New edition of the most comprehensive Chinese Medicine Obstetrics and Gynecology textbook in the English language World-renowned author and teacher Giovanni Maciocia gives a clear, detailed explanation of the physiology, pathology and aetiology of women's disorders in Traditional Chinese Medicine (TCM) and adapts these to Western conditions and patients. Seventy gynecological conditions are discussed in detail with consideration given to differentiation between conditions, the advised treatment using acupuncture and herbs, prevention and prognosis. Guidelines on lifestyle and use of the eight Extraordinary Vessels are provided, with case studies allowing easy application of theory to practice throughout. New for this edition: New attractive two-colour layout with book marks to ease navigation Endometriosis and its treatment now included and fully covered in a new chapter Infertility chapter includes recent research highlighting factors in infertility All prescriptions now removed from the text and attractively presented in three appendices: Patient Remedies, Prescriptions and Three Treasure Remedies "Obstetrics and Gynecology in Chinese Medicine is a paradigmatic work. It is tempered with reverence and innovation, meticulous archival attention and detailed modern clinical insight. When future generations look back at this work...they will find not only knowledge and wisdom but also reasons for inspiration and awe." From the Foreword to the first edition by Ted J. Kaptchuk, Associate Director, Centre for Alternative Medicine Research, Beth Israel Hospital; Instructor in Medicine, Harvard medical School, Boston, USA. • Physiology and pathology of women's disorders in Chinese medicine • Aetiology and diagnosis of women's disorders • Differentiation and treatment – including acupuncture, herbs and patent remedies – of 64 gynecological conditions • Prevention and prognosis for each disease • Approximately 100 case histories from the author's own practice • A detailed discussion of the use of the eight extraordinary vessels in gynecology

Vols. for 1958 contain Minutes of the 100th General Assembly of the United Presbyterian Church of North America, the 170th General Assembly of the Presbyterian Church in the U.S.A., and the 170th General Assembly of the United Presbyterian Church of the U.S.A., the reports of the boards of the Presbyterian Church in the U.S.A. and the United Presbyterian Church of North America, and statistics of the two latter bodies.

An exploration of the intersection between art and life among the Bedouins and its implications for Orientalists.

This book explores a systematic bias in translating the Bible and in interpreting its teachings, which suggests that men are inherently suited to be leaders in the home, church, and community, while it is God's plan for women to submit to men's leadership. This erroneous understanding of the Bible has been promoted by certain influential evangelical Christian leaders in order to push back the growing influence of feminist attitudes, the expansion of women's leadership

roles, and the increase in egalitarian relationships among evangelicals in English-speaking North America. Written in a down-to-earth, engaging way, this book will appeal to young women searching the Bible for guidance on women's roles in relationships and in the church. It highlights the dynamic roles played by women in the narratives of Old and New Testament and in the work of Bible translation. Built on a solid framework of biblical and linguistic scholarship, this book will also be of interest to Bible scholars and to anyone seeking a deeper understanding of what the Bible actually says in its original languages.

The Ananga Ranga (Stage of Love) or Kamaledhiplava (Boat in the Sea of Love) is an Indian sex manual written by Kalyana malla in the 15th or 16th century. The poet wrote the work in honor of Lad Khan, son of Ahmed Khan Lodi. He was related to the Lodi dynasty, which from 1451 to 1526 ruled from Delhi. Later commentators have said it is aimed specifically at preventing the separation of a husband and wife. This work is often compared to the Kama Sutra, on which it draws. It was translated into English in the year 1885, under the editorship of Richard Francis Burton and consequently burnt by his wife Isabel Burton in the weeks following his death.

How to Deal with 21st Century American Women teaches men from all walks of life how to understand and adapt to the evolving male-female paradigm shift occurring at every level of American society. Today, women run companies, become school principals, military generals, police chiefs, corporation CEOs and dozens of other power positions where they make more money and give orders to male employees. It's no longer exclusively "a man's world." Women compete for the highest job slots at colleges, governorships of states, Ph.D. programs and athletic money in professional sports. Where men once drove the car for dates, women demand equality in the work, family and social realm. Men need to slide over and share the driving with women. This enormous emotional, social and sexual shift in the Western world creates a new male-female relationship dynamic. This shift proves the first of its kind in human history. The new dynamic also creates incredible confusion, frustration and exasperation. Along the way, women want men to be men. They want a good man to marry and raise a family. But early in the 21st century, half of all marriages end in divorce. Male domestic violence continues at distressing levels. Weekend fathers explode on the emotional landscape. Children suffer the loss of structure, a balanced family unit and a sense of belonging. This book enlightens, educates and encourages men to maintain their masculinity while adapting and thriving in the new male-female paradigm of the 21st century. The book presents straight-forward ideas to men on how to deal with a 21st century American woman. This book shows men how to successfully marry the right woman for long-term success. It shows which women to avoid. The book creates new understandings to move men forward in relationships in the 21st century.

