

Lilley Pharmacology And The Nursing Process 6th Edition

Ensure your mastery of need-to-know Canadian pharmacology nursing principles with Study Guide for Lilley's Pharmacology for Canadian Health Care Practice, 4th Edition. Designed to accompany the Lilley's Pharmacology for Canadian Health Practice 4th Edition textbook, this dynamic study guide helps you better understand, retain, and apply the information and concepts from each chapter of the text. Worksheets for each chapter include multiple-choice questions, critical thinking and application questions, case studies, plus a wealth of other learning activities to fully prepare you for your credentialing exams. Chapter review and examination preparation is included in each chapter worksheet and contains a number of application-based NCLEX® style practice questions, including at least one alternate-item question per chapter. Focus on prioritization features at least one prioritization exercise in which you must evaluate a clinical scenario and answer the question: "What is the nurse's best action?" These exercises provide practice in identifying the most important, need-to-know nursing actions. Overview of Dosage Calculations section features explanations of key drug calculations concepts, sample drug labels, practice problems, and a practice quiz. UNIQUE! Cartoon-illustrated study tips expands upon the study skills tips that are included on the accompanying Evolve site. Answers for all exercises are provided at the back of the book to facilitate self-study. Chapter-by-chapter worksheets are divided into three main sections: chapter review and examination preparation; critical thinking and application questions; and case studies. Question variety includes fill-in-the-blank, multiple choice, labelling and ordering, matching, and short answer. NEW! Thoroughly updated content reflects the organization and updated information housed in the fourth edition of Lilley's Pharmacology for Canadian Health Care Practice.

Let this outstanding, reader-friendly pharmacology text help guide you through the detailed world of nursing pharmacology. Now in its third edition, Pharmacology for Canadian Health Care Practice covers all the key pharmacology content needed by today's nursing students. Known for its appealing layout, wealth of photos, and helpful boxed features, this engaging text brings important pharmacology concepts to life. The text's popular key drug approach focuses only on the drug information you need to know. Along with its exam preparation and insightful learning strategies, this is your complete pharmacology text!

Pharmacology and The Nursing Process provides the most up-to-date, clinically relevant information on pharmacology and nursing in a consistent, understandable, and appealing format. This full-color text features more than 100 illustrations on the mechanisms of drug actions, drug administration techniques, and anatomy and physiology. Color is used throughout to both clarify the presentation of content and to visually involve the student in the study of pharmacology. The text takes a unique, groundbreaking approach by presenting study skills that will help students understand and learn pharmacology.

Textbook for Nursing Pharmacology.

Designed with the student in mind, and easy to read and use, the new 2nd edition of Lilley will cover all the key pharmacology content needed by Canadian nursing students. Known for its appealing layout, plenty of photos, and numerous helpful boxed features, Lilley helps students manage the extremely detailed subject of pharmacology. This edition focuses on the role of nurses and their practices in culturally diverse Canada, and includes new content on natural health products and ethnocultural considerations. Evidence-Informed Practice Boxes: Provide a bridge between research evidence and its relevance to nursing practice Laboratory Values Related to Drug Therapy: Provide normal ranges and values for specific lab tests, and rationales for lab assessments in relation to specific drug therapy UNIQUE! In My Family Boxes: Written by nursing students of various ethnocultural backgrounds, relaying their cultural health beliefs and practices and drug use Preventing Medication Errors Boxes: Reinforce concepts introduced in the medication errors chapter and relate them to specific common errors that occur in clinical practice. Special Populations: Women: In addition to other special populations, some boxes specifically focus on women's health UNIQUE! Tear out cards from Mosby's Pharmacology Memory NoteCards Increased pathophysiology coverage: Introduces key chapters to provide students with a brief overview before launching into drug information Chapters on Antibiotics and Antineoplastics: Subjects have both been divided into two chapters each, making difficult material easier to digest for students Generic and trade drug names are used throughout - with a new Drug Index at the back of the book Emphasis on nursing roles and practices in Canada More info on natural health products More info on ethnocultural considerations

Master content from the textbook with this helpful study tool! Designed to accompany Lilley's Pharmacology for Canadian Health Care Practice, 2nd edition, this study guide helps you to understand and apply material from each chapter in the text. Worksheets for each chapter include multiple-choice questions, critical thinking and application questions, case studies, and other activities.

Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanies: 9780323187152. This item is printed on demand.

Get the perfect blend of pharmacology, prioritization, and nursing process information. As one of the best-selling nursing pharmacology books on the market, Pharmacology and the Nursing Process focuses on the key information you need to safely and effectively administer medications. The 9th Edition features clearly written updated drug content reflecting the latest FDA drug approvals, withdrawals, and therapeutic uses. Hundreds of full-color illustrations detail how drugs work in the body and depict key steps in administration. As in previous editions, the text includes thoughtful learning strategies, simple language, a wealth of student-friendly features and innovative learning aids, and QSEN callouts. Along with its integrated NCLEX® preparation and instructor resources, you won't find a more complete pharmacology text on the market!

Rev. ed. of: Pharmacology and the nursing process / Linda Lane Lilley ... [et al.]. 6th ed. c2011.

With its colorful, user-friendly format, Pharmacology and the Nursing Process, 7th Edition provides students with all the pharmacology information they need — and no more than they need — to administer drugs safely and effectively. Increased emphasis on the nursing process and prioritization focuses on the most essential assessments, nursing diagnoses, interventions, and evaluations. Thoroughly updated drug information is clear and concise, highlighting the most commonly used drugs, and includes a unique focus on safety-oriented QSEN competencies. Hundreds of full-color illustrations show how drugs work in the body and depict key steps in drug administration. Written by expert pharmacology educators and clinicians, this bestselling textbook employs innovative, practical learning aids to help your

students prepare for success on the NCLEX® Examination and in nursing practice. Focus on need-to-know information provides the most essential drug information for safe, effective clinical practice. Focus on the nursing process and prioritization helps you apply the nursing process to all aspects of drug therapy, from assessment to nursing diagnoses, interventions, and evaluation/outcome criteria. UNIQUE! Illustrated Study Skills Tips include practical advice on time management, note taking, study techniques, and test-taking strategies. Special boxes and tables highlight evidence-based practice, dosages, pharmacokinetics, laboratory values related to drug therapy, preventing medication errors, cultural implications, lifespan considerations, herbal therapies, and legal and ethical principles. Nearly 300 full-color illustrations and the Photo Atlas of Drug Administration show how drugs work in the body and depict key steps in drug administration by various routes. NCLEX® Examination-style review questions are included in every chapter, with at least one alternate-format item per chapter and more than 40 new dosage calculation questions. Drug profiles highlight the pharmacokinetics and unique variations of commonly used drugs. Case studies promote clinical reasoning skills related to nursing pharmacology. Patient Teaching Tips include key points to convey to patients, their families, and their caregivers. Prepare for success in pharmacology and on the NCLEX Examination with the Study Guide for Pharmacology and the Nursing Process, 8th Edition. Designed to accompany Lilley's "Pharmacology and the Nursing Process, 8th Edition" textbook, this workbook features worksheets for each chapter that include NCLEX-RN(r) Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Chapter-by-chapter worksheets are divided into 3 main sections: Chapter Review and NCLEX Examination Preparation, Critical Thinking and Application, and Case Study. Focus on prioritization features at least one prioritization exercise in which the reader must evaluate a clinical scenario and answer the question: "What is the nurse's best action?" Overview of dosage calculations section contains explanations of key drug calculations, concepts, sample drug labels, practice problems, and a practice quiz. Answers for all exercises are provided at the back of the book to facilitate self-study. Learning strategies expands upon the unique, cartoon-illustrated study strategies included in the Lilley text. NEW! Expanded NCLEX focus includes one to two additional NCLEX Examination-style questions for each chapter, including additional alternate item format types. Chapter review and NCLEX Examination preparation included in each chapter worksheet contains a number of application-based NCLEX practice questions, including at least one alternate-item question per chapter. NEW! Updated content is completely current and consistent with the Lilley textbook."

This money saving package includes the 6th edition of Lilley: Pharmacology and the Nursing Process textbook and study guide.

