

dangerous situation: elected leader by the people but despised by the heads of the two rival political camps. Caught in a shell game that leaves him forever putting out fires only to have them ignite elsewhere, Cicero plays for the future of the republic . . . and his life. There is a plot to assassinate him, abetted by a rising young star of the Roman senate named Gaius Julius Caesar—and it will take all the embattled consul's wit, strength, and force of will to stop the plot and keep Rome from becoming a dictatorship.

As a distinguished scholar of Renaissance music, James Haar has had an abiding influence on how musicology is undertaken, owing in great measure to a substantial body of articles published over the past three decades. Collected here for the first time are representative pieces from those years, covering diverse themes of continuing interest to him and his readers: music in Renaissance culture, problems of theory as well as the Italian madrigal in the sixteenth century, the figures of Antonfrancesco Doni and Giovanthomaso Cimello, and the nineteenth century's views of early music. In this collection, the same subject is seen from several angles, and thus gives a rich context for further exploration. Haar was one of the first to recognize the value of cultural study. His work also reminds us that the close study of the music itself is equally important. The articles contained in this book show the author's conviction that a good way to address large problems is to begin by focusing on small ones. Originally published in 1998. Aged 48, Marcus Cicero, the greatest orator of his time, is to all appearances a broken man. Out of power, exiled to the eastern Mediterranean with his faithful secretary, Tiro, separated from his wife and children, his possessions confiscated, he spends his days tormented by his failure. But, to quote one of his own famous aphorisms: 'while there's life there's hope'. By promising to support his political enemy, Caesar, he manages to win his return to Italy. Once home, he gradually fights his way back: first in the law courts, then in the senate, and finally by the power of his pen, until at last, for

one brief and glorious period, he is once again the dominant figure in Rome. The long-awaited final volume of Robert Harris's Cicero Trilogy, *Dictator* encompasses some of the most epic events in human history: the collapse of the Roman republic, the subsequent civil war, the murder of Pompey and the assassination of Julius Caesar. Its theme, however, is timeless: how is political freedom to be safeguarded against the triple threats of unscrupulous personal ambition, of an electoral system dominated by vested financial interests, and of the corrupting impact of waging ceaseless foreign wars? But above all, it is the very human figure of Cicero, beset by family problems, which makes the story so compelling: brilliant, flawed, frequently fearful and yet ultimately brave - a hero for his time, and for ours.
