REVIEW OF THE SCOPE EXPERIMENT IN 'TIME OUT': Is there life after death? Reading this remarkable book may convince even the most hardened sceptic, with its apparently solid scientific evidence for our continuing survival once we have shuffled off this mortal coil. What distinguishes the experiments chronicled here from other attempts to 'prove' that there is an afterlife are the rigorous protocols under which they were carried out. With chance, coincidence and connivance carefully eliminated, spectacular results were still achieved: handwriting, hieroglyphs and messages appearing on factory-sealed film, coins materialising, and lights dancing in front of impartial observers. Written in a calm, precise and dispassionate style, the book comes in advance of 'The Scope Report', which will shortly be published as an official Proceedings of the Society for Psychical Research - SPR. -- Time Out, October 1999
Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Each and every issue is packed with punishing product reviews, insightful and innovative how-to stories and the illuminating technical articles that enthusiasts crave.

Discusses all aspects of digital video production, from shooting and editing to creating finished movies on disc or tape and streaming on the Web.

Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director, and explains how their separate energies must combine to create a successful short film or video, from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

Provides information on what a HDTV is, how to choose one, how to connect it to other equipment, programming choices, and adding accessories.
