Stretch more able students with extension activities -  
The shift to concept-based approach to learning ,  
Nature of Science, is covered by providing a framework for the course with points for discussion -  
Key skills and experiments included

iChinese Books 3 and 4 are designed for the IB Chinese B Standard Level (SL) and Higher Level (HL) courses. The themes and topics in this series align closely with the new IB syllabus. Each book contains interesting reading texts, useful vocabulary lists, concise grammar explanations, engaging classroom activities and plenty of examstyle exercises in all four language skills catered to both SL and HL courses. Developed by two experienced Chinese language teachers who were exposed to the new IB syllabus well in advance, iChinese meets all the requirements of the new IB syllabus. It is an all-in-one, ready-to-use material for teachers and students.

By mapping the worldwide geographic distribution of the genes, the scientists are now able to chart migrations and, in exploring genetic distance, devise a clock by which to date evolutionary history: the longer two populations are separated, the greater their genetic difference should be.

intercultural understanding and respect. What began as a single program for internationally mobile students preparing for college, has grown into a series of programs for students up to age 19. Barron's is pleased to offer a brand new review guide for the IB Biology exam. The content of the exam is compiled from the newly revised IB Biology course syllabus. This review book focuses specifically on the syllabus material to ensure that students are fully prepared and includes: An overview of the tests/papers, including an explanation of scoring, command terms, and optional topics based on the brand new 2014 syllabus Connections to the Nature of Science (NOS) theme that runs throughout the syllabus Study tips and strategies for maximizing scores A section on mathematical calculation and statistical analysis review 2 full-length paper 1, 2, and 3 practice exams with fully explained answers The book is formatted to prepare students for either the one-year SL (standard level) or the two-year HL (higher level) biology exam.

Bringing together international research on nature of science (NOS) representations in science textbooks, the unique analyses presented in this volume provides a global perspective on NOS from elementary to college level and discusses the practical implications in various regions across the globe. Contributing authors highlight the similarities and differences in NOS representations and provide recommendations for future science textbooks. This comprehensive analysis is a definitive reference work for the field of science education.
