The powerful new novel from the master storyteller - inspired by the true story of one man who might have stopped World War II.

HISTORICAL PRELUDE Ettore Majorana's fame solidly rests on testimonies like the following, from the evocative pen of Giuseppe Cocconi. At the request of Edoardo Amaldi, he wrote from CERN (July 18, 1965): "In January 1938, after having just graduated, I was invited, essentially by you, to come to the Institute of Physics at the University in Rome for six months as a teaching assistant, and once I was there I would have the good fortune of joining Fermi, Bernardini (who had been given a chair at Camerino a few months earlier) and Ageno (he, too, a new graduate), in the research of the products of disintegration of  $\pi$ -L "mesons" (at that time called mesotrons or yukons), which are produced by cosmic rays [ . . . ] "It was actually while I was staying with Fermi in the small laboratory on the second floor, absorbed in our work, with Fermi working with a piece of Wilson's chamber (which would help to reveal mesons at the end of their range) on a lathe and me constructing a jalopy for the illumination of the chamber, using the flash produced by the explosion of an aluminum ribbon short circuited on a battery, that Ettore Majorana came in search of Fermi. I was introduced to him and we exchanged few words. A dark face. And that was it.

Health.

"Very funny and unexpected, a material response to our times, plush as velvet." –Rachel Cusk "A wickedly funny and emotionally expansive novel about all the bewildering ways we seek solace from the people and things that surround us." – Jenny Offill David Leavitt returns with his signature "coolly elegant prose" (O, The Oprah Magazine) to deliver a comedy of manners for the Trump era. It is the Saturday after the 2016 presidential election, and in a plush weekend house in Connecticut, an intimate group of friends, New Yorkers all, has gathered to recover from what they consider the greatest political catastrophe of their lives. They have just sat down to tea when their hostess, Eva Lindquist, proposes a dare. Who among them would be willing to ask Siri how to assassinate Donald Trump? Liberal and like-minded editors, writers, a decorator, a theater producer, and one financial guy, Eva's husband, Bruce-the friends have come to the countryside in the hope of restoring the bubble in which they have grown used to living. Yet with the exception of one brash and obnoxious book editor, none is willing to accept Eva's challenge. Shelter in Place is a novel about house and home, furniture and rooms, safety and freedom and the invidious ways in which political upheaval can undermine even the most seemingly impregnable foundations. Eva is the novel's polestar, a woman who moves through her days accompanied by a roving, carefully curated salon. She's a generous hostess and more than a bit of a control freak, whose obsession with decorating allows Leavitt to treat us to a slyly comic look at the habitués and fetishes of the so-called shelter industry. Yet when, in her avidity to secure shelter for herself, she persuades Bruce to buy a grand if dilapidated apartment in Venice, she unwittingly sets off the chain of events that will propel him, for the first time, to venture outside the bubble and embark on a wholly unexpected love affair. A comic portrait of the months immediately following the 2016 election, Shelter in Place is also a meditation on the unreliable appetites-for love, for power, for freedom-by which both our public and private lives are shaped.

Born Liquid is the last work by the great sociologist and social theorist Zygmunt Bauman, whose brilliant analyses of liquid modernity changed the way we think about our world today. At the time of his death, Bauman was working on this short book, a conversation with the Italian journalist Thomas Leoncini, exactly sixty years his junior. In these exchanges with Leoncini, Bauman considers, for the first time, the world of those born after the early 1980s, the individuals who were 'born liquid' and feel at home in a society of constant flux. As always, taking his cue from contemporary issues and debates, Bauman examines this world by discussing what are often regarded as its most ephemeral features. The transformation of the body – tattoos, cosmetic surgery, hipsters – aggression, bullying, the Internet, online dating, gender transitions and changing sexual preferences are all analysed with characteristic brilliance in this concise and topical book, which will be of particular interest to young people, natives of the liquid modern world, as well as to Bauman's many readers of all generations.

Dante (1265-1321) is the greatest of Italian poets and his DIVINE COMEDY is the finest of all Christian allegories. To the consternation of his more academic admirers, who believed Latin to be the only proper language for dignified verse, Dante wrote his COMEDY in colloquial Italian, wanting it to be a poem for the common reader. This edition is translated by, and includes an Introduction by, Dorothy L. Sayers.
