This volume assembles renowned scholars to address, for the first time, the relationship between minorities and populism in South Asia and Europe from a critical perspective. Despite the very different and to some extent opposite historical and political trajectories, there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe. In India, the Hindu majority rebels against wide-ranging minority rights anchored in the Constitution. In Europe, the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy. Despite all rhetoric, there are obvious dangers of majoritarianism. Populist parties are divisive, partisan, disregard minority rights, engage in lynching, social division, stigmatization and exclusion, turning minorities into second-class citizens. There is a profound structural connection between minorities and the current rise of populism in India and Europe. But there remains a deep perplexity and also anxiety: Does the presence of minorities necessarily have to

trigger majoritarian policies? Are there no solutions to this dilemma? Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration. But eventually they seem to have failed. Why so? Are multiculturalism and the recognition of differences still options today? On the other hand, most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west. But is liberal democracy really so bad in dealing with pluralism? This volume, collecting a selection of the Reset DOC Venice-Padua-Delhi dialogue series, is going to answer two fundamental questions. First, what precisely is the nexus between minorities and populism in South Asia and Europe? Starting from those case studies, the authors will also draw some general theoretical inferences about the nature of populism. Secondly, given the dangers of populism for minorities, the volume will look for the most adequate and feasible solutions.

All of them grapple with questions of Indian political organization in different parts of the British Raj. They enquire how these organizations worked at different level; in the towns and in the countryside, in the provinces and in the subcontinent itself. They examine how these kinds of politics came to be bonded together into what were called 'nationalist' movements. They suggest that the interplay between these movements

and British Imperialism was very much more ambiguous than has been commonly supposed. All these essays are preliminary announcements of findings which will later appear in longer versions.
