The Essential Guide: Writing Research Papers Across the Disciplines is the ultimate brief research reference. Pocket-sized and inexpensive, this research guide is priced to work as a supplement in any research-oriented course. Designed to be a guide for writing research papers both in first-year composition courses and in upper-level courses in all disciplines, The Essential Guide: Writing Research Papers Across the Disciplines, Second Edition, features advice on the judicious handling of research materials as well as extensive coverage of electronic research and methods for publishing on the web. It remains rooted in the fundamentals of thorough library research but encourages and equips students to use the Internet as well as field research where appropriate. It endorses the written word while recognizing the value of graphics, audio, video, and slide presentations. Numerous student samples and excerpts model different types of research papers from across the disciplines. Comprehensive coverage of the four most common documentation systems increases the text's usability beyond the composition classroom. A dedicated website for the original Writing Research Papers is available to users of the brief version as well.

This volume presents a collection of articles selected from Teaching of Psychology, sponsored by APA Division 2. It contains the collective experience of teachers who have successfully dealt with students' statistics anxiety, resistance to conducting literature reviews, and related problems. For those who teach statistics or research methods courses to undergraduate or graduate students in psychology, education, and the social sciences, this book provides many innovative strategies for teaching a variety of methodological concepts and procedures in statistics and research methods courses.

Provides instructions on narrowing a topic, using the correct format, and writing the actual text for research papers, and offers information on using word processors and online databases. Doing Collaborative Research in Psychology offers an engaging journey through the process of conducting research in psychology. Using an innovative team-based approach, this hands-on guide will assist undergraduates with their research—in their courses and in collaboration with faculty or graduate student mentors. The focus on this team-based approach reflects the collaborative nature of research methods and experimental psychology. Students learn how to work as a team, generate creative research ideas, design and pilot studies, recruit participants, collect and analyze data, write up results in APA style, and prepare and give formal research presentations. Students also learn practical ways in which they can promote their research skills as they apply to jobs or graduate school. A unique feature to this book is the ability to read chapters of the text either sequentially or separately, which allows the instructor or research mentor the flexibility to assign those chapters most relevant to the current state of the research project.

This timely text describes the role of program evaluation in counselor education and provides step-by-step guidance for faculty seeking to develop comprehensive Student Learning Outcome (SLO) evaluation plans to meet accountability expectations. It serves as a blueprint for demystifying the SLO process and making the switch from an input-based measure of productivity that focuses on what counseling programs do, to an outcome-based approach that concentrates on the quality of learning through evidence-based assessment of students' knowledge and skills. The first and second parts of the book lay the foundation for the SLO process and provide practical guidance for identifying and developing direct and indirect measures of student learning. Part III offers strategies for creating measures; collecting, managing, and reporting student data; and using data to ensure competence. In Part IV, counselor educators across the country offer hands-on application through a wide variety of SLO activities and rubrics linked to each of the curricular and specialty areas of the 2016 CACREP Standards. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@counseling.org

Meeting your students where they are, COMPOSING TO COMMUNICATE: A STUDENT'S GUIDE prepares and engages an increasingly varied first-year composition classroom, in which all students need to achieve the same course outcomes but are not all learning at the same skill level. The fundamental concept behind COMPOSING TO COMMUNICATE: A STUDENT'S GUIDE is that writing is a communication skill grounded in problem solving. The textbook uses accessible language and opportunities for practice to help students conceptualize writing tasks with key communication goals in mind and become more confident, efficient, and effective writers, in college and in their professional lives. Writing project chapters cover evaluations, arguments, narratives, profiles, literary analyses, and researched writing, and include chapters focused on community engagement and vital 21st century literacy skills. Every Part 2 chapter shows real student work in proposal and final draft, and includes an interview with the student writer. This edition has been updated to reflect guidelines from the 2016 MLA HANDBOOK, Eighth Edition. The author also points out important differences in APA formatting for various types of assignments. This is a multipurpose book that will aid students regardless of the type of writing assignment they face--a good book to keep for all of their psychology career.

Updated and reorganized, Conducting and Reading Research in Kinesiology, Sixth Edition teaches students how to conduct their own research and how to read--with understanding--the research that others

in the field have done. This text is comprehensive yet practical and understandable, incorporating many examples of the application of various research methods and techniques in an attempt to increase students' grasp of the research process. Written for those students with little research background, and those who may not write a master's thesis, the text helps readers develop an appreciation for research and an understanding of how different types of research are conducted so they will become good consumers and readers of the research of others. Conducting and Reading Research in Kinesiology, Sixth Edition will also serve the need of students beginning the introduction to research course knowing they will write a master's thesis or complete a master's project, as it highlights the numerous

The importance of scientific investigation and research is becoming more pronounced in today's society, with many organizations relying on this research to make informed decisions. As such, research methodology courses have been integrated into undergraduate and master's programs at most academic institutions where students are being challenged to conduct and write research. Social Research Methodology and New Techniques in Analysis, Interpretation, and Writing is a pivotal reference source that provides vital research on the main concepts of research writing, including the guidelines of research methodology and proposal designing. While highlighting topics such as mixed method research, research objectives, and project proposals, this publication provides examples of eight PhD proposals and the frameworks used in organizing qualitative, quantitative, and mixed method research. This book is ideally designed for graduate-level students, academicians, researchers, educators, scholars, education administrators, and policymakers seeking current research on the key steps and techniques used in organizing social research proposals.