This book is a companion to the IYC-2011 celebration. The eleven chapters are organized into three sections: Section 1: Marie

Curie's Impact on Science and Society, Section 2: Women Chemists in the Past Two Centuries, and Section 3: Policy Implications. The authors invited to contribute to this book were asked to orient their chapter around a particular aspect of Marie Curie's life such as the ethical aspects of her research, women's role in research or her influence on the image of chemists. Our hope is that this book will positively influence young women's minds and decisions they make in learning of chemistry/science like Marie Curie's biography. But we do hope this book opens an avenue for young women to explore the possibility of being a scientist, or at least to appreciate chemistry as a human enterprise that has its merit in contributing to sustainability in our world. Also we hope that both men and women will realize that women are fully competent and capable of conducting creative and fascinating scientific research.

This title is directed primarily towards health care professionals outside of the United States. Concentrating specifically on research into midwifery and related disciplines, this book appraises eight previously published research articles that present both qualitative and quantitative research studies. Each of the various elements is analysed - from the methodology through to the interpretation of the results. Each article is annotated with notes and questions, thereby enabling the reader to actively participate in the appraisal. Presents a range of quantitative and qualitative research articles relevant to midwifery practice in a unique workbook format Enables readers to gain hands-on, practical experience of critiquing research Supplementary tools, checklists, mnemonics and tables enable deeper understanding of the process of appraising research Commentary and expert critique provided by lecturers in midwifery research Contains a user-friendly guide to statistics

We are living in a culture still defined by unrealistic gender stereotypes and expectations. Despite much progress being made, women are still not, on the whole, treated as equals to men. Gender pay gaps, invisible labour, and outdated attitudes towards women (especially around sex and relationships) mean that many of us grow into adulthood shackled to our need to be nice, liked, and to please, at the detriment of our happiness and wellbeing. In *Ditch the People Pleaser*, you are going to explore four of the areas where you may find yourself people pleasing: life, relationships (including love and sex), work, and business and leadership. This book will help you to: 1) Undo the effects of people pleasing in your life so you ARE free from expectations + boxes. 2) Release the need to please so you are able to achieve deep connection, a sense of purpose + guidance from your inner knowing. 3) Break the cycle for your personal + spiritual growth AND for the young people in your life. You will be able to model and pass on a healthier way of being for the next generation. 4) Use techniques and practices that will transform the way you feel about being nice and acceptable. 5) Strengthen your relationship to yourself and the people in your life, expand into your work and contribute to compassionate change. Not only will you discover what the antidote is to people pleasing you will be supported with practical techniques and supportive resources to ditch the need to please right away. This book brings together the voices of contemporary labour leaders, activists, old timers, and academics to discuss the first hundred years of the Mine, Mill and Smelter Workers Union.

"A splendid volume . . . fused with political and philosophical insight into the fundamental concepts underlying the Declaration."--American Journal of International Law

Examines the full spectrum of women's participation in the social, economic, religious, and poetic debates surrounding the French Revolution.

In recent years, Islamic law, or Shari'a, has been appropriated as a tool of modernity in the Muslim world and in the West and has become highly politicised in consequence. Wael Hallaq's magisterial overview of Shari'a sets the record straight by examining the doctrines and practices of Islamic law within the context of its history, and by showing how it functioned within pre-modern Islamic societies as a moral imperative. In so doing, Hallaq takes the reader on an epic journey tracing the history of Islamic law from its beginnings in seventh-century Arabia, through its development and transformation under the Ottomans, and across lands as diverse as India, Africa and South-East Asia, to the present. In a remarkably fluent narrative, the author unravels the complexities of his subject to reveal a love and deep knowledge of the law which will inform, engage and challenge the reader.

Whether, with whom, and when to have children are among the most precious of our private decisions. Increasingly, however, the interest of others in these decisions raise difficult questions about the role of government and health professionals in influencing reproductive choice. Nowhere is this tension felt more keenly than in the context of HIV and AIDS. This book takes on the tough issues related to HIV and childbearing: Is there a moral right to have children? What are the limits of persuasion? Are there constitutional constraints on interference with reproduction? What are the precedents with restricting the childbearing behavior of women who use drugs? The book includes original work by doctors, lawyers, ethicists, and public health professionals. Also included are the experiences of HIV-infected women and their health care providers. Interviews were conducted over a two-year period with HIV-infected women and with health care providers from four cities to examine what issues of childbearing in the context of HIV mean to them. The book is divided into four sections on medical and public health issues, legal issues, ethical and social issues, and comments from the community. It concludes with recommendations for clinical practice and public policy. Public policy makers, health care providers, practitioners in bioethics, pediatrics, health law, and obstetrics/gynecology will find this book invaluable when dealing with issues related to HIV and childbearing.

