The only resources designed for the Cambridge IGCSE® Chinese as a Second Language syllabus (0523) for first examination from 2020. With topics ranging from festivals to travel and technology, each unit is based around one authentic Mandarin Chinese text and audio recording. This mix of content helps students engage with the subject and develop their ability to handle real language materials. Audio recordings (available online) help students practise the new listening aspect of the course, while 'Culture boxes' provide interesting insights into Chinese culture. Students will work collaboratively with others - sometimes in pairs and other times in groups - to develop language skills through communication. Answers to the coursebook questions are in the digital teacher's resource.

The only resources designed for the Cambridge IGCSE® Chinese as a First Language syllabus (0509). Take an active approach to first language Chinese with activities that reinforce language learning and expand vocabulary and idioms. The coursebook focuses on building students' reading and writing skills through real Mandarin Chinese texts about different topics, such as Chinese philosophers and sport. It also provides opportunities to develop essential life skills including creative thinking, communication and problem solving. At the end of the course, students should be able to critically analyse literary work written in Chinese and demonstrate a strong

The upswing in global investment and trade continued in the second half of 2017. At 3.8 percent, global growth in 2017 was the fastest since 2011. With financial conditions still supportive, global growth is expected to tick up to a 3.9 percent rate in both 2018 and 2019. Advanced economies will grow faster than potential this year and next; euro area economies are set to narrow excess capacity with support from accommodative monetary policy, and expansionary fiscal policy will drive the US economy above full employment. Aggregate growth in emerging market and developing economies is projected to firm further, with continued strong growth in emerging Asia and Europe and a modest upswing in commodity exporters after three years of weak performance. Global growth, however, is projected to soften beyond the next couple of years, with most advanced economies likely returning to potential growth rates well below precrisis averages. Growth is projected to remain subpar in several emerging market and developing economies,

including in some commodity exporters that continue to face substantial fiscal consolidation needs. Beyond the next few quarters risks clearly lean to the downside. The current recovery offers a window of opportunity to advance policies and reforms that secure the current upswing and raise medium-term growth to the benefit of all.

This Guide provides clear, up-to-date guidance on the concepts, definitions, and classifications of the gross external debt of the public and private sectors, and on the sources, compilation techniques, and analytical uses of these data. The Guide supersedes the previous international guidance on external debt statistics available in External Debt: Definition, Statistical Coverage, and Methodology (known as the Gray Book), 1988. The Guide's conceptual framework derives from the System of National Accounts 1993 and the fifth edition of the IMF's Balance of Payments Manual(1993). Preparation of the Guide was undertaken by an Inter-Agency Task Force on Finance Statistics, chaired by the IMF and involving representatives from the BIS, the Commonwealth Secretariat, the European Central Bank, Eurostat, the OECD, the Paris Club Secretariat, UNCTAD, and the World Bank.
