

## All About Doll Repair Care A Guide To Restoring Well Loved Dolls

Sustainable product design is more than eco design: it goes beyond 'green' to consider the work environment, community impacts, consumer health, and economic viability, as well as environmental attributes. "Beyond Child's Play" explores the concept of sustainable product design in the context of the global doll-making industry. To initiate this research, the author reviewed eco design parameters and developed criteria for sustainable product design in the doll-making industry. Using this framework, she conducted three case studies of doll making: the American Girl doll produced in China, the Kathe Kruse doll produced in Germany and the Q'ewar Project doll produced in Peru. Themes emerged from this research that have relevance beyond the doll-making industry: the value of making a product with care; designing work for human dignity; intention and vision for sustainability; the implications of materials choices; and, transparency and sustainability. Sustainable product design calls for fundamentally new thinking. By connecting the term 'sustainable' to 'product', we raise expectations for a radically different approach to design, production, and consumption. This framework integrates the eco design principles of detoxification and dematerialization with the principle of 'humanization', to ensure that the work environment where the product is made is safe and healthy and that local communities benefit from production. This approach places increased responsibility on the industrial designer and decision-makers throughout the supply chain, including governments, corporations, and citizens. Sustainable product design can be implemented effectively only when systems are in place that support sustainable production and consumption.

Two Furnished Rooms and a Little Back Porch opens a window looking out on the world of a bygone generation. It is a charming biography of a couple that relished life and treasured family more than any gold. The book is filled with the details of a simpler, less cluttered life, while revealing the hardships endured by a generation lacking antibiotics and most of the labor saving appliances that we now take for granted. As you read the book, you will be surprised at how relevant it is to understanding how your own grandparents and great-grandparents lived. As an example, we now buy and sell automobiles without so much as a second thought. However, in the transition years between horse riding or foot travel and the automotive age, cars were wonderful possessions to be cared for and cherished. In this context, it is much easier to see the origins of the American love for cars and why our grandparents differed from us in their far-more careful treatment of the "family" car. The Kibbles lived a life that was filled with opportunities to help their neighbors and friends. Two Furnished Rooms and a Little Back Porch describes a couple who valued simple pleasures and gave generously to those in need. The ancient Greek philosopher who tirelessly searched for "an honest man" would have wanted to sit down and have a long, long talk with Edyth and Jesse Kibble.

An unconventional family idyll set on a gentleman's farm in Pennsylvania in the 1930s, *Once: As It Was* is a vibrant pastoral memoir that mixes unsentimentality with childhood innocence in a moving story that builds to a spine-tingling confrontation. Of all my far back memories two remain most vivid, as if they had just happened. The first is of an incident that occurred in a few minutes' time; the second, a matter of months. The first happening surely was the key to my survival of the second. So begins, veiled in mystery, Griselda Ohannessian's delightful childhood memoir about growing up on a farm in Bucks County, Pennsylvania, beneath the friendly blue bowl of sky, and the dangerous, preternatural events of the summer of 1939 that changed her life forever. *Once: As It Was* is narrated through the lens of the author's twelve-year-old self. Her farm-home today a golf course was a world as enchanting as Narnia, but without the illusion of fantasy: the perfume of locust trees in bloom, orioles patching nests, fairy dinners in ferny woodlands, the Elephant House, orange monkeys, ringing rocks. There is her dear father Bousie (rhymes with Howsie), who once dressed up like a crackling crone to buy apples from his daughter's makeshift apple stand, her loving Ma, her two sisters and brother, the Owls (the Cherokee Indian farmhands who were also part of the family), and others. There are the dirt roads that split off from macadam, muggy river bottom weather, the glow of candles and lamps, her pet lamb Yamie, the bovine troll, and the roosters in action. Ohannessian's writing-memory meanders intently like a bright creek, through her schoolhouse where Margaret Toomer, the writer Jean Toomer's daughter, was one of two black students, through the living presence of books and pen pals, many secret places, a run-in with Professor Einstein, and even a little S. E. X. Then one fateful day a band of writers arrives, led by the poets Laura Riding and Robert Graves. Photographs, letters, newspaper clippings, poems, and a few bars of Morse code provide a lively, natural counterpoint to Ohannessian's moving tale. *Cincinnati Magazine* taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a

ringside seat on the issues shaping the region.

This key collection brings together a selection of papers commissioned and published by the Cardiff Centre for Ethics, Law & Society. It incorporates contributions from a group of international experts along with a selection of short opinion pieces written by even as generations pass, the pride of being Italian is in the genes of those who were raised in Italian immigrant families. Caruso's *Journey Without A Map* appropriately begins with pasta cooking instructions, and from that point the aroma of tomatoes, olives and red wine are never far from the stories she weaves of herself and the impact of her family. Whether making connections between her Uncle Nick's nose and her Roman ancestors, or detailing the daily rituals of her shepherdess mother on the Italian hillsides, Caruso relays the information in broad colourful strokes that are at once both inviting and humorous. With her earliest recollections of her family life in New Jersey, her father's grocery store, her mother's Catholic admonishments, the death of Santa Clause, the family habits and the ever-present smells from the kitchen brings to us her sense of belonging to a rich heritage. But Caruso's journal and journey are not all feel-good, romanticized Italian immigrant experience. There are those reflections on her mother's life that are as beautiful and intense as they are revealing; the portraits of her extended family members that stand outside the warmth of family love, and the tensions that develop when families are separated by geography and dreams. And though the wisdom of her father and mother guides her through her growing years, it would have to be their remembered love that guides Caruso through her own darkest hours of breast cancer and family break up. As generations of North Americans move farther away from their immigrant experience and origins, Caruso's *Journey Without A Map* conveys that in our increasingly homogenized cultural world what may best nourish us in our needs, shape us in our identities, and be our strength when we are weakest, is our family's heritage and love.