Master everything from basic principles to dosage calculation and more with the hands on practice offered in Pharmacology Online. Corresponding to Lilley's "Pharmacology and the Nursing Process, 8th Edition, this online course features a collection of self-paced learning modules that will enhance your understanding of pharmacology within context of the nursing process and prioritization. True-to-life case studies, videos, animations, interactive activities, care planning activities, and NCLEX® Exam-style quizzes help you understand how drugs work and how to administer them safely in the clinical setting.

Corresponding to Lilley's Pharmacology and the Nursing Process, 4th Edition, this collection of innovative, interactive assets and ready-to-use modules helps faculty build an online or web-enhanced course that facilitates understanding of nursing pharmacology like nothing else! It includes animation-enhanced self-study modules, branching case studies, interactive learning activities, unique Roadside Assistance video clips, an online drug handbook, audio clips, animations, Discussion Threads, WebLinks, and more. This rich library of online assets can be used for a fully online or web-enhanced course. Instructor resources are available; contact your sales representative for details. Users can work through 12 ready-to-use, animation-enhanced self-study modules on the basic principles of pharmacology as often as needed to ensure comprehension, then submit an NCLEX® Examination-style quiz for grading. 20 ready-to-use interactive case studies - one for each Lilley "Part" -- prompt users to make patient care decisions. At the end of each case, the user submits an NCLEX Examination-style quiz. Users can work through 114 interactive learning activities -- two for each chapter in the Lilley textbook. An online, full-text version of Mosby's 2005 Drug Consult for Nurses helps users work through issues of drug dosage and administration. 16 Roadside Assistance video clips feature nationally known pharmacologist and speaker Alan P. Agins, PhD, presenting core pharmacology concepts with a uniquely memorable flair. Users can view 38 animations -- every animation from the self-study modules, plus bonus animations. Students can listen to audio clips of the pronunciation of more than 600 key terms in pharmacology, including the generic names of the top 100 drugs and the key drugs identified in the text. A dynamic library of WebLinks corresponds to every chapter and is updated quarterly to ensure currency. Power-packed instructor assets include: A test bank with over 500 items in a format consistent with the NCLEX Examination, each coded with correct answer, nursing process step, NCLEX Client Needs category, and cognitive type. A PowerPoint collection with approximately 2,100 customizable text slides. A 400-item image collection with every image from the Lilley textbook, all of the images from the self-study modules, and additional images in pathophysiology and drug administration. A collection of 38 animations (every animation from the self-study modules as well as bonus animations) to incorporate into online presentations. 30 thought-provoking Discussion Threads to post for student discussion.

Corresponding chapter-by-chapter to Pharmacology and the Nursing Process, 7e, Elsevier Adaptive Quizzing is the fun and engaging way to focus your study time and effectively prepare for class, course exams, and the [NCLEX®/certification/licensure] exam. Elsevier Adaptive Quizzing is comprised of a bank of high-quality practice questions that allows you to advance at your own pace - based on your performance - through multiple mastery levels for each chapter.. A comprehensive dashboard allows you to view your progress and stay motivated. UNIQUE! Elsevier's trusted, market-leading content serves as the foundation for all questions, which are written, reviewed, and leveled by experienced [nursing/health professions] educators, item writers, and authors. UNIQUE! Unfolding questions become progressively more complex as you advance to higher levels, incorporating concepts such as delegation, multi-system disease, or complicating conditions to help you strengthen your critical thinking and clinical reasoning skills. UNIQUE! Essential test-taking tips and strategies help you learn how to successfully dissect and tackle different question types and improve test-taking skills for both course exams and the [NCLEX/certification/licensure] examination. Confidence level indicators allow you to indicate your confidence when submitting answers, providing valuable insight

into areas where you might require further study. UNIQUE! Practice in Study Mode, which provides immediate feedback, or in Exam Mode where the quiz is timed and results are summarized at the end. UNIQUE! In addition to detailed rationales for each question, select questions include interactive, multimedia resources such as illustrations, animations, videos, audio clips, and study tips to help you master challenging material. The engaging, easy-to-use interface ensures that you'll be able to navigate through the program with ease. Multiple mastery levels for each chapter, topic, or concept allow you to progress from one level to the next based on your performance. Alternate item format questions - including multiple-response, fill-in-the-blank, prioritizing, graphic item options, chart/exhibit, video, audio, and hot spot - provide valuable [NCLEX®/certification/ licensure] exam preparation. The comprehensive dashboard allows you to view your personal learning progress with summaries of your strengths, weaknesses, mastery levels, and normative data.

