June Wright wrote this lost gem in the mid-1950s, but consigned it to her bottom drawer after her publisher foolishly rejected it. Perhaps it was a little ahead of its time? Because while it's a tour de force of the classic 'country house' murder mystery, it's also a delightful romp, poking fun at the conventions of the genre. When someone takes advantage of a duck hunt to murder publisher Athol Sefton at a remote hunting inn, it soon turns out that virtually everyone, guests and staff alike, had a good reason for shooting him.

Sefton's nephew Charles thinks he can solve the crime by applying the "rules of the game" he's absorbed from his years as a reviewer of detective fiction – only the killer evidently isn't playing by those rules. Duck Season Death is a both a fiendishly clever whodunit and a marvellous entertainment.

This book examines how children's bodies are trained in time and space to produce schooled, literate individuals. Moving from theory to practice, examples of real classroom events show how teachers' practices direct discipline onto children's bodies.
