Rising energy prices and concerns about climate change are driving us towards a new kind of economy - a low-carbon economy. What will this low-carbon economy be like, and what does your business have to do to prosper in this new business environment? Larry Reynolds shows how successful organisations are already learning to be more energy efficient, manage their carbon footprint, adapt to climate change and become truly sustainable. As well as explaining how to future-proof your organisation against possible threats, The Business Leader's Guide to the Low-carbon Economy, tells you how to make the most of the many opportunities that the low-carbon economy will bring, especially in growing profits from new products and services. It is your guide to creating an organisation that will thrive in the twenty-first century. While there are plenty of published books about 'going green', there are none which explain the low-carbon economy and how to thrive in it. This book will fill that important gap. Drawing on examples from across industries, including businesses such as Asda, BT, Cargill, Coca Cola, Co-operative Group, Eurostar, Marks and Spencer, Tesco, Tesla, Walker's Crisps, Walmart and ZipCar, Larry Reynolds shows how today's successful organisations are already benefiting from the coming low-carbon economy.

"Relax," writes author Mary DeMocker, "this isn't another light bulb list. It's not another overwhelming pile of parental 'to dos'; designed to shrink your family's carbon footprint through eco-superheroism." Instead, DeMocker lays out a lively, empowering, and — doable — blueprint for engaging families in the urgent endeavor of climate revolution. In this book's brief, action-packed chapters, you'll learn hundreds of wide-ranging ideas for being part of the revolution — from embracing simplicity parenting, to freeing yourself from dead-end science debates, to teaching kids about the power of creative protest, to changing your lifestyle in ways that deepen family bonds, improve moods, and reduce your impact on the Earth. Engaging and creative, this vital resource is for everyone who wants to act effectively — and empower children to do the same.
