But now the Vietnam War has reached her home. Hà and her family are forced to flee as Saigon falls, and they board a ship headed toward hope. This is the moving story of one girl's year of change, dreams, grief, and healing as she journeys from one country to another, one life to the next. Poverty in rural India: Is this a permanent condition? Are villagers immobilized by a rigid caste system, limited resources and economic exploitation? lives—people who have broken the constraints of poverty and inequality to become innovative and mobile. It is written partly by one villager who found a career doing research on social change. Inside–Outside narrates stories of grassroots change and innovation. These stories are discussed from the combined view of an insider (Baviskar), who grew up in a village in western India, and an outsider (Attwood), who came to study social change in the same region. Telling life stories from people who taught and surprised them, they challenge common stereotypes about Indian villagers—stereotypes of passivity, fatalism, and stagnation. Baviskar’s life and experience of change in his home village exemplify grassroots initiative and innovation. He was born as the son of an impoverished farmer in a drought-stricken village in western Maharashtra. Ability, hard work, and some dramatic twists of fate enabled him to attend college and then complete a doctorate in India’s premier sociology department. In contrast to Baviskar, Attwood is a complete outsider, having grown up in a suburb near Chicago, in the US heartland. He stumbled into anthropology and spent several years in India, doing fieldwork in the region where Baviskar grew up. The two met in 1969; they became friends and began four decades of collaborative research. Here they tell the stories of villagers who changed their own lives and who also, in many cases, changed the lives of others. These stories describe rapid innovation and institution-building in the countryside, challenging an array of common stereotypes about village life in India. Seeking explanations for change, it helps to look at village life from many angles. Inside and outside views are complementary and provide a more complete picture.
