This intriguing book makes a powerful case for a sorely needed U.S. educational improvement that has been almost entirely overlooked. During the last two decades, philanthropists and education reformers have made urgent efforts to pull weak students up to levels of basic competency. Though that vital work is incomplete, there is evidence of progress among low achievers. Meanwhile, though, children at the other end of the achievement spectrum have gotten lost in the shuffle. Programs and funding once aimed at stimulating high-potential students to make the most of their talents have withered, and we are now doing a poor job of stimulating our quick learners. When the particular needs of high-potential students are not met by schools, that is a moral failure—because every child deserves to be stretched and challenged. It is also a threat to our national interests—since high achievers will be crucial to America's future ability to compete internationally. This is a field where donors have wide-open opportunities to lead. In the pages of this fresh, practical guidebook, savvy school-reform philanthropists will be introduced to scores of programs and institutions that can pull talented students of all ages, races, and income levels up to their full natural capabilities.

Young adults are actively looking for anything that connects them with the changes happening in their lives, and the books discussed throughout *Literature for Young Adults* have the potential to make that connection and motivate them to read. It explores a great variety of works, genres, and formats, but it places special emphasis on contemporary works whose nontraditional themes, protagonists, and literary conventions make them well suited to young adult readers. It also looks at the ways in which contemporary readers access and share the works they're reading, and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs. In addition to traditional genre chapters, *Literature for Young Adults* includes chapters on literary nonfiction; poetry, short stories, and drama; cover art, picture books, illustrated literature, and graphic novels; and film. It recognizes that, while films can be used to complement print literature, they are also a literacy format in their own right--and one that young adults are particularly familiar and comfortable with. The book's discussion of literary language--including traditional elements as well as metafictional terms--enables readers to share in a literary conversation with their students (and others) when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading.
