As the long-time #1 best-seller, Garrison has helped guide close to 3 million students through managerial accounting since it was first published. It identifies the three functions managers must perform within their organisations-plan operations, control activities, and make decisions-and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Garrison's Managerial Accounting is known for its relevance, accuracy, and clarity. It is also unique in that the authors write the most important supplements that accompany the book: solutions manual, test bank, instructor's manual, and study guide - making them both of high quality and extremely consistent with the textbook.

Get refreshed with Horngren/Sundem/Stratton's Introduction to Management Accounting, 14th Edition. This best-selling book offers a relevant, real-world decision-making approach to management accounting. Readers develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. This book emphasizes the notion that "You need to understand the business first, before you can understand the accounting of business." Updated to cover the most recent methods in management accounting, topics include: cost behavior, cost management systems, and activity-based costing; marketing and product decisions; the master budget; flexible budget and variance

Current management accounting techniques have not been widely accepted as a means to develop a competitive advantage. The information obtained from the literature reviewed and the results from an empirical study that involved a sample of forty respondents from Equity Bank found that the modern management accounting practices provide very important skills and techniques in building competitiveness. The practices play an important role in the planning, developing, implementing and evaluating strategic competitive policies that result in a competitive advantage. The study outlines the importance of management accounting practices in providing strategies that lead to the creation of a competitive advantage in an organisation. However, the conclusions are drawn on a conceptual level and a future empirical investigation is needed to substantiate these claims further. The study also sets a foundation for more focused research into the importance of modern management accounting practices in developing a competitive advantage especially in the banking sector.

Establish the strong foundation in the accounting fundamentals needed to succeed with Warren/Jones/Taylor's FINANCIAL AND MANAGERIAL ACCOUNTING, 15E. budgeting decisions, segment reporting and decentralization, this text offers a glimpse into how real companies use managerial accounting concepts in their practical applications. Authors Eric Noreen, Peter Brewer, and Ray Garrison have crafted a streamlined Managerial Accounting book that is perfect for non-accounting majors who intend to move into managerial positions by focusing on the fundamentals to develop the conceptual framework managers need to succeed. This is done by adhering to the three core standards: FOCUS Noreen/Brewer/Garrison pinpoint the key managerial concepts students will need in their future careers. With no journal entries or financial accounting topics to worry about, students can focus on the fundamental principles of managerial accounting. The manager approach in Noreen allows students to develop the conceptual framework needed to succeed, with a focus on decision making and analytical skills. RELEVANCE Building student interest with its insightful Business Focus vignettes opening each chapter, current In Business examples throughout the text, and tried-and-true end-of-chapter material, students will always see the real-world applicability of Noreen/Brewer/Garrison. BALANCE There is more than one type of business, and so Noreen/Brewer/Garrison covers a variety of business models, including nonprofit, retail, service, wholesale, and manufacturing organizations. company examples are highlighted with icons in the margins of the text. Managerial Accounting for Managers, 4th edition by Noreen/Brewer/Garrison is based on the market-leading managerial accounting solution, Managerial Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution (no debits/credits). Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 4e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with

process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Accounting offers a complete digital solution combines all the great features of Connect Accounting including McGraw-Hill's SmartBook, powered by LearnSmart, which is designed to help students learn faster and more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises. Auto-Graded Excel Simulations, assignable within Connect Accounting, allow students to practice their Excel skills—such as basic formulas and formatting—within the context of accounting. These questions feature animated, narrated Help and Show Me tutorials (when enabled), as well as automatic feedback and grading for both students and professors.

A class-tested approach to Strategy for Strategic Management and Business Policy courses Wheelen and Hunger's class-tested approach to teaching Strategy is brought into sharper focus with a new emphasis on globalization, innovation, and sustainability. This text equips students with the strategic concepts they will need to know as they face the issues that all organizations must build upon to push their businesses forward. For the first time in 30 years, the 14th edition has added two new authors to the text. Alan Hoffman, a major contributor to the 13th edition, is a former textbook author and world-renowned author of strategy business cases, and Chuck Bamford, who was a student of Tom Wheelen and David Hunger back in 1980 at the University of Virginia (McIntire School of Commerce), has authored four other textbooks. They join J. David Hunger and bring a fresh perspective to this extraordinarily well-researched and practically crafted text.
