In a vividly detailed account that incorporates many different voices and perspectives, Chiou-ling Yeh explores the origins of these public events and charts how, from their beginning in 1953, they developed as a result of Chinese business community ties with American culture, business, and politics. The Miss America pageant has been held in Atlantic City for the past hundred years, helping to promote the city as a tourist destination. But just a few streets away, the city hosts a smaller event that, in its own way, is equally vital to the local community: the Miss'd America drag pageant. Drag Queens and Beauty Queens presents a vivid ethnography of the Miss'd America pageant and the gay neighborhood from which it emerged in the early 1990s as a moment of campy celebration in the midst of the AIDS crisis. It examines how the pageant strengthened community bonds and activism, as well as how it has changed now that

Rupaul's Drag Race has brought many of its practices into the cultural mainstream. Comparing the Miss'd America pageant with its glitzy cisgender big sister, anthropologist Laurie Greene discovers how the two pageants have influenced each other in unexpected ways. Drag Queens and Beauty Queens deepens our understanding of how femininity is performed at pageants, exploring the various ways that both the Miss'd America and Miss America pageants have negotiated between embracing and critiquing traditional gender roles. Ultimately, it celebrates the rich tradition of drag performance and the community it engenders. Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

At times mirroring and at times shockingly disparate to the rise of traditional white American medicine, the history of African-American health care is a story of traditional healers; root doctors; granny midwives; underappreciated and overworked African-American physicians; scrupulous and unscrupulous white doctors and scientists; governmental support and neglect; epidemics; and poverty. Virtually every part of this story revolves around race. More than 50 years after the publication of *An American Dilemma*, Gunnar Myrdal's 1944 classic about race relations in the USA, *An American Health Dilemma* presents a comprehensive and groundbreaking history and social analysis of race, race relations and the African-American medical and public health experience. Beginning with the origins of western medicine and science in Egypt, Greece and Rome the authors explore the relationship between race, medicine, and health care from the precursors of American science and medicine through the days of the slave trade with the harrowing middle passage and equally deadly breaking-in period through the Civil War and the gains of reconstruction and the reversals caused by Jim Crow laws. It offers an extensive examination of the history of intellectual and scientific racism that evolved to give sanction to the mistreatment, medical abuse, and neglect of African Americans and other non-white people. Also included are biographical portraits of black medical pioneers like James McCune Smith, the first African American to earn a degree from a European university, and anecdotal vignettes, like the tragic story of "the Hottentot Venus", which illustrate larger themes. *An American Health Dilemma* promises to become an irreplaceable and essential look at African-American and medical history and will provide an invaluable baseline for future exploration of race and racism in the American health system.

Focusing on Black Americans' participation in world's fairs, Emancipation expositions, and early Black grassroots museums, *Negro Building* traces the evolution of Black public history from the Civil War through the civil rights movement of the 1960s.
