Before Al Capone and Lucky Luciano, there was the one-fingered, cunning Giuseppe Morello and his murderous coterie of brothers. Had it not been for Morello, the world may never have heard of 'men of honour', the code of omerta or Mafia wars. This explosive book tells the story of the first family of New York, and how this extended close-knit clan of racketeers and murderers left the backwaters of Sicily to successfully establish themselves as the founding godfathers of the New World. First Family will explain in thrilling, characterful detail how the American Mafia established itself so successfully. Combining strong narrative and raw violence - set against the raucous bustle of early twentieth-century New York, and the impoverished rural life of nineteenth-century Sicily - this impeccably researched, groundbreaking study of a crucial period of American history is a compelling portrait of the early years of organised crime.

From the legendary author of THE GODFATHER comes a novel of the original Italian crime family Fifteenth-century Italy. The Renaissance is in full swing, heralding a new golden age for Europe. But where there is gold – and power – there are those who are willing to do anything to get their hands on them. Enter the Borgias. Headed by Rodrigo Borgia, better known as Pope Alexander VI, this tight-knit family is fighting to keep its iron grip on Italy – but theirs is a lethal game, and the cost of failure is surely death. Scheming and plotting for their own ends are his

children: Giovanni, the much-favoured golden boy; his younger brother Cesare, jealous and vicious; and Lucrezia, cunning, calculating and passionate. The Borgias face immense opposition from all quarters of Italy, but their deadliest foes may be far closer to home.

A tale of brutality and betrayal that crowns Mario Puzo's remarkable career

'We are a family,' Alexander told his children. 'And the loyalty of the family must come before everything and everyone else. We must learn from each other, protect each other, and be bound first and foremost to each other. For if we honour that commitment, we will never be vanquished – but if we falter in that loyalty, we will all be condemned...'

When southern Italians began emigrating to the U.S. in large numbers in the 1870s—part of the "new immigration" from southern and eastern rather than northern Europe—they were seen as racially inferior, what David A. J. Richards terms "nonvisibly" black. The first study of its kind, *Italian American* explores the acculturation process of Italian immigrants in terms of then-current patterns of European and American racism. Delving into the political and legal context of flawed liberal nationalism both in Italy (the Risorgimento) and the United States (Reconstruction Amendments), Richards examines why Italian Americans were so reluctant to influence depictions of themselves and their own collective identity. He argues that American racism could not have had the durability or political power it has had either in the popular understanding or in the corruption of

constitutional ideals unless many new immigrants, themselves often regarded as racially inferior, had been drawn into accepting and supporting many of the terms of American racism. With its unprecedented focus on Italian American identity and an interdisciplinary approach to comparative culture and law, this timely study sheds important light on the history and contemporary importance of identity and multicultural politics in American political and constitutional debate. Yaddo is a rich account of America's premier artists' retreat, which has hosted some of the twentieth century's most renowned writers, composers, and visual artists. Hannah Arendt, James Baldwin, Saul Bellow, Leonard Bernstein, Elizabeth Bishop, Truman Capote, Flannery O'Connor, Aaron Copland, Langston Hughes, Carson McCullers, Sylvia Plath, Philip Roth, Clyfford Still, and William Carlos Williams all lived and worked at Yaddo. Richly illustrated with photographs, prints, intimate letters, papers, and ephemera from archives and collections at both Yaddo and TheNew York Public Library, this collection provides a window into the famously private institution, recounting the experiences of the artists who took advantage of a bucolic retreat to tap into--and mingle with--genius. With essays by Marcelle Clements, David Gates, Allan Gurganus, Tim Page, Ruth Price, Barry Werth, Karl Emil Willers, and Helen Vendler, and an overview by curator Micki McGee, Yaddo is a collaborative project that revisits the major moments of twentieth-century American culture and history.

By the bestselling author of *The Godfather*. Alexander moved over to his favourite chair in the corner of the large chamber. 'Sit, my children, sit with me,' he gently ordered them... 'We are a family,' he told his children. 'And the loyalty of the family must come before everything and everyone else. We must learn from each other, protect each other, and be bound first and foremost to each other. For if we honour that commitment, we will never be vanquished - but if we falter in that loyalty, we will all be condemned...' What is a family? Mario Puzo first answered that question, unforgettably, in his landmark bestseller *The Godfather*; with the creation of the Corleones he forever redefined the concept of blood loyalty. Now, thirty years later, Puzo enriches us all with his ultimate vision of the subject, in a masterpiece that crowns his remarkable career: the story of the greatest crime family in Italian history - the Borgias. In *The Family*, this singular novelist transports his readers back to fifteenth-century Rome and reveals the extravagance and intrigue of the Vatican as surely as he once revealed the secrets of the Mafia. Their intermingled stories constitute a symphony of

Behind every crime novel there is a family. The author's, the hero's (or the heroine's), and that of the villains themselves. Some families organise themselves into crime syndicates, controlling drugs,

prostitution and illegal gambling. Others are simply dysfunctional, tearing themselves apart, fathers against sons, mothers against daughters, sisters against brothers, husbands against wives. Not everyone escapes alive. However, families do not exist in a vacuum. They are an important part of our society—for many, one of its most essential building blocks. That being said, society itself can impinge disastrously on personal relationships. War, that greatest of crimes, leaves children bereft of parents. Generations of children are stolen by cynical, racist administrators in supposedly civilised countries. Religion requires its followers to flourish and multiply, while abandoning all—including family—for their faith. All of these issues and more are explored in this collection of essays about crime fiction and the family.

When the author's infant grandson dies from Sudden Infant Death Syndrome the family is riddled with unbearable loss, until the intervention of an angel named Janith offers them comfort and guides them through this time of sadness, in an extraordinary true account of miracles, self-discovery, and angels.
