Cross/Miller's market-leading THE LEGAL ENVIRONMENT OF BUSINESS: TEXT AND CASES, 11E delivers comprehensive, cutting-edge coverage using an interesting, understandable approach. You master vital skills as you study the legal environment within the context of law in today's increasingly regulated business world. Dozens of examples, business-oriented features, and step-by-step analyses place every topic within a meaningful context. You learn how today's legal environment is more about the constraints of business than the simple rules of law with this book's focus on managerial decision-making and current events. This edition makes ethics a priority with a new framework -- the IDDR Approach -- for making ethical decisions. The authors focus less on "black letter law" and more on broader issues that correspond to what business owners and managers face. Updated cases, content, and learning features present the latest developments and skills to succeed in today's legal landscape. Solid State Lighting Reliability: Components to Systems begins with an explanation of the major benefits of solid state lighting (SSL) when compared to conventional lighting systems including but not limited to long useful lifetimes of 50,000 (or more) hours and high efficacy. When designing effective devices that take advantage of SSL capabilities the reliability of internal components (optics, drive electronics, controls, thermal design) take on critical importance. As such a detailed discussion of reliability from performance at the device level to sub components is included as well as the integrated systems of SSL modules, lamps and luminaires including various failure modes, reliability testing and reliability performance. A follow-up, Solid State Lighting Reliability Part 2, was published in 2017.
