Philosophy of Molecular Medicine: Foundational Issues in Theory and Practice aims at a systematic investigation of a number of foundational issues in the field of molecular medicine. The volume is organized around four broad modules focusing, respectively, on the following key aspects: What are the nature, scope, and limits of molecular medicine? How does it provide explanations? How does it represent and model phenomena of interest? How does it infer new knowledge from data and experiments? The essays collected here, authored by prominent scientists and philosophers of science, focus on a handful of mainstream topics in the philosophical literature, such as causation, explanation, modeling, and scientific inference. These previously unpublished contributions shed new light on these traditional topics by integrating them with problems, methods, and results from three prominent areas of contemporary biomedical

science: basic research, translational and clinical research, and clinical practice.

The human history has many white links throughout its genesis phases, throughout its evolutionary and devolutionary periods and throughout its controversial becoming and fulfillments... One of this high dramatic controversial field is the persistence overall in Western Hemisphere of the concept of Race within the Specie Sapiens, Genus Homo, Hominid Family, Order Primate, Class Mammalia, Phylum Vertebrata, Kingdom Animalia, despite of anthropological and genetically advancements in a scientific argumentative way of the Species Sapiens without different Races within... Even if the World's Politics and the World's Media are still stubborn in presenting and defending the idea of different Races within our unique Species Sapiens, the biologic realities with scientific proofs are beyond of any doubt in favor of the Sapiens Species without different Races within, by putting thus aside a class of political and social concepts as race and racist, Rasse und Rassismus, with subsequent concept-ological developments of Pro-rassismus and Anti-rassismus...
