Help your students catch up, keep up and make expected progress in GCSE (9-1) Maths with this new series of intervention workbooks. Now available for the schools price of only £1.99 (when quoting 568OTHR)

This book draws on extensive research to provide a ground-breaking new account of the relationship between dialogue and children's learning development. It closely relates the research findings to real-life classrooms, so that it is of practical value to teachers and students concerned that their children are offered the best possible learning opportunities. The authors provide a clear, accessible and well-illustrated case for the importance of dialogue in children's intellectual development and support this with a new and more educationally relevant version of socio-cultural theory, which explains the fascinating relationship between dialogues and learning. In educational terms, a sociocultural theory that relates social, cultural and historical processes, interpersonal communication and applied linguistics, is an ideal way of explaining

how school experience helps children learn and develop. By using evidence of how the collective construction of knowledge is achieved and how engagement in dialogues shapes children's educational progress and intellectual development, the authors provide a text which is essential for educational researchers, postgraduate students of education and teachers, and is also of interest to many psychologists and applied linguists.

1. Targeting Mental Maths series consists of eight workbooks for classes 1–8, based on the National Curriculum Framework. 2. The books provide highlights and hints to the role and relevance of numbers in our day-to-day life. 3. Each topic is divided into concepts and each concept is on one page for giving lots of practice. 4. The series aims at helping students to seek and discover interesting latent patterns and relationships and examples taken from daily life—thus laying a sound foundation for later years. 5. Let's Have Fun consisting of innovative puzzles and activities to make learning an interesting and enjoyable experience 6.

Assignments containing carefully graded questions for practice 7. Fun with Vedic Maths! a special section dedicated to encourage application of intuition and innovation in mathematical calculations.

Maths Spotlight: Extends and challenges your gifted pupils. Fits superbly with any core maths programme. Requires minimal teacher supervision so you can focus on your core maths teaching. Saves you dipping into next year's books.

Value is the foundation for maths and once your child masters this area, you will see their confidence soar and improvements made in other areas of maths.

This text has been developed to provide an easy-to-use course completely in line with the Mathematics 5-14 national Guidelines in Scotland. The book contains features designed to allow more effective teaching in the classroom. All material and exercises throughout the books in this series are clearly identified with a 5-14 level indicator while identical chapter titles and introductions enable mixed ability and streamed teaching.
