Economics for the IB Diploma Revision Guide (Hodder Education), IB Business Management, 3rd edn (IBID Press), IGCSE Business Studies for Edexcel (Anforme), and Cambridge IGCSE and O Level Economics (Hodder Education). He is an IB examiner and has over 10 years of experience as an IB Workshop Leader. Chris Taylor is Extended Essay Coordinator at Sha Tin College - an international school and IB World School with over 1200 students. He teaches IB History and has examined the EE component of the Diploma for over 10 years. Chris authored Riding the Dragon (2013), a book that details his visits to every province in China and the culture, history and people in each of these. He is a regular contributing author of IB Review magazine, specialising in IB History and the Extended Essay. Having visited many countries, Chris is also a travel writer for the South China Morning Post, Hong Kong's leading English language newspaper.

A thorough examination of the characteristics` belonging to a high-performing school, this book is written by the Chairman of the Specialist Schools Trust and the education advisor to the Prime Minister, Tony Blair. It draws on numerous case studies of successful schools, as well as showing how previously failing schools have been turned around. Looking at such areas as leadership, staffing, target-setting, discipline and order, curriculum innovation and individual learning, the book offers a blueprint to head teachers and others trying to develop excellent schools.

"The history of Foreign Language Teaching in India arrived at a point of transformation with the liberalization of Indian politics and economics since 1991. Although the Indians had experienced the learning of English as a foreign language due to their colonial past, the need to learn other European/Romance/Germanic languages has intensified with the growing linkage of India with the developed and developing countries in the post-Cold War era. In response to this intensified need for learning foreign languages, many new foreign programs of study/curricula have been introduced in Indian schools (especially those with international curriculum). The central objective of this book is to shed light on the specific challenges of teaching Spanish language through foreign curricula in India. The book performs a qualitative study not only to investigate the problems of teaching Spanish language but also to design

Essay process \* Examples of library helpsheets for IBDP students \* A glossary of IBDP acronyms and IB terminology \* A specially created list of items that will be helpful for a TOK course \* An extensive bibliography of library and education sector references

An illuminating and witty dialogue with one of the greatest intellectual figures of the twentieth century. Ramin Jahanbegloo's interview with Isaiah Berlin grew into a series of five conversations which offer an intimate view of Berlin and his ideas. They include discussions on pluralism and liberty as well as the thinkers and writers who influenced Berlin. This revised edition provided an excellent introduction to Berlin's thought. Ramin Jahanbegloo is an Iranian philosopher, who has taught in Europe and North America. In 2006 he was imprisoned for several months in Iran. He is currently teaching Political Philosophy at Toronto University.

'Though like Our Lord and Socrates he does not publish much, he thinks and says a great deal and has had an enormous influence on our times'. Maurice Bowra 'Berlin never talks down to the interviewer. Conversations here means the minds of the interviewed and interviewer meet on equal terms in language that is transparently clear, informed, witty and entertaining'.

Stephen Spender 'He is wise without seeming pompous, witty without seeming trivial, affectionate without seeming sentimental'. Michael Ignatieff 'Isaiah Berlin... has for fifty years in this talkative and quarrelsome city (Oxford) been something special, admired by all and disliked by no-one... a benevolent super-don'. John Bayley <http://berlin.wolf.ox.ac.uk/>

Enable students to construct mathematical models by exploring challenging problems and the use of technology. - Engage and excite students with examples and photos of maths in the real world, plus inquisitive starter activities to encourage their problem-solving skills. - Build mathematical thinking with our 'Toolkit' and mathematical exploration chapter, along with our