Clinical Research for the Doctor of Nursing Practice, Third Edition is a must-have text focused on teaching students how to conduct research needed for their capstone project.

Written for students, educators, and researchers, Methods in Educational Research offers a refreshing introduction to the principles of educational research. Designed for the real world of educational research, the book's approach focuses on the types of problems likely to be encountered in professional experiences. Reflecting the importance of The No Child Left Behind Act, "scientifically based" educational research, school accountability, and the professional demands of the twenty-first century, Methods in Educational Research empowers educational researchers to take an active role in conducting research in their classrooms, districts, and the greater educational community—activities that are now not only expected but required of all teachers.

Enrolling in a university is a big challenge. The passage to university culture and its requirements can be difficult and abrupt for those who have not developed efficient learning strategies and study skills. The book Academic Study Skills: An Introduction aims at smoothing this passage for non-native students of English who want to develop and improve the skills needed for English medium study at university level.

Key features •Step-by-step guidance Structured in 11 units, the book familiarizes students with the academic environment, helps them become aware of their learning style, fosters learners to acquire and develop efficient learning strategies and study skills necessary in the academic world, and equips them with basic research skills. •Interactive content The content of each unit is 'revealed' through a gradual process of discovery that leads students from what they already know (background knowledge) to the acquisition of practical skills and knowledge. The course combines interactive input with a variety of practical activities. •Hands-on approach The book fosters the learning by doing approach: students develop their learning styles and study skills by completing many tasks that require them to use various learning strategies and skills.??????????????????

THE NEW HARBRACE GUIDE: GENRES FOR COMPOSING offers a sleek and dynamic rhetorically based writing guide that includes a rhetoric, writing guide, guide to genres and persuasion, thematic reader, and research manual (offering both MLA and APA style guides). It also provides additional coverage of punctuation, grammar, and style. THE NEW HARBRACE GUIDE brings the rhetorical situation to life, whether on the screen, on the page, in an academic setting or at work, at home, and in the community, especially with its emphasis on knowledge transfer. Renowned author and educator Cheryl Glenn translates rhetorical theory into easy-to-follow (and easy-to-teach) techniques that help sharpen students' rhetorical abilities; their digital, print, and multimodal composing skills; and the critical reading and thinking skills that promote intellectual confidence. The Oxford Handbook of Undergraduate Psychology Education provides psychology educators, administrators, and researchers with up-to-date advice on best teaching practices, course content, teaching methods and classroom management strategies, student advising, and professional and administrative issues.

This book helps readers become better writers of psychology and better writers in general. After reading thousands of course papers, theses, and dissertations, Dr. Miller knows and addresses the issues that students find most challenging when writing about psychology. Written with the utmost flexibility in mind, the chapters can be read in any order. More comprehensive than similar texts, this book provides detailed coverage of how to write empirical reports, research proposals, and literature reviews, and how to read meta-analyses. Readers will also find invaluable strategies for improving one's writing including how to adopt an engaging yet accurate style, thorough coverage of grammatical and word use rules that govern writing in general, and the APA (American Psychological Association) rules that govern the expression of that content. Readers will appreciate these helpful learning tools: Describes the most common APA style rules encountered and/or highlights references to the Manual when more detailed knowledge is required. Numerous examples from journal articles that help readers gain a clearer understanding of content they will encounter in writing psychological reports. Chapter exercises that provide an opportunity to apply the points conveyed in each chapter. Examples of the most common mistakes made by students and how to avoid them and best practices for improving one's writing. Tables that help readers gain a clearer understanding of the new standards in the APA Publications Manual, 6th ed (Appendix A). Errors in APA Style exemplified via an improperly formatted paper and another version noting corrections pertaining to APA style and grammar, to highlight the most common pitfalls encountered by students (Appendix B). Ideal for courses on writing in psychology or as a supplement for graduate or advanced undergraduate courses in research design or research methods, this book also serves as a resource for anyone looking for guidance on how to write about psychological content.

Helps educators to design assignments and rigorous rubrics that truly measure student learning objectives The ability of students to pass an examination does not necessarily reflect or guarantee their ability to apply knowledge in practice, nor are traditional exams a sufficient means to evaluate all learning objectives. Written for both new and seasoned nurse educators, this book is unique in its provision of rigorous rubrics that fully take into account learning objectives and the teaching–learning process, and promote objective grading. It examines a variety of time-tested, alternative evaluation methods, discusses how to design them, and includes best practices for using them. The book provides an overview of how evaluation and rubrics play an integral part within the larger nursing education teaching–learning process. It helps educators clearly define learning objectives and desired outcomes, and how to evaluate them. The book describes how to formulate a variety of teaching strategies, design effective assignments, and examine in detail specific evaluation methods including best practices for their use and exemplar analytic scoring rubrics. Also available are detailed, modifiable grading rubric templates for each assignment presented. Evaluation methods covered include papers, presentations, participation, discussion boards, concept maps, case studies, reflective journals, and portfolios. The book will assist both new and seasoned nurse educators in their quest to graduate competent, safe nurses at all levels of nursing education. Key Features: Provides rigorous, modifiable rubrics for learning objective grading Includes time-tested alternative evaluation methods Describes best practices for designing a variety of teaching–learning evaluation tools Includes guidelines for writing clear assignment descriptions Discusses papers, presentations, concept maps, case studies, portfolios, and more
