The ESL Writer's Handbook is a reference work for ESL students who are taking college-level courses. Because its purpose is to provide help with the broad variety of writing questions students may have when working on school assignments, the text focuses on English for Academic Purposes. Unlike other handbooks on the market, this book's sole purpose is to address the issues of second language learners. The spiral-bound Handbook complements a student writer's dictionary, thesaurus, and grammar reference book. It would be suitable as a text for an advanced ESL writing course when used together with the companion Workbook (978-0-472-03726-1). The new edition features significant revisions to Sections 3 and 4; in particular, both APA and MLA style guides have been updated and new sample papers for each are included. The new edition includes new and revised exercises and many new samples of student writing. Like its predecessor, the 2nd Edition has these special features: The topic selection is based on ESL writers' needs as observed by the authors over many years. The coverage of topics is more complete than the limited amount usually provided for ESL writers in first language or L1 handbooks. The explanatory language is appropriate for ESL students, in contrast to the more complex and idiomatic language of other English handbooks. Many of the examples of paragraphs, essays, research papers, and exercise sentences were written by ESL students to help users realize that they too can become effective writers.

"Research Papers teaches essential research skills through engaging topics, interesting readings, and practical exercises. The book demystifies the research process with careful guidance and directed activities on topics of genuine interest, paying particular attention to common student trouble spots. The text includes extensive instruction on electronic resources and citation, and a complete sample research paper using MLA documentation. To provide context for the exercises, the book requires students to explore fascinating topics such as the Lizzie Borden murder case, the "Titanic disaster, slave narratives by Frederick Douglass and Harriet Jacobs, and Edith Wharton's trip to a Morocco harem.

The spirit of THE WRITER'S WAY remains in the ninth edition, as do its two core principles: (1) good writing begins when writers know their audience and write for the right reasons; and (2) knowing their audience and having good reasons to write will teach users everything they need to know about technique. Based on a "whole language approach," THE WRITER'S WAY is a dynamic, process-centered paperback rhetoric with readings. While this book is intended to be used in a classroom, it's very much based on the concept that there is little difference between writing in school and writing in the "real world." Offering frank advice in a supportive, encouraging tone, the authors lead readers step by step through the writing process, from pre-writing to polishing the final draft.
