Traditional Chinese edition of Ten Little Fingers and Ten Little Toes by Helen Oxenbury and Mem Fox. In Chinese. Distributed by Tsai Fong Books, Inc.

This book offers solutions on how to enhance the normal development of the well child incorporating complementary medicine. The primary care provider is the only healthcare professional to see every child (0-18) and their parent, and can assess the child's health and advise parents on how to provide a healthy environment and important practices to nurture healthy children. The book provides realistic scenarios encountered by new nurse practitioners in their clinical training. It is structured in a question and answer framework to help practitioners critically think through the best practices to be implemented during the well child visit and develop a plan of action for the family. This book provides assessment and diagnostic criteria and tools and presents common developmental and behavioral issues for each age group. The book promotes the role of professional as advocate by making recommendations for broad social policies to help all children succeed.

young children with hearing loss whose parents have chosen to have them learn to listen and talk. The book is divided into two parts. Part I, Audiological and Technological Foundations of Auditory Brain Development, consists of the first five chapters that lay the foundation for brain-based listening and talking. These chapters include neurological development and discussions of ear anatomy and physiology, pathologies that cause hearing loss, audiologic testing of infants and children, and the latest in amplification technologies. Part II, Developmental, Family-Focused Instruction for Listening and Spoken Language Enrichment, includes the second five chapters on intervention: listening, talking, and communicating through the utilization of a developmental and preventative model that focuses on enriching the child's auditory brain centers. New to the Fourth Edition: *All technology information has been updated as has information about neurophysiology. *The reference list is exhaustive with the addition of the newest studies while maintaining seminal works about neurophysiology, technology, and listening and spoken language development. *New artwork throughout the book illustrates key concepts of family-focused listening and spoken language intervention. This text is intended for undergraduate and graduate-level training programs for professionals who work with children who have hearing loss and their families. This fourth edition is also directly relevant for parents, listening and spoken language specialists (LSLS Cert. AVT and LSLS Cert. AVEd), speech-language pathologists, audiologists, early childhood instructors, and teachers. In addition, much

of the information in Chapters 1 through 5, and also Chapter 7 can be helpful to individuals of all ages who experience hearing loss, especially to newly diagnosed adults, as a practical “owner’s manual.”

Kids need help learning how to manage their anger. Blending solid information and sound advice with humor and lively illustrations, these anger-management tips guide kids to understand that anger is normal and to learn they can express it in healthy ways. The book teaches them how to recognize anger in themselves and others, how to handle situations and emotions (loneliness, guilt, frustration, fear) that lead to or mask anger, and how to deal with the anger they feel. This revised edition addresses children’s exposure to increased societal violence and includes discussion and examples of anger related to texting and social media. Young readers learn that cruelty and violence are not acceptable and there are safer, more positive ways to resolve conflicts. They also discover what to do when people around them are angry, how to get help, and how to locate other resources when they need more support.

The sixth edition of **EARLY EDUCATION CURRICULUM: A CHILD'S CONNECTION TO THE WORLD** focuses on the process of planning and implementing a curriculum, and setting up an inclusive child-centered environment. This text meets the needs of a diverse range of students and experienced teachers, helping them to make informed decisions about curriculum content as well as to develop creative thinking and the ability to effectively apply theory to an early childhood classroom setting. "Bilingual (English/Spanish) board book helps teach listening skills to toddlers. Includes tips for parents and caregivers"--

“Put away the wiggles. Put away the giggles. Listening works better when your body’s calm and still.” When it’s time for young children to listen closely, this book sets the tone. They discover that it’s important to open their eyes and ears but to close their mouths (“zip it, lock it, put it in your pocket”) so good listening can begin. An award-winning author/illustrator team offers a fresh look at the times and transitions all toddlers face daily, giving young children the tools to handle routines with confidence and cooperation. Part of the Toddler Tools series, Listening Time can be shared before (or during) the desired “time,” or whenever toddlers need encouragement with routines. Includes tips for parents and caregivers.
