A brilliant, kaleidoscopic exploration of soccer—and the passion, hopes, rivalries, superstitions, and global solidarity it inspires—from award-winning author and Mexico's leading sports journalist, Juan Villoro. On a planet where FIFA has more members than the United Nations and the World Cup is watched by more than three billion people, football is more than just a game. As revered author Juan Villoro argues in this passionate and compulsively readable tribute to the world's favorite sport, football may be the most effective catalyst for panglobal unity at the time when we need it most. (Following global consensus, Villoro uses "football" rather than "soccer" in the book.) What was the greatest goal of all time? Why do the Hungarians have a more philosophical sense of defeat than the Mexicans? Do the dead play football? In essays ranging from incisive and irreverent portraits of Maradona, Messi, Ronaldo, Pelé, Zidane, and many more giants of the game to entertaining explorations of left-footedness and the number 10, Juan Villoro dissects the pleasure and pain of football fandom. *God Is Round* is a book for both fanatics and neophytes who long to feel the delirium of the faithful. Praise for *God Is Round* "If you want to talk about soccer, go talk to Juan Villoro." —Carlos Fuentes "In trying times like these, when the anguish and uncertainty can be almost too much to bear, Mexico turns to him, its philosopher-fanatic, to make sense of the seemingly nonsensical. With the nation's hopes for the World Cup spiraling into doubt and chaos, Juan Villoro, one of Mexico's most decorated and esteemed writers — who also happens to be a leading soccer analyst—comes charging down the metaphorical field to scold, explain and extract the lessons within." —The New York Times "The literature of Juan Villoro...is opening up the path of the new Spanish novel of the millennium." —Roberto Bolaño "[Villoro] has assumed the Octavio Paz mantle of Mexican public wise man of letters (though with none of Paz's solemnity, for Villoro is as boyishly effusive, brimming with laughter and cleverness, as Paz was paternalistically dour—and, of course, Villoro, the author of the book *God Is Round*, may be the most fútbol-obsessed man alive)" —Francisco Goldman, *The New Yorker* Juan Villoro is Mexico's most prolific, prize-winning author, playwright, journalist, and screenwriter. His books have been translated into multiple languages; he has received the Herralde Award in Spain for his novel *El testigo*, the Antonin Artaud award in France for *Los culpables*. His novel, *Arrecife*, was recently short-listed for the Rezzori Prize in Italy. Villoro lives in Mexico City and is a visiting lecturer at Yale and Princeton universities. Thomas Bunstead's translations from the Spanish include work by Eduardo Halfon and Yuri Herrera, Aixa de la Cruz's story "True Milk" in *Best of European Fiction*, and the forthcoming *A Brief History of Portable Literature* by Enrique Vila-Matas (a co-translation with Anne McLean). A guest editor of a *Words Without Borders* feature on Mexico (March 2015), Thomas has also published his own writing in the *Times Literary Supplement*, *The Independent*, the *Paris Review* blog, *3ammagazine*, *Days of Roses*, *readysteadybook*, and *>kill* author.

Delivering a baby, sleep deprivation, giving bad news, dissecting bodies, seeing death—the journey of becoming an MD is not an easy one. Join the author as he takes you through his four years at Duke Medical School. I got into medical school by saying I was black. I lied. Honestly, I am about as black as my sister Mindy Kaling (*The Office* / *The Mindy*

Project). Once upon a time, I was an ethically challenged, hard-partying Indian American frat boy enjoying my third year of college. That is until I realized I didn't have the grades or scores to get into medical school. Legitimately. Still, I was determined to be a doctor and discovered that affirmative action provided a loophole that might help. The only problem? I wasn't a minority. So I became one. I shaved my head, trimmed my long Indian eyelashes, and applied as an African American. Not even my frat brothers recognized me. I joined the Organization of Black Students and used my middle name, Jojo. Vijay, the Indian American frat boy, became Jojo, the African American affirmative action applicant. Not everything went as planned. During a med school interview, an African American doctor angrily confronted me for not being black. Cops harassed me. Store clerks accused me of shoplifting. Women were either scared of me or found my bald black dude look sexually mesmerizing. What started as a scam to get into med school turned into a twisted social experiment that taught me lessons I would never have learned in the classroom. I became a serious contender at some of America's greatest schools, including Harvard, Wash U, UPenn, Case Western, and Columbia. I interviewed at 11 schools while posing as a black man. After all that, I finally got accepted into medical school. Before I finished this book, I stirred a hornet's nest by telling my story. It has been featured in more than 100 media outlets, including CNN, NBC, TIME, FOX, and Huffington Post. Many loved it, but not everyone approved of what I did. My college classmate Tucker Max (I Hope They Serve Beer in Hell) disapproved. My sister Mindy Kaling furiously declared, "This book will bring shame on our family!" I disagree but I'll let you be the judge.

Getting In: How Not To Apply to Medical School is a tough, practical guide for people storming the ramparts of medical school admission boards. Paul Jung takes the pre-med or second-career aspirant from pre-application experiences through the application process with a very practical approach. The book is filled with the pitfalls and misconceptions applicants frequently make, rendering the subtitle particularly apt and (for those terrified of the unknowns) eminently appealing. The volume also includes self-diagnostic sections and common pitfalls to avoid when applying to medical school. Contrary to popular belief, applying to medical school doesn't have to be stressful and time-consuming. Getting In shows students caught in the web of medical school admissions boards how to apply to medical school the right way—setting themselves apart from the rest of the crowd. Jung takes pre-med and second-career aspirants through the entire ordeal and lets them know how important it is to apply as early as possible. From preparation and finding ways to obtain an application noticed by the admissions committee to information on the MCAT and getting through common interview traps, the book gives inside tips and helps applicants through what can be a stressful and uncertain time. The author allows readers a glimpse into common errors that others have made in their quests for acceptance, such as taking all required science courses in one semester or leaving large chunks of a medical application blank. Taking a down-to-earth, realistic approach, Jung acknowledges the pitfalls and misconceptions frequently made by applicants and even provides alternative solutions for discouraged students. The result is a well-written book that describes hardships and blunders but also gives good, practical information on how to succeed.

Includes special sections for high school students, non-traditional applicants, and MD/PhD candidates. Most importantly, this book is written by a current medical student who has recently been through the process. The author has not only gained admission to some of the nation's top medical schools, but he also has served on the medical school admissions committee and an undergraduate health professions advisory program. Medical school admissions is a rapidly changing field and this book contains information useful to those applying today, not those applying ten years ago. Don't waste your time reading lists of statistics from out of date publications. This book gives you the best up to date and pragmatic advice available anywhere.
