cuauhtémoc – driving the narrative, and the vivid differences in uniforms, weapons, and fighting styles between the rival armies (displayed using stunning specially commissioned artwork), this is the fascinating story of the collapse of the
