You'll also examine issues making headlines, such as the war on gun control and policies to help prevent military suicides. To achieve the objective 282 migrant household heads were selected purposively from four Kebeles of the town. Both primary and secondary data were employed and were analyzed both qualitatively and quantitatively by using SPSS version 17th. Structured questionnaires and FGD were used on the demographic and socio-economic characteristics of migrant households. Most of the migrants move to the town alone. They had some information about the town and the decision of their migration is mostly made by themselves. However, most of them migrated decide to migrate not in planned way. A greater number of the migrants are young adults, males, and unmarried and had some form of education before they decided to migrate. There are many causes for the movement of the people to the town. Among them the search for job, to gain education and training, and problem related with land and agricultural productivity was the major one. Many of the migrants encountered problems at the initial period of adjustment and adaptation and even currently. Originally published in 1983, *The Changing Face of Inequality* is the first systematic social history of a major American city undergoing industrialization. Zunz examines Detroit's evolution between 1880 and 1920 and discovers the ways in which ethnic and class relations profoundly altered its urban scene. Stunning in scope, this work makes a major contribution to our understanding of twentieth-century cities.

The period between 1870 and 1920 was one of the most dynamic in American history. This era witnessed the invention of the automobile, the establishment of women's suffrage, and the opening of the Panama Canal. While a time of great advancement, the Gilded Age and Progressive Era were also periods of uncertainty as Americans coped with corrupt politicians, unchecked big business, and a vast influx of immigrants. SR Books offers a new approach to this time period in its book *The Human Tradition in the Gilded Age and Progressive Era*. This volume looks at the experiences of 13 people who contributed to the shaping of American culture and thought during this period. These concise accounts are written by leading historians and give students an intimate view of history. This is an excellent text for courses in American studies.
