A Guide to Library Research in Music introduces the process and techniques for researching and writing about music. This informative textbook provides concrete examples of different types of writing, offering a thorough introduction to music literature. It clearly describes various information-searching techniques and library-based organizational systems and introduces the array of music resources available. Each chapter concludes with learning exercises to aid the students' concept application and skill development. Appendixes provide short cuts to specific topics in library organizational systems, including Library of Congress Subject Headings and Classification. The concluding bibliography provides a quick overview of music literature and resources, emphasizing electronic and print publications since 2000, but including standard references that all music

A classic in sign language literature since its introduction over two decades ago, this updated and expanded sixth edition of Comprehensive Reference Manual for Signers and Interpreters contains almost seven thousand entries, including vocabulary and idioms, with cross-references and sign descriptions. It is intended primarily for interpreters, but it can also be used effectively by signers who have at least a working knowledge of sign language. This manual is employed most profitably when the user reads the entire sign description before manually executing the sign. Since it is written for th.
