Part memoir, part handbook for the heartbroken, this powerful, unsparing account of losing a premature baby will speak to all who have been bereaved and are grieving, and offers inspiration on moving forward, gently integrating the loss into life. Inglis's story is a springboard that can help other bereaved parents—and anyone who has experienced wrenching loss—reflect on emotional survival in the first year; dealing with family, friends, and bystanders post-loss; the unique survivors' guilt, feelings of failure, and isolation of bereavement; and the fortitude of like-minded community and small kindnesses. Inglis's unique voice—at once brash, irreverent, and achingly beautiful—creates a nuanced picture of the landscape of grief, encompassing the trauma, the waves of disbelief and emptiness, the moments of unexpected affinity and lightness, and the compassion that grows from our most intense chapters of the human experience.

Although the United States itself did not enter the war until April 1917, Canada enlisted the moment Great Britain engaged in the conflict in August of 1914. The Canadian contribution was great, as over 600,000 men and women came to serve in the war

effort. Over 150,000 were wounded while near 67,000 gave their lives. The literature it generated, and continues to generate so many years later, is enormous and addresses all of its aspects. The Canadian Experience of the Great War: A Guide to Memoirs is the first attempt to identify all of the published accounts by Canadian veterans of their Great War experiences.

This guide provides business profiles, hiring and workplace culture information on more than 30 top employers, including 3M, Coca-Cola Company, Kraft, and more. In his life, Raymond Williams played many parts: child of the Black Mountains, inspirational adult lecturer, Cambridge professor, folk hero and guru of the left. After his death, he has remained a symbolic figure and his classic works, *Culture and Society*, *The Long Revolution*, *The Country and the City* continue to inspire new generations all over the world. In this first major biography, Fred Inglis has spoken to those who knew this complex and charismatic man at every stage of his life, from his boyhood in the Welsh border country to his brief years of retirement. Through their voices and his own passionate stories and at times combative engagement with his subject, he tells of a story of a life not just for its time but for our own. After Thatcher and Reagan and the Cold War, Williams still

has much to teach us about the nature of a good and just society and about the constant struggle to attain it.

Beautifully illustrated, this gentle story for ages 4-8 invites children to share how they are feeling - whether happy, sad or somewhere in between - through conversation, drawings or writing. This comprehensive interior design book showcases the best in Balinese architecture with over 280 photographs and insightful commentary. Bali Living showcases 21 cutting-edge tropical designs from a creative new generation of architects and interior designers working in Bali. Their work is changing the face of contemporary design worldwide—part of Bali's "new wave" tropical architecture which has spread across Asia and further afield to Japan, Europe and the Americas. Most of these projects are exclusive private residences, but a few are public spaces including a spectacular cliff-side wedding chapel, a stunning beach club and a poolside restaurant. Each property has been included because of its

creativity and contribution to the ongoing international conversation on tropical design. All of these homes are innovative examples of what may be called the "creative essence" of Balinese living.

Social theory is a crucial resource for the social sciences. It provides rich insights into how human beings think and act and how contemporary social life is constructed. But often the key ideas of social theorists are expressed in highly technical and difficult language that can hide more than it reveals. The new edition of this popular book continues to cut to the core of what social theory is about. Covering key themes from the classical thinkers onwards, including Marxism, post-structuralism, phenomenology, feminism and more, the second edition features a new chapter on Actor-Network Theory and enhanced discussion of postcolonial theory. Wide ranging in scope and coverage, the book is concise in presentation and free from jargon. Showing why social theory matters, and why it is of far-reaching social and political importance, the book is ideal for readers seeking a clear, crisp mapping of a complex but very rewarding area.

How a man who lost both legs below the knee overcame the odds to achieve incredible academic, sporting and industrial success, including a Paralympic medal in cycling. Mark Inglis was only 23 when he became a double amputee. No Mean Feat describes how he and fellow climber Phil Doole were trapped in an ice cave near the summit of New Zealand's Mt Cook for 13 days with minimal equipment and little food. By the time they were air-lifted out both men had severe frostbite and had to spend months in hospital recovering. Since then, Mark has set himself a number of formidable goals and achieved incredible success, including medals for skiing and cycling. No Mean Feat is an inspiring story of remarkable courage and determination, told with humour and a powerful zest for life.

For some kids, ways they can help eliminate racial injustice might be hard to see. After all, they are taught that people in society are all equal under the law. So why then does racial conflict still exist? And what can they as individuals do about it right now? One way is for white children to understand the unearned advantages they were born with based solely on the colour of their skin. This concept is called white privilege and this book will help children of all races understand it, see how it affects them and find ways to speak out and take real action against it. *White Privilege: Deal with it in all fairness* provides scenarios, quizzes and Q&As that develop readers' understanding of the subject using

situations that are realistic and that easily relate to their everyday lives. The topic is approached from three points of view: those who are “privileged,” those who identify as “racialized” and those who want to be allies.

"Ikonica is the first exploration of Canada's rich and unique brand heritage. Authors Jeannette Hanna and Alan Middleton shed light on the evolution of our country's best-known brands, from the Hudson's Bay Company to Canadian Tire. The visual tour of Canada's branding environment highlights the prime movers, the triumphs and the failures." "Both Hanna and Middleton draw on years of experience as brand strategists to offer an inside look at the major players in Canadian branding, from global success stories like Cirque du Soleil to domestic upstarts like WestJet. The heart of the books is almost thirty interview with a "who's who" of major business and cultural figures including Paul House (Tim Hortons), Robert Milton (Air Canada), Fred Schaeffer (McCain Foods), and William Thorsell (Royal Ontario Museum). The authors' provocative analysis shows what it takes for Canadian brands to punch above their weight in the global marketplace."--BOOK JACKET.
