How a mysterious Fortnite player, known only as "JW" - came to reveal his previously unknown strategies for winning nearly every game Dear fellow Fortnite player, I recently had the privilege of interviewing one of the world's very best Fortnite: Battle Royale players. The player, who asked to be only named as J.W. - gave me an insight into the mindset of someone at the very top of their game. This guy has a strategic mindset, ambition - and an eye for the game that I've frankly never seen in the hundreds of hours logged online. The way he approaches each match is unique, and I came away from the interview in awe of him. So naturally, I asked if I could re-print some of it for my readers. So that you could benefit from his adviceAnd to my surprise - he agreed!In this book, J.W. lays out the steps he goes through - which took him from a complete beginner (he didn't even play PUBG!) to one of the world's very best players, in only a few short months. Needless to say, if you're a beginner - or even an intermediate or advanced player - there's a ton of value to be had inside. In this book you'll discover: One thing new players nearly always do at the start of game - which J.W. recommend you should never do Why you should never land on top of houses J.W's unique "how not to die" strategy Why this one small change in the V3.5 update makes you drastically alter your gameplay J.W's Secret "Final Showdown" 1v1 Building Strategy Why your opponent in a 1v1 might not be the best player - and who the best players actually are in each game A secret building top for the mobile edition The 4 best landing spots in Season 4 How to effectively use the new Port-o-Fort Why this once-popular strategy no longer works in Season 4 Most players won't be super aggressive in this particular scenario - but you need to be to have a chance to win...and much, much more!Plus - everything you need to know about the latest Season 4 Update!So if you're ready to get on the fast track to Fortnite success and learn from one of the masters of the game - scroll up and click "add to cart"
