A mysterious messenger delivers four invitations for a round of golf to the elite of society. These four avid golfers use their power and wealth to shape life to their own depraved reality at the expense of others. The golf course is in a remote part of the world and kept secret from the public. The messenger visits a senator, army colonel, a professional baseball player and a wealthy surgeon. His presence terrifies each person he visits but they accept the exclusive invitation despite their instincts. The golfers look forward to a long weekend to indulge in the opulent amenities of the golf club but the distinguished director of the club has other plans. A lifetime membership to the club is the prize for winning the golf match. When they meet their caddies, they realize their power and wealth can't save them from the sinister secret of Goat Trails Golf Club.

This book explores the affordances of disciplinary corpora for the teaching and learning of the language of dentistry, within the field of English for Specific Academic Purposes (ESAP). We extract disciplinary register features and vocabulary from three key genres of the dentistry discipline (published experimental research articles, case reports, and novice/professional research reports within the Dental Public Health domain), before integrating these features into ESAP pedagogy in the form of corpus-based ESAP materials that promote student-led direct engagement with disciplinary corpora – an approach known as 'data-driven learning'. This book is a timely and relevant addition to the field of corpus linguistics and ESAP, and is especially targeted at ESAP professionals who are required to teach disciplinary discourses but who may struggle to know what to teach as non-experts of the target discipline.

Journals are great for writing down ideas, taking notes, writing about travels and adventures, describing good and bad times. Writing down your thoughts and ideas is a great way to relieve stress. Journals are good for the soul!

Katrina's Grace: Wind, Water and Wisdom takes us on Sandra's journey of recovery from Hurricane Katrina. Join her from a pre-hurricane fall that left her helpless and found her at her daughter's home waiting and wondering what was happening in Gulfport, to first sight of her destroyed home, car, and treasures. The journey continues through a lifetime of memories as lost treasures were unearthed, to the streams of volunteers who came to help her wade through the upheaval, build a temporary living space, and care for her neighbors and others in the community. As we read Sandra's story, we remember our own grief and loss after Katrina or similar disaster experiences. This story speaks not only to the survivors, but to disaster responders who come to pick up the pieces yet don't hear the rest of the story of those with whom they shared an hour or a week, and finally they and all readers are able to feel the pain around the disasters where they served. Additionally, it provides insight for volunteers going into disaster work. A powerful yet sensitive story of dwelling in Grace and the incredible gifts of Grace from nature; from those who prayed, sent gifts, and came; and from living memories. Weaving reflections on lost treasures with journal excerpts, poetry, stories of those who came to help, sent needed materials and supplies, and also prayed, Sandra Price presents stories from a heart-breaking disaster.

Katrina's Grace invites us into the depth of Sandra's soul and on into the depth of our own souls. As we read her story, we remember our own disasters and weep, laugh and ponder. And we can understand why Sandra said of Katrina, "I wouldn't have missed it for the world."

Sometimes, even with the best possible oral hygiene, we can't seem to prevent bad breath. This can become extremely frustrating and affect our confidence in so many different ways. Unfortunately, bad breath is not always a reflection of our dental health. Bad breath can be related to different digestive problems and the overall state of our gastrointestinal tract. The best way to prevent and solve this problem is to take care of our entire digestive tract along with our teeth. The key to a healthy and clean digestive tract and fresh breath lies in the food we eat. Just like with everything else in our body, food has the ability to do some serious damage as well as the ability to heal us. When we talk about bad breath, there are some specific foods we have to consume in order to clean our mouth and destroy the bacteria responsible for these problems.

"Dental disease is the most widespread public health problem among the school-age population in the United States today," states the author of this first-of-its-kind book to combine dental health information and lesson plans for K-6 teachers, hygienists, and school nurses. Loaded with valuable information, the up-to-date workbook addresses the role of the dental health educator in getting children to learn how to properly take care of their teeth. Reader friendly, it offers simple ways to achieve excellence in oral hygiene beyond trips to the dentist, along with the rationale for proven modern techniques. Educators will welcome Lori Gagliardi's complete lesson plans, visual aids, supplemental material, and tips on integrating dental health into academic curricula. It is also an essential companion for any comprehensive dental disease prevention program in the community. Outstanding features: • Engaging visual aids enhance the lesson plans. • Background information and objectives accompany lesson plans. • Guided practice activities reinforce the subjects covered. • Includes a section targeting children with exceptional needs. • Lesson plans, including time frames, focus on specific information. New to the Third Edition: • Improved organization. • National Action Plan to Improve Health Literacy. • USDA MyPlate healthy eating tool. • Updated information regarding reading labels and serving sizes. • New chapter, Community Education Program Development. • Updated appendix material.