This book examines the low level of numeracy in Britain, reasons why numeracy is critical, and the forces affecting adults. Section 1 describes the educational environment in which adults learn mathematics. Chapters 1-2 explore the role and purposes of adult education and identify characteristics of and influences on learners and teachers. Section 2 outlines the wider disciplinary, social, political, and cultural context. Chapters 3-7 examine the following: underlying beliefs about numeracy; learners, teachers, and

curriculum; their goals and effect on learning and teaching approaches of cultural, political, and educational forces and experiences or philosophies of mathematics. Section 3 looks at factors affecting adults learning mathematics. Chapters 8-15 explore the following: the low level of adults' confidence and knowledge of mathematics; the fundamental damage this may do to a democratic society; the concept of discourse and its use in teaching mathematics to adults; the importance of recognizing and valuing diversity through culture; and how adults acquire very effective practical mathematics skills located in their own lives and culture but have difficulty transferring them into formal academic mathematics. Section 4 (chapter 16) builds on an increased awareness of the framework in which adults learn mathematics to move to developing a more emancipatory curriculum. The book contains 362 references and an index. (YLB)

Examines seven idealistic women writers from England, France, Germany, and ancient Greece and their confrontation with the threat of war.

This study of self-employment of women in Finland covers the period 1960-1990. Contrary to suggestions that self-employment is a way out of gender-based subordination in employment, it shows that self-employment does not equal liberation from patriarchal relations in paid work. Focusing on the Western philosophical tradition and the work of contemporary feminists, Jean Elshtain explores the general tendency to assert the primacy of the public world—the political sphere dominated by men—and to denigrate the private world—the familial sphere

dominated by women. She offers her own positive reconstruction of the public and the private in a feminist theory that reaffirms the importance of the family and envisions an "ethical polity."

Migration is a multifaceted phenomenon that plays a critical role in today's world, yet there have been few attempts to look beneath the surface of the mass movements of people. Particularly, the changing face of migration is becoming more feminized, with women increasingly moving as independent or single migrants rather than as the wives, mothers, or daughters of male migrants. Yet, in literature on migration, the voices of women are still silent. This creates an urgent need to advance academic research on female international migration by examining women as independent migrants. *Immigrant Women's Voices and Integrating Feminism Into Migration Theory* comprehensively documents the experiences of immigrant women across the globe and the important theories that define their experiences. The chapters give firsthand accounts of women speaking about their own experiences on migration and topics associated with women and migration. This book aims to give women their own voice and to stand apart from previous literature in which male relatives spoke on behalf of immigrant women to tell their stories for them. While highlighting topics on women in migration including feminism, gendered social roles, first-person narratives, and the female identity, this book is ideally for professionals in social science disciplines as well as practitioners, stakeholders, researchers, academicians, and students wanting to expand their knowledge on women and migration, gender violence, and women empowerment.

"A compelling manifesto by the bestselling author of *Heaven* "Why Pro-Life?" offers factual answers to the central issues of the abortion debate in a concise, non-abrasive way. Infused with grace and compassion, and grounded in medical science and psychological studies, Randy Alcorn presents a solid case for defending both unborn children and their mothers. Chapters such as, "What Makes a Human Life 'Meaningful,'" "Is Abortion Really a Women's Rights Issue," and "How Can I Help Unborn Babies and Their Mothers" help readers to look at the many sides of this polarizing issue. For those on the fence in the midst of the abortion debate, this book will be a great resource as it clearly and thoroughly examines the pro-life position. For those who are pro-life already, this book is an encouragement to be intelligently and graciously informed.

This is a textbook about a region created by people from all three of the provinces which comprise that region. This book is divided into two parts, both of which focus on the Maritime regions from 1945 to the present day. There are five areas of study: geography, economics, sociology, political science, and cultural anthropology. Where suitable, history provides a perspective to many sections in these five chapters. This book explores gender inequity and the gender gap from a range of perspectives including historical, motherhood, professional life and diversity. Using a narrative approach, the book shares diverse experiences and perspectives of the gender gap and the pervasive impact it has. Through authors' in-depth insights and critical analysis, each chapter addresses the gender gap by providing a nuanced understanding of the impact of the particular lens. It shares a holistic understanding of lived experiences of gender inequity. The book offers interdisciplinary

insights into current political, social, economic and cultural impacts on women and their lived experiences of inequity. It provides multiple voices from across the world and draws on narrative approaches to sharing evidence-based insights. It includes further insights and critique of each chapter to widen the perspectives shared as the gender gap is explored and provide rigorous discussion about what possibilities and challenges are inherent in the proposed solutions as well as offering new ones. Chapter 10 and chapter 11 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.
