Even though we talk about eBay and eBay auctions, what we are really talking about is internet sales in general and specifically Internet auctions. Most internet auction sites operate in the same manner that eBay does. You list your items for sale, people bid on them driving the price up, and then at some point the item sells and you get paid for the product. Also most internet auction sites have some form of feedback system, some sort of email system and some sort of payment system built into them. We will touch on and discuss all these things here. In this book we will talk about various ideas and various ways to do different things that relate to Internet auctions. In particular: Introduction and background of eBay - Basic info about eBay as a business, networking and goal setting Sourcing Product -How to find and source products to sell and we specifically talk about the following sources Used goods Garage Sales Flea markets Thrift Stores and pawn shops Estate sales Auctions Wholesalers

Here is some BAD news first; trying to make money on eBay selling Brand Name products is NOT the way to make money! Here's why, even if you could manage to locate a source of genuine products you would have to spend \$1,000's just to get enough discount to make even a small profit. You see there are just too many sellers competing for the same business. Brand name products are just too expensive to buy, the margins are slim and there is too much competition. There must be an easier way to make money? Well there is, the market for non branded and private label products on eBay is huge and this approach works in any market, it costs a tiny amount to set up and the profit margins are outrageous and it is much easier than most people would believe. In this comprehensive book I show you step by step how to build your own eBay empire selling Private Label and Non Branded stock. The profit margins on private label products and non branded products are massive. The Advantage Of Private Label Products Are:

- No one can directly compete with you as you own the brand.
- Your customers will know where you sourced product from.
- Private labelling is widespread across many industry sectors as is none branded products.
- Small minimum orders allow us to test products for a tiny risk.
- You can build an entire business using

As no one is selling exactly the same product as yourself and no one will know where you bought it from, you can sell at your own price. I even provide a list of Private Label Suppliers and Manufacturers who stock a massive range of product that you can sell in multiple niche markets these are the exact same sources I use in my eBay businesses. This is your COMPLETE blueprint to building your own profitable eBay business on a shoestring and making outrageous profits.

Even though we talk about eBay and eBay auctions, what we are really talking about is internet sales in general and specifically Internet auctions. Most internet auction sites operate in the same manner that eBay does. You list your items for sale, people bid on them driving the price up, and then at some point the item sells and you get paid for the product. Also most internet auction sites have some form of feedback system, some sort of email system and some sort of payment system built into them. We will touch on and discuss all these things here. In this book we will talk about various ideas and various ways to do different things that relate to Internet auctions. In particular: Introduction and background of eBay - Basic info about eBay as a business, networking and goal setting Sourcing Product -How to find and source products to sell and we specifically talk about the following sources Used goods Garage Sales Flea markets Thrift Stores and pawn shops Estate sales Auctions Wholesalers Factory outlets Non-physical products Drop Shipping - Learn about the closely held secrets that eBay course promoters do NOT want you to know about and why most drop shipping promotions are actually scams Dealing with competitors - 11