This convenient, money-saving package is a must-have for nursing students. It includes Lilley's Pharmacology and the Nursing Process, 5th edition text and Pharmacology Online (Enhanced Version). Check out the Companion Products for additional information.

Master the content from the Lilley textbook with the Study Guide for Pharmacology and the Nursing Process, 6th Edition! Designed to accompany Lilley's Pharmacology and the Nursing Process, 6th Edition, this workbook will assist you in understanding and applying material from each chapter in the text. The review questions prepare you for success in pharmacology and on the NCLEX® Examination. Worksheets for each chapter include multiple-choice questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Worksheets for each chapter include NCLEX® Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. A Student Study Tips section provides study techniques, time management skills, and test-taking strategies. An Overview of Dosage Calculations section offers practice problems, sample drug labels, and a quiz. In-depth case studies help you apply information to real-world situations. NCLEX® Examination Preparation sections in each chapter contain numerous NCLEX Examination-style practice questions, many of them application-based, including at least one alternate-format question per chapter. An increased focus on prioritization provides practice in identifying the most important, need-to-know nursing actions. Drug dosage calculation questions, one of which appears in every chapter, facilitate mastery of the mathematics of drug dosing.

Corresponding to Lilley's Pharmacology and the Nursing Process, 5th Edition, Pharmacology Online features a collection of ready-to-use modules and a library of online assets that may be used to create or customize an online, "blended," or web-enhanced pharmacology course. Take your students beyond the basic principles of pharmacology, and give them the hands-on practice that helps them understand how drugs work. Ready-to-use modules include: 16 self-study modules, with 12 covering the basic principles of pharmacology, making use of animations, illustrations, integrated learning activities, and dynamic hyperlinks. 26 case studies with realistic clinical scenarios to promote "learning by doing," and consequences for both correct and incorrect choices - plus feedback for incorrect choices. An Online Drug Handbook for quick reference, updated with the latest FDA approvals and withdrawals. Freestanding online "assets" that may be assigned "as is" or incorporated into an online course include: 220 interactive learning activities with a challenging, game-like review of drug essentials. 16 Roadside Assistance video clips featuring nationally known pharmacologist/speaker Alan P. Agins, PhD, who uses humor, analogy, and memorable visuals to present core pharmacology concepts. 47 animations - 25 new - many included in the modules and all available as freestanding assets. Discussion Threads expanded to a total of 80 topics, facilitating virtual classroom discussions. An Audio Glossary with definitions and pronunciations for more than 1,400 terms and drug names. An expanded collection of about 220 images from the companion Evolve website. Four new self-study modules - one Drug Calculation Review, and three Drug Content Review. Six new ready-to-use case studies, including complicating conditions. A collection of 2,000 electronic flashcards - an average of 4 sets per chapter - for a handy, easy-to use way that students can memorize key information. 10 new care planning activities - for a total of 20 - each with a brief case study along with a care plan template for completion. 110 NCLEX examination-style practice quizzes, with each consisting of 10 to 15 questions.

Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. This new Canadian textbook is based on the bestselling 4th edition U.S. text, known for its clear and consistent format, colourful design, and helpful boxed features and illustrations that highlight need-to-know information and help busy nursing students learn and understand pharmacology. All pharmacology content has undergone an extensive revision to ensure that it reflects the authoritative Canadian drug information resource, Compendium of Pharmaceuticals and Specialties (CPS). The text includes chapters on

