Selectivity and Discord addresses the fundamental question of whether there are grounds for belief in experimental results. Specifically, Allan Franklin is concerned with two problems in the use of experimental results in science: selectivity of data or analysis procedures and the resolution of discordant results. By means of detailed case studies of episodes from the history of modern physics, Franklin shows how these problems can be--and are--solved in the normal practice of science and, therefore, that experimental results may be legitimately used as a basis for scientific knowledge.

This study offers insight into the principles of trace environmental quantitative analysis (TEQA), focusing on data reduction and interpretation, sample preparation and instrumental analysis from a wide range of matrices, including sludge, sediment, oil and air, as well as ground, waste and surface water. It draws on the author's own research with metal chelate solid-phase extraction.

APEX Test Prep's Praxis 2 Elementary Education Multiple Subjects 5001 Exam Prep: Praxis 5001 Study Guide and Practice Test Questions [2nd Edition] APEX Test Prep believes that preparing for the Praxis II Elementary Education exam shouldn't be harder than the test itself. BIOCALCULUS: CALCULUS, PROBABILITY, AND STATISTICS FOR THE LIFE SCIENCES shows students how calculus relates to biology, with a style that maintains rigor without being overly formal. The text motivates and illustrates the topics of calculus with examples drawn from many areas of biology, including genetics, biomechanics, medicine, pharmacology, physiology, ecology, epidemiology, and evolution, to name a few. Particular attention has been paid to ensuring that all applications of the mathematics are genuine, and references to the primary biological literature for many of these has been provided so that students and instructors can explore the applications in greater depth.

Although the focus is on the interface between mathematics and the life sciences, the logical structure of the book is motivated by the mathematical material. Students will come away with a sound knowledge of mathematics, an understanding of the importance of mathematical arguments, and a clear understanding of how these mathematical concepts and techniques are central in the life sciences.
