Designed to complement Learning to Teach Modern Foreign Languages in the Secondary School, this book focuses specifically on the skills and processes of teaching MFL at A and A/S level in schools and colleges. The book is divided into three sections: the changing nature of A and A/S level courses; bridging the gap between GCSE and A level; and planning, teaching and assessment. With chapters on learner independence, teaching and learning grammar, planning topics and programmes of work, working with literature, and vocational alternatives, the book will be an essential text for all secondary MFL students and teachers.

The world-wide growth in demand for Japanese throughout the world has led to rapid developments in Japanese language teaching. This volume examines these developments and their implications for the future in a series of case studies.

Teaching and Learning Foreign Languages provides a comprehensive history of language teaching and learning in the UK from its earliest beginnings to the year 2000. McLelland offers the first history of the social context of foreign language education in Britain, as well as an overview of changing approaches, methods and techniques in language teaching and learning. The important impact of classroom-external factors on developments in language teaching and learning is also taken into account, particularly regarding the policies and public examination requirements of the 20th century. Beginning with a chronological overview of language teaching and learning in Britain, McLelland explores which languages were learned when, why and by whom, before examining the social history of language teaching and learning in greater detail, addressing topics including the status that language learning and teaching have held in society. McLelland also provides a history of how languages have been taught, contrasting historical developments with current orthodoxies of language teaching. Experiences outside school are discussed with reference to examples from adult education, teach-yourself courses and military language learning. Providing an accessible, authoritative history of language education in Britain, Teaching and Learning Foreign Languages will appeal to academics and postgraduate students engaged in the history of education and language learning across the world. The book will also be of interest to teacher educators, trainee and practising teachers, policymakers and curriculum developers.

Measuring Second Language Vocabulary Acquisition describes the effect that word frequency and lexical coverage have on learning and communication in a foreign language. It examines the tools we have for assessing the various facets of vocabulary knowledge, the scores these produce, and the way these are tied to exam and communicative performance. This is a revision guide, checklist, and consolidation and reference book for pupils taking GCSE or Standard Grade French. Words and phrases prescribed by the main examination boards are grouped under topic and sub-topic headings, translated, and put into context by means of signs, notices and realia. There are also vocabulary-building exercises, puzzles and games, suggestions for Higher Tier vocabulary, and tips on examination technique and the use of

dictionaries.

This latest volume of the Register of Educational Research in the United Kingdom lists all the major research projects being undertaken in Britain during the latter months of 1992, the whole of 1993 and 1994 and the early months of 1995. Each entry provides names and addresses of the researchers, a detailed abstract, the source and amount of the grant(where applicable), the length of the project and details of published material about the research.

First published in 1998. Routledge is an imprint of Taylor & Francis, an informa company.

Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

"GCSE Design and Technology: Textiles Technology through Diagrams" joins the acclaimed Oxford Revision Guides series which builds on the fact that pictures are easier to memorize than words. All the necessary facts, figures, content, and concepts are presented in diagrammatic form. This uniquevisual approach to learning means that students can absorb the information easily and effectively.Help for coursework:Unlike most other Guides, "Textiles Technology through Diagrams" also helps students with their coursework. With 60% of the total marks at GCSE being awarded for coursework the revision guide contains a chapter devoted to the skills needed for success in this area.

Includes no. 53a: British wartime books for young people.