Use your knowledge of pharmacology to enhance oral care! Pharmacology and Therapeutics for Dentistry, 6th Edition describes how to evaluate a patient's health and optimize dental treatment by factoring in the drugs they take. It explores the basic fundamentals of pharmacology, special topics such as pain control, fear and anxiety, and oral complications of cancer therapy, and most importantly, the actions of specific drug groups on the human body. Whether you're concerned about the drugs a patient is already taking or the drugs you prescribe for treatment, this book helps you reduce risk and provide effective dental care. An emphasis on the dental applications of pharmacology relates drugs to dental considerations in clinical practice. Dental aspects of many drug classes are expanded to include antibiotics, analgesics, and anesthetics. The Alternative Medicine in Dentistry chapter discusses chemicals used as alternative medicines and assesses their potential benefits and risks. The Nonopioid Analgesics chapter groups together non-opioid analgesics, nonsteroidal anti-inflammatory drugs, and antirheumatic and antigout drugs, making these easier to locate and study. Coverage of the endocrine system includes four separate chapters for the most comprehensive coverage. Drug Interactions in Clinical Dentistry appendix lists potential interactions between drugs a patient is taking for nondental conditions and drugs that may be used or prescribed during dental treatment, including effects and recommendations. Glossary of Abbreviations appendix includes the most common abbreviations used for drugs or conditions. New Pharmacogenetics and Pharmacogenomics chapter covers the effects of genetic traits of patients on their responses to drugs. A NEW introductory section offers tips for the study of dental pharmacology and relates pharmacology to dental considerations. An updated discussion of drug-drug interactions covers the harmful effects of mixing medications. Coverage of adverse effects and mechanisms of COX-2 inhibitors, antibiotic prophylaxis, and antiplaque agents explains the dental risks relating to common drug treatments.

When Bear discovers he has a loose tooth, his friends try to help make it fall out.

"Valentine Alexa Leeper was born in Melbourne on Valentines Day, 1900, the daughter of Alexander Leeper (1848-1934), the brilliant but argumentative first Warden of Trinity College. Her long life might seem unremarkable: she lived simply in the family's Victorian suburban home, neither marrying nor travelling overseas, and was regarded by many as an eccentric, at times tiresome, blue-stocking. The hoard of letters Valentine Leeper wrote and received over nearly a century reveals her, however, as a remarkable woman. The letters also provide an intimate view of issues, great and small, of the turbulent twentieth century, through the eyes of a clear-minded observer. Valentine publicly condemned racism and any curtailing of freedom of speech, and extensively supported refugees and the rights of Aborigines and women. Like many women of her time and background, she was an active member of a network seeking social justice, but remained always her own person. At once a staunch traditionalist, and ahead of her time, she was a truly liberated woman"--Provided by publisher.

Don't Shoot Yourself in the Foot Before You Even Open Your Mouth! The Writing Guide for Professional Speakers. Do you want to become a professional public speaker, someone who gets paid to speak in public about topics you are passionate about? If so, I've got good news and bad news. The bad news is that it's a crowded ole world out there-every Tom, Dick, and Harriet seem to be a "professional" speaker, armed with a book, a blog, and a boatload of subject-matter expertise. The good news is that only a few of these "professionals" can spell or even construct a correct sentence in American English. Look around! If you want to stand out, if you want to impress potential hosts, if you want to get hired again and again, then you have to recognize that your written words will probably be read before your spoken words are heard. In other words, your written words have to be flawless. In *Before You Even Open Your Mouth*, nine-time, award-winning author and public speaker Liz Coursen shares her expertise about how to write to impress. Liz speaks professionally 80-100 times each year, and part of her success, she believes, is the attention to detail she brings to every aspect of her speaking, including her promotional materials. "Punctuation and grammar is easy, and it's fun," she says. "And, since our writing is part of how people judge us, it's important for every professional speaker to know how to write well."

Written specifically for dental hygienists, this comprehensive textbook covers concepts, issues, techniques, and methods related to dental public health. It focuses on the assessment of factors that affect oral health of populations and the development of policy in response to a population's needs. It also provides information regarding the active promotion of oral health maintenance. This text is unique in that it applies the Dental Hygiene Process of Care - a globally accepted, foundational concept in clinical care for dental hygienists - to the subject of dental public health, lending it greater relevance and familiarity to dental hygiene students. In addition, the text is based on the American Association of Dental Educators' Competencies for Dental Hygienists. A chapter on National Board Preparation, including Board-style review questions, prepares students for the national exam. Review questions and learning activities are also incorporated into each chapter.
