will likely represent a significant monthly commitment. Buying a car is a major purchase for most of us, and we don't need to make a mistake. If we buy a bad meal, we just don't go back to the restaurant. If our vacation choice isn't fulfilling, we can make different plans next year. Returning a car after two months because it doesn't fit your needs can result in a real financial blow. I wish I could be there to help you in person. Because I can't, I decided to write this book. Drive safely, and be well, my friends. Consumer Sourcebook provides a comprehensive digest of accessible resources and advisory information for the American consumer. The word fear may sound nonsensical to a dealer who has been in business for thirty years or more, but ask yourself a few questions. If your store is not performing, do you know why? If so, why haven't you made important changes? A dealer from a premium franchise recently admitted that he avoids changes in order to keep his staff of over twenty years intact. This is what I call “broken thoughts.” You'll find out how to overcome these broken thoughts with the three-car sales system described in this book and how to turn

Chronic Pain: A Self-Help Guide offers a practical program for coping with chronic pain. Dr. Steven W. Pollard appraises the current methods for managing chronic pain and presents his program for a down-to-earth, flexible menu of coping strategies for fellow sufferers of chronic pain. Walking step-by-step through the stages of pain from denial, anger, bartering, and depression to acceptance, Dr. Pollard leads the sufferer gently on the route towards a clear and simple set of guidelines to enable them to live with, cope with, and take control of their own lives in the midst of chronic pain. In approximately August of 2008, he began developing his own severe chronic lower back pain and suffered with it for the next three years. His experience with severe chronic pain gave him the impetus to develop a program to help him cope with the pain. While he still has some severe pain, he has regained new purpose in his life to help others learn how to cope with their pain. With his professional training in treating severe chronic pain and the added advantage of experiencing severe pain himself, he was able to develop the effective method for managing chronic pain. Now he presents both his story and his methods in hopes of helping others overcome their suffering and build new lives.