medication errors and gene therapy, Canadian drug policy and legislation regarding over-the-counter and natural health products, drugs for HIV/AIDS, diabetes, osteoporosis, Alzheimer's disease, cancer, infection, and psychiatric conditions has been thoroughly updated and revised. Canadian statistics have been added as well as a greater emphasis being focused on Canadian ethical and legal issues. This Canadian edition has been fully adapted, with every chapter being revised to reflect Canadian nursing practice. In addition to the textbook, a free Student CD-ROM offers medical administration checklists, IV checklists and chapter-by-chapter exam-style review questions with rationales. This edition has retained the numerous pedagogical elements including: Appearing at the beginning of each chapter - Objectives e-Learning Activities Drug Profiles Glossary Appearing at the end of each chapter - Client Teaching Tips specific to drug class or topic Points to Remember boxes Examination Review questions Critical Thinking Activities Bibliography Throughout the text - Ethnocultural Implications boxes Community Health Points boxes Natural Health Therapies boxes Legal and Ethical Principles boxes Geriatric and Pediatric Considerations boxes Case Studies Research boxes Case-based Nursing Care Plans applying pharmacology to the nursing process Alphabetized Dosages tables listing drug generic and trade names, pharmacological class, usual dosage ranges, and indications All chapters feature Canadian drug names and dosages. Canadian drug information is based on the 2005 Compendium of Pharmaceuticals and Specialties (CPS). Includes Canadian Best Practice Guidelines for nursing. Nursing Care Plans have also been changed to reflect Canadian examples. Ethical and legal issues have received much stronger emphasis. The diverse cultural mix of Canada is reflected in examples and illustrations. All American references replaced where appropriate or enhanced with Canadian references to reflect Canadian health care policy and guidelines. All references updated to reflect the up-to-date research findings. References older than 5 years will be retained only if seminal research. All chapters revised to ensure Canadian content throughout.

Let Canada's #1 pharmacology text help guide you in mastering the complicated world of nursing pharmacology. Now in its fourth edition, Lilley's Pharmacology for Canadian Health Care Practice covers all the key pharmacology content needed by today's Canadian nurses. Known for its vibrant design, abundance of visuals, and wealth of helpful feature boxes, this engaging text brings important pharmacology concepts to life. The text's popular and unique key drug approach focuses only on the drug information you need to know to safely and effectively administer drugs. Along with its exam preparation and insightful learning strategies, it's the complete (and proven) pharmacology text to help you succeed in school, clinicals, and professional practice.

Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780323024082 .

Corresponding to Lilley's Pharmacology and the Nursing Process, 6th Edition, Pharmacology Online features a collection of self-paced learning modules that will enhance understanding of pharmacology. Master the basic principles of pharmacology and more! Interactive Learning Activities and true-to-life Case Studies will facilitate understanding of how drugs work and how to administer them safely in the clinical setting. Case Studies show the consequences of both correct and incorrect choices, and provide rationales for incorrect choices. Case Study Quizzes test understanding of key content and principles covered in the Case Studies. Interactive Learning Activities provide need-to-know review of critical drug content in a fun, game-like way. Practice Quizzes for the NCLEX Examination provide practice in answering NCLEX Examination-style questions to promote success with the expanded pharmacology content of the NCLEX Examination. Roadside Assistance Video Clips use humor and analogy to bring difficult content to life Flashcard sets provide an easy-to-use, engaging way to memorize information about major drugs, drug classes, and pharmacologic principles. Care Planning Activities present brief case studies along with a care plan template for completion. Animations bring difficult concepts to life! An Audio Glossary presents both a definition and an audio pronunciation for more than 1,400 terms and drug names. A Drug Handbook serves as a convenient quick reference within the course. New organization to match the textbook helps emphasize the relevance of each Self-Study Module, video, animation, and more to understanding and learning key concepts from the text. Five brand-new, drug-specific Self-Study Modules go beyond the basic principles of pharmacology to focus on important drug content areas: Pain Antihypertensives Medications for Asthma Medications for Peptic Ulcer Disease with H. pylori Antilipemic Drugs

