"EReaders are growing in popularity as more and more digital text is made available to the public. Although this technology has been around for years, it seems to have finally come into its own. With companies like Amazon®, Barnes and Noble®, Sony®, and now Apple® leading the way, the eReader is poised to have a lasting effect

on publishing and education. The eReader is quickly becoming a part of the digital phenomenon. It has been integrated with mobile technology, the iPhone Apps, and applications available for personal computers. This offers the versatility of being highly portable. While reading this synopsis, keep in mind there is no perfect eReader. Continuing advances in technology frequently impact the capabilities of eReader devices. The purpose of this report is to provide information to those who are considering the application of eReaders to enhance learning, but who know very little about them."--Abstract.
