Rod Cambridge created an iPhone app called Top-Tens to see how easy it was to make some money as an app developer. In this book, Rod uses this experience to take the reader step by step through the things that should, and shouldn't, be done when creating an app for Apple's iPhone or its rivals including Google's Android and Microsoft's Windows Mobile devices. Learn: What things should you incorporate, and avoid, when designing your app's User Interface. How to employ innovative, and guerilla, marketing tactics to get sales moving. Develop a two-minute elevator pitch. You did realise that you need an an elevator pitch, didn't you? In addition, you'll learn much, much more. Read "How NOT To Write an App" to give your app an edge in a very crowded marketplace. NOTE: This 84 page book was originally sold as an eBook and has been converted into paperback form due to popular demand.

Learning English as a second language can be daunting for beginners, and one of the major areas in which a lack of proficiency can surface is in essay writing. Although it can be intimidating, this guide seeks to help allay the fears that confront students.

Author Phil Rashid uses his many years of experience teaching English as a second language to show students how to construct a clearly written essay. He starts at the beginning, going through the basics of writing paragraphs, as many students lose exam marks by not adhering to the basic principles of writing. He explains the essential difference between titles and topics, the significance of the opening paragraph, and the importance of sticking to the main point of the essay. Rashid takes you through to writing a conclusion in order to wrap up your essay coherently and effectively. By following the guidelines and suggestions in *How to Write an Essay*, you can approach essay writing not with dread, but with confidence.

Are you looking for a short, simple, systematic approach to writing? Pick up any other writing book, for any ability level, and you'll find a labyrinth of options, nuances, and caveats when straight-forward explanations would better serve most writers. In "How to Write an Essay like an Equation," Eric Sentell (PhD, Writing, Rhetoric, and Discourse Studies) distills over a decade of experience teaching college writing into covering only writing's essentials with only the necessary amount of detail and explanation. In this book, you will learn about the types of audiences every writer faces, the power of purpose in writing, the main genres of academic and professional writing, the BLUF and how to find it, PEE Paragraph Structure, Content-Lexical Ties, editing for clarity and concision, using sentence boundaries, a short and practical style guide, the power of diction, and simple strategies for improving the writing process. Each chapter concludes with thought-exercises and writing activities to reinforce and build on what you learn. This is a book for busy people who need practical, straight-forward solutions to the challenges of writing: people who write at work; students who struggle with writing; students whose professors don't (or can't) teach writing; students preparing for college entrance exams; international students who need to prepare for Western writing; high school teachers preparing students for college; home-schooling parents who want to provide excellent instruction; and anyone who craves the "one right answers" of writing. Customer and Editorial Reviews: "The book will teach you how to highlight your main ideas, link thoughts and sentences, and edit your own work. You want this book if you find writing to be a fuzzy, amorphous activity and want clear steps to follow for creating solid written work." — Rebecca Helton, *Edge for Scholars* "An essay can be quite similar to an algebra equation in terms of development and structure." This statement helped me to realize that I was actually making writing an essay harder than it needed to be. If you pick up any other book on writing it is long and drawn out. It complicates things and you leave not understanding what you just read. This book isn't like that. Not only is it short, but it is easy to comprehend. Eric Sentell also states in the very beginning that this book is for those who are busy and need a straight-forward explanation. I am a college student and I don't have time to scour the internet for an explanation of how to write the essay that I waited until the last minute to write (don't pretend you haven't done it). This book is easy to read and comprehend, short and cheap. It is totally worth the money. My only complain is that I didn't have this earlier in my college journey!! -- Sherry Peppers As a homeschool mom of 4, I would highly recommend this book to anyone who wants to understand the basics of writing as well as to anyone who wants to improve their writing. The book covers a broad range of writing topics that help in understanding who you're writing

to, how to develop a paragraph, and how to make your paragraph more interesting and concise. Most of the paragraphs are short which helps the reader understand and retain the information better. I also liked the use of bullet points. It made the material direct, concise, and easier to learn. I personally learned different writing tricks with this book, and I gained a better understanding of basic concepts and writing techniques that I had heard over and over in traditional English books but never fully grasped before. Good writing still takes time and practice, but this book helps lay a good foundation of how to get started and how to develop skills to improve your writing. -- Lisa Reavey This was excellent for me. I felt like it created simple, direct way to write professionally. Would definitely recommend. -- Kristin McKinnis Provides writing lessons, model essays and topics for writing practice emphasizing use of a clear, simple, concise style.