With its colorful, user-friendly format, Pharmacology and the Nursing Process, 7th Edition provides students with all the pharmacology information they need - and no more than they need - to administer drugs safely and effectively. Increased emphasis on the nursing process and prioritization focuses on the most essential assessments, nursing diagnoses, interventions, and evaluations. Thoroughly updated drug information is clear and concise, highlighting the most commonly used drugs, and includes a unique focus on safety-oriented QSEN competencies. Hundreds of full-color illustrations show how drugs work in the body and depict key steps in drug administration. Written by expert pharmacology educators and clinicians, this bestselling textbook employs innovative, practical learning aids to help your students prepare for success on the NCLEX® Examination and in nursing practice. Focus on need-to-know information provides the most essential drug information for safe, effective clinical practice. Focus on the nursing process and prioritization helps you apply the nursing process to all aspects of drug therapy, from assessment to nursing diagnoses, interventions, and evaluation/outcome criteria. UNIQUE! Illustrated Study Skills Tips include practical advice on time management, note taking, study techniques, and test-taking strategies. Special boxes and tables highlight evidence-based practice, dosages, pharmacokinetics, laboratory values related to drug therapy, preventing medication errors, cultural implications, lifespan considerations, herbal therapies, and legal and ethical principles. Nearly 300 full-color illustrations and the Photo Atlas of Drug Administration show how drugs work in the body and depict key steps in drug administration by various routes. NCLEX® Examination-style review questions are included in every chapter, with at least one alternate-format item per chapter and more than 40 new dosage calculation questions. Drug profiles highlight the pharmacokinetics and unique variations of commonly used drugs.

Case studies promote clinical reasoning skills related to nursing pharmacology. Patient Teaching Tips include key points to convey to patients, their families, and their caregivers. Focus on need-to-know content uses a streamlined approach to drug indications and emphasizes only the most common or serious adverse effects rather than all reported adverse effects, listing them in order of those most commonly seen. Focus on prioritization includes prioritized nursing diagnoses along with corresponding prioritization of goals and outcomes, helping you connect nursing diagnoses to goals and outcomes. UNIQUE! QSEN focus highlights those aspects of the book that correlate with the QSEN competencies for patient safety and quality nursing care. Clear, direct-address writing style promotes learning of pharmacology content. NEW drugs and NEW treatment guidelines help you ensure that your clinical practice is consistent with the latest evidence-based guidelines, including the latest FDA drug approvals, drug withdrawals, therapeutic uses, and warnings/precautions. NEW and UPDATED illustrations clarify drug administration and pharmacological processes for easier understanding. Student resources on an Evolve companion website include new Unfolding Case Studies and additional opportunities for active learning.

Get the need-to-know pharmacology nursing skills you need to succeed on the NCLEX® and beyond with Study Guide for Pharmacology and the Nursing Process, 9th Edition! Designed to accompany Lilley's Pharmacology and the Nursing Process, 9th Edition textbook, this workbook features worksheets for each chapter that include NCLEX-RN® Examination-style review questions, critical thinking and application questions, case studies, and other educationally sound learning activities. Chapter-by-chapter worksheets are divided into 3 main sections: Chapter Review and NCLEX Examination Preparation, Critical Thinking and Application, and Case Study. Chapter review and NCLEX® Examination preparation included in each chapter worksheet contains a number of application-based NCLEX practice questions, including at least one alternate-item question per chapter. Focus on prioritization features at least one prioritization exercise in which the student must evaluate a clinical scenario and answer the question: "What is the nurse's best action?" Overview of dosage calculations section contains explanations of key drug calculations, concepts, sample drug labels, practice problems, and a practice quiz. Learning strategies expands upon the unique, cartoon-illustrated study strategies included in the Lilley text. Answers for all exercises are provided at the back of the book to facilitate self-study. NEW! Updated content is completely current and ensures that the Study Guide content is consistent with the Lilley textbook. NEW! Expanded NCLEX® focus includes one to two additional NCLEX Examination-style questions for each chapter, including additional alternate item format types.

Let this outstanding pharmacology text help you learn how to administer drugs safely and effectively! Now in its eighth edition, Pharmacology and the Nursing Process continues to deliver the perfect amount of pharmacology, prioritization, and nursing process information to today's nursing students. Centering on its unique key drug approach, this text focuses only on the drug information you need to safely administer drugs. The text also continues to emphasize the nursing process and prioritization, covering the most essential assessments, nursing diagnoses, interventions, and evaluations you need to practice effectively. New to this edition is even more coverage of QSEN competencies, simpler language, and a wealth of reader-friendly features and innovative learning aids. Along with its integrated NCLEX preparation and insightful learning strategies, you won't find a more complete pharmacology text on the market!
