

develop treatment that affects long-term changes in beliefs, behaviors, and attitudes. It also includes a brief history of perpetrator treatment, feminist perspectives on treatment, and recent research findings that suggest domestic violence offenders need more than education and attitude adjustment. *Intimate Violence* explores key treatment issues not usually found in more traditional approaches, particularly shame and attachment. The book focuses on alternate methods based on assessment and tailored to meet the treatment needs of specific populations, including women, lesbian batterers, men with borderline personality disorder (BPD), and Aboriginal men living in Canada. It also examines the Beit Noam, an Israeli live-in intervention program for abusive men, and addresses the legal and ethical issues surrounding the court-mandated treatment of offenders. An international, interdisciplinary panel of practitioners, researchers, and academics also discuss: Dialectical Behavior Therapy (DBT) Physical Aggression Couples Treatment (PACT) attachment theory therapeutically based interventions feminist/social learning treatment individual, group, and integrative therapies transpersonal psychology systems thinking field theory and much more! *Intimate Violence: Contemporary Treatment Innovations* is an essential resource for clinicians, researchers, educators, and advocates working in psychology, social work, counseling, law, health care, and related disciplines.

The first in-depth analysis of the radical feminist theory and coalitional praxis of scholar-activist María Lugones. *Speaking Face to Face* provides an unprecedented, in-depth look at the feminist philosophy and practice of the renowned Argentinian-born scholar-activist María Lugones. Informed by her identification as “nondiasporic Latina” and US Woman of Color, as well as her long-term commitment to grassroots organizing in Chicana/o communities, Lugones’s work dovetails with, while remaining distinct from, that of other prominent transnational, decolonial, and women of color feminists. Her visionary philosophy motivates transformative modes of engaging cultural others, inviting us to create political intimacies rooted in a shared yearning for interdependence. Bringing together scholars and activists across fields, this volume charts her profound impact in and beyond the academy for the past thirty years. In so doing, it exemplifies a new method of coalitional theorizing—traversing racial, ethnic, sexual, national, gendered, political, and disciplinary borders in order to cultivate learning, embrace heterogeneity, and provide a unique framework for engaging contemporary debates about identity, oppression, and activism. Across thirteen original contributions, authors address issues of intersectionality, colonial and decolonial subjectivities, the multiplicity and the coloniality of gender, indigenous spiritualities and cosmologies, pluralist and women of color feminisms, radical multiculturalism, popular education, and resistance to multiple oppressions. The book also includes a rare interview with Lugones and an afterword by Paula Moya, ultimately offering both new critical resources for longstanding admirers of Lugones and a welcome introduction for newcomers to her groundbreaking work. “This is an important contribution to Latinx studies, Latina feminist philosophy, queer studies, and the burgeoning field of decolonial feminism, a field that Lugones almost single-handedly launched. It is interdisciplinary, but also a wonderful pedagogical resource. It provides readers who are both familiar and unfamiliar with her work a thorough and judicious point of entry.” — Eduardo Mendieta, author of *Global Fragments: Globalizations, Latinamericanisms, and Critical Theory*

This book discusses health care issues related to domestic violence, using extensive case studies from India. By discussing the

global literature, legal systems, methodological challenges of gathering information on domestic violence, and health systems issues, along with learnings from case studies, it fills a significant gap in the literature between health care policy and practice vis-à-vis victims of domestic violence. It therefore enables a systemic and systematic response to incidents of domestic violence. Policy instructions, court verdicts, government interventions, community-based direct interventions and related case discussions in the book help in the understanding and management of cases. Though the book uses case studies from India, it addresses globally relevant issues for health care professionals. In view of the paucity of application of systematic evidence-based knowledge, the holistic perspective presented in the book is important to prevent domestic violence, protect women's rights, and promote healthcare and wellbeing of women and children facing domestic violence. Medical professionals are expected to intervene in instances of injuries related to domestic violence---a responsibility that they are currently unable to fulfil due to lack of training in recognizing abuse and lack of tools for intervention. This book improves hands-on-knowledge by providing information on where to refer victims for assistance and timely intervention. Comprehensive yet lucid, this book is useful for academics, policy makers, non-government organizations and women's rights groups in helping victims during and after a violent episode and also in improving reporting and referral services.