"Introduces readers to the how-tos of keeping a journal through the use of examples and exercises"--Provided by publisher.

Take the fear out of writing essays and empower your students by giving them the tools to comprehensively express their point of view. Our resource breaks down the writing process while exploring the four different kinds of essays. Start off by learning what is an essay before using graphic organizers to help during the prewriting process. Continue this understanding with drafting by completing an informal outline. Then, go into great detail when describing something with descriptive essays. Learn how to tell a story with narrative essays. Explain a difficult subject more easily with informative or expository essays. Find out how to change someone's mind with persuasive essays. Finish up the unit with revising, proofreading and editing practice. Aligned to your State Standards and written to Bloom's Taxonomy, reproducible writing tasks, crossword, word search, comprehension quiz and answer key are also included.

"All of the above in a charming, personable, tongue-in-cheek style that makes How to Write an Inspired Creative Brief not only a pleasure to read, but a well-nigh essential foundation on which to build a successful advertising career." -Dave Butler, Creative Director (retired ), TBWA/CHIAT/Day, Los Angeles "Howard Ibach has written the essential brief for the briefers, a simple, memorable, enjoyable book for those who need to practice the art of strategic reduction for a living. He expounds several oft-forgotten principles: simplicity, clarity, collaboration." -Steve Wehrenberg, CEO, Campbell Mithum Advertising, Minneapolis

This title, by Anne Orchard, is for aspiring authors. It provides encouragement and advice for writing your own book.

When cultural critics with such wildly divergent views as Jacques Barzun, Christopher Hitchens, Joseph Epstein, Dana Gioia, and Morris Dickstein all agree about the merits of one contemporary essayist, shouldn't you find out why? "I never think except when I sit down to write." -- Attributed to Montaigne by Edgar Allan Poe From Montaigne in the sixteenth century to Orwell, Eliot, and Trilling in the twentieth, the best literary essayists combine a gift for observation with an abiding commitment to books. Although it may seem that books are becoming less essential and that a revolution in

sensibility is taking place, the essays of Arthur Krystal suggest otherwise. Companionable without being chummy, engaged without being didactic, erudite without being stuffy, he demonstrates that literature, even in the digital age, remains the truest expression of the human condition. Covering subjects as diverse as aphorisms, dueling, the night, and the 1960s, the essays gathered here offer the common reader uncommon pleasure. In prose that is both vibrant and elegant, Krystal negotiates among myriad subjects—from historical writing as exemplified by Jacques Barzun to the art of screenwriting as not so happily represented by F. Scott Fitzgerald. His cardinal rule as a writer? William Hazlitt's "Confound it, man, don't be insipid." No fear of that. *Except When I Write* is thoughtful in the most joyful sense—brimming with ideas in order to give us the flow and cadence of someone actually thinking. Keenly observant and death on pretension, Krystal examines the world of books without ever losing sight of the world beyond them. Literature may be the bedrock on which these essays rest, but as F. R. Leavis aptly noted, "One cannot seriously be interested in literature and remain purely literary in interests." *Except When I Write* is a reminder of both the pleasure and the power of a well-tuned essay.

Give readers a leg up in the writing of family biographies, history and animal reports, and other explanatory texts. This guide is full of suggestions on where to start your research, how to structure a text, and how to present information clearly. It even includes chapters on incorporating illustrations and graphic organizers and on using technology to write, edit, and distribute your work. An excellent addition to any library.