This volume contains inspiring memoirs from sixteen women active in the civil rights movement, anti-war campaigns, and the rise of feminism in the Cold War era. It places religious activism at the center of social movements previously thought of as largely secular. For thousands of young women in the 1950s and 1960s, involvement with the student Christian movement (SCM) changed their worldviews. Religious organizations fostered women's leadership at a time when secular groups like Students for a Democratic Society, and the Left in general, relegated most female participants to stereotypical roles. The SCM introduced young women to activism in other parts of the country and around the world. As leaders, thinkers, and organizers, they encountered the social realities of poverty and racial prejudice and worked to combat them. The SCM took women to Selma and Montgomery, to Africa and Latin America, and to a lifelong commitment to work for social justice.

Offers a fresh viewpoint in Christian thought by looking at sin from the perspective of the sinned-against rather than that of the sinner needing forgiveness.

How does a "homogeneous" society like Japan treat the problem of social inequality? *Losing Face* looks beyond conventional structural categories (race, class, ethnicity) to focus on conflicts based on differences in social status. Three rich and revealing case studies explore crucial asymmetries of age, sex, and former caste. One of the single greatest challenges to security professionals in the 21st century is terrorism. In the last several years, we have heard a lot about the importance of preparing for terrorist attacks. This book offers a way to prevent terrorist attacks. Providing security managers with a clear and simple methodology to protect their organizations, *Antiterrorism and Threat Response* uses an adaptation of the U.S. Department of Defense's antiterrorism fundamentals and applies it to the private sector to protect companies, facilities, and infrastructures. The book's

antiterrorism planning strategies enable security professionals to seize the initiative away from terrorists—setting them off balance and keeping them off balance—thereby disrupting their planning cycle and thwarting attack. The book helps security managers to: Understand the terrorist attack planning cycle Conduct a terrorism threat vulnerability assessment Develop an observation plan and the corresponding verification plan Understand how surveillance detection works Learn how pattern analysis wheels can be used to find weaknesses in security operations Appreciate the role of random antiterrorism measures and learn how to develop them Establish response plans for a wide variety of contingencies related to terrorist attack Adapt this methodology to maritime operations against piracy, individual protection, and travel security in high-risk environments Work with other security departments, the police, and the public to create infrastructure protection zones that will enhance the detection of suspicious events and reduce the likelihood of terrorist attack The book aims to show that terrorists are not defeated by technology alone, but instead by collaboration and the timely passage of relevant information and intelligence. Terrorism is, above all, an act of communication. The terrorists communicate to us through their acts and their carefully crafted communiqués. Security professionals need to send the terrorists a clear and simple message in the language they understand: You will not succeed here.

This book explores the life experiences of children who are born with a variety of medical or physical disorders. It provides an integration of scientific and personal perspectives on such conditions. In accounting for both outcomes, it suggests how the social responses of others (family, friends, and professionals) may foster resilience as well as risk. It also describes the results of an intervention that facilitates the more positive experiences of such children early in life.

One of the most complete and in-depth books ever written on the subject of terrorism from a Spiritual perspective! In this book you will receive a full spectrum prism consciousness understanding from Spirit and the Ascended Masters' perspective on terrorism in general and specifically on the soul's perspective of the terrorist bombing of the twin towers on 9/11. This is one of the most comprehensive overviews ever written on this subject and brings forth an absolutely brilliant and clear understanding of the entire sequence of events from a Spiritual, psychological and political or Earthly perspective. In truth, must reading for everyone in the world given the magnitude of the events we are all now experiencing in our world!

Individuals seek ways to repress the sense of violence within themselves and often resort to medial channels. The hunger of the individual for violence is a trigger for the generation of violent content by media, owners of political power, owners of religious power, etc. However, this content is produced considering the individual's sensitivities. Thus, violence is aestheticized. Aesthetics of violence appear in different fields and in different forms. In order to analyze it, an interdisciplinary perspective is required. The Handbook of Research on Aestheticization of Violence, Horror, and Power brings together two different concepts that seem incompatible—aesthetics and violence—and focuses on the basic motives of aestheticizing and presenting violence in different fields and genres, as well as the role of audience reception. Seeking to reveal this togetherness with different methods, research, analyses, and findings in different fields that include media, urban design, art, and mythology, the book covers the aestheticization of fear, power, and violence in such mediums as public relations, digital games, and performance art. This comprehensive reference is an ideal source for researchers, academicians, and students working in the fields of media, culture, art, politics, architecture, aesthetics, history, cultural anthropology, and more.
