Autobiographical reminiscences of the IAS officer.

A result of more than four decades of teaching experience, this book deals with the problems of economic growth, development and eradication of poverty and unemployment. The book also includes an analytical study of important issues of environment and sustainable development. The book not only explains the models and theories of economic growth but also critically evaluates their relevance to developing countries. A major highlight of discussion in the context is the exploration of the widely accepted Amartya Sen's Capability Approach to development.

Prisha Khatri is a regular college graduate, focused on her career, desperate to finally move out of her parents' house... and freshly dumped by her successful fiancé. When she lands a job at a prestigious media house, she's glad to have something to take her mind off her heartbreak. What she doesn't expect is to be landed on a business trip with a famously fiery reporter Rajesh Lagheri. He's travelling to a business conference for a story, and doesn't seem impressed by her involvement. But as soon as they're out of the office, things change, and it becomes clear that there is more to Rajesh's trip than meets the eye. As Prisha is drawn into the story he's trying to hide from their editor, their hunt for the story grows more intense, and she finds herself growing closer to Rajesh. As their chemistry threatens to overwhelm them and Prisha is pulled deeper into the Seductive Affair, she must decide what matters most to her – matters of the head, or of the heart.

Book & DVD. This book is the first to describe in detail a community of potters working for the Jagannatha Temple in Puri, and to explore how the role of temple servant affects the potters' understanding of their work and of themselves. As a pilgrimage centre of national importance, supported by the patronage of successive regional dynasties and by fervent popular belief, the Jagannatha Temple requires earthenware in great quantities for the creation and distribution of the sacred food that is an integral feature of daily ritual and pilgrimage. This study observes the potters' technical prowess, sustained by devotion, but also examines the tensions within their relationships to more powerful temple servants and authorities. The accompanying DVD shows the artisans at work -- demonstrating their techniques, skills and products -- thereby adding value to the text.

This book is for color therapy for those who want to de-stress, relax, improve their concentration, and achieve happiness in life. Eye-catching geometric patterns can be colored using pastels, pencils, pens, watercolor acrylic color, etc.

In one of the ten best mysteries of the year (Seattle Times), private investigator Vish Puri becomes embroiled in a high-stakes

mystery involving one of India's most controversial commodities: love. When Ram and Tulsi fall in love, the young woman's parents are dead set against the union. She's from a high-caste family; he's from the lowest strata of Indian society. Young Tulsi's father locks her up and promises to hunt down the "loverboy dog." Fortunately, India's Love Commandos, a real-life group of volunteers dedicated to helping mixed-caste couples, come to the rescue. But just after they liberate Tulsi, Ram is mysteriously snatched from his hiding place. The task of finding him falls to India's "Most Private Investigator." Unfortunately, Vish Puri is not having a good month. He's failed to recover a cache of stolen jewels. His wallet has been stolen, and he's having to rely on his infuriating Mummy-ji to get it back. And to top it all, his archrival, investigator Hari Kumar, is also trying to locate Ram. To reunite the star-crossed lovers and reclaim his rightful place as India's unchallenged "Most Private Investigator," Puri and his team of operatives must infiltrate Ram's village and navigate the caste politics shaped by millennia-old prejudices. Critics hailed *The Case of the Deadly Butter Chicken*, the last installment in the Vish Puri mystery series, as Tarquin Hall's best yet, saying that each book has "raised the stakes subtly" (The Huffington Post). Now, "once again, India's Most Private Investigator solves his case with panache" (Kirkus Reviews).

Seventy years on, the Partition of India fades from memory. Can it be restored?

Although a few books dealing with some specialised aspects of regional planning have appeared in India, there has been no systematic treatment of the subject from the teaching angle, embracing the whole field of regional planning, drawing attention to the work done by Indian scholars and focusing on Indian problems. The present book is an attempt in this direction. The 12 chapters of the book, besides dealing with the concepts, methods and techniques of regional planning, have been devoted to specific problems in regional development such as regional imbalances, rural development, backward area development and tribal area development. This provides the necessary orientation to the directions in which regional planning is relevant.

The present edition is brought up to incorporate the useful suggestions from a number of readers and teachers for the benefit of students. A topic on common-collector configuration is added to the chapter XIII. A new chapter on logic gates is introduced at the end. Keeping in view the present style of university Question papers, a number of very short, short and long thoroughly revised and corrected to remove the errors which crept into earlier editions.

This book is for students with little or no previous knowledge of economic theory who intend to study the subject systematically and provides a general introduction to the theory while not including the special problems of international trade, public finance and

welfare economics. Some parts of the book will be useful to more advanced students. The changes in this edition concentrate on the developments in macro-economic theory resulting from the interaction recently between the 'monetarists' and 'Keynesians', and one chapter now gives an account of 'monetarism' and the succeeding chapter presents the refinements and extension of Keynes' own ideas.

It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book – acclaimed for being the first social history to document and understand India's new entrepreneurial groups – Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

'The most humane account of partition I've read ... We need a candid conversation about our past and this is an essential' Nikesh Shukla, Observer 'The book of 2019 that opened my eyes more than anything else. Seminal work, beautifully told' Emily Maitlis The division of the Indian subcontinent in 1947 into India and Pakistan saw millions uprooted and resulted in unspeakable violence. It happened far away, but it would shape modern Britain. Dotted across homes in Britain are people who were witnesses to one of the most tumultuous events of the twentieth century. But their memory of Partition has been shrouded in silence. In her eye-opening and timely work, Kavita Puri uncovers remarkable testimonies from former subjects of the Raj who are now British citizens – including her father. Weaving a tapestry of human

experience over seven decades, Puri reveals a secret history of ruptured families and friendships, extraordinary journeys and daring rescue missions that reverberates with compassion and loss. It is a work that breaks the silence and confronts the difficult truths at the heart of Britain's shared past with South Asia.

India, Australia And South Africa Are The Three Major Regional Powers In The Indian Ocean Region. While Australia Is A Developed Country With A Very High Level Of Economic Affluence, The South African Society S Problems Are Mainly Drawn Along Racial Lines. This Report is one of the first comprehensive studies on young children in India. It focuses on children under 6 years of age and presents key aspects of their well-being and development. With the highest number of neonatal, infant and under-5 deaths in the world, there is an urgent need to address issues that continue to affect the young child in India. This volume: Introduces two young child indices aggregating selected indicators to separately track child outcomes and child circumstances. Provides an account of the current situation of the young child in terms of physical and cognitive development, access to care, disadvantaged children and major issues that have led to the continued neglect of this age group. Explores the policy and legal framework, fiscal space and the role and obligations of key stakeholders, including the state, private sector, civil society, media and the family. Highlights key recommendations and action points that can help to improve the ecosystem for early

childhood care and development. Drawing on specially commissioned technical background papers, supplemented by extensive field experience of Mobile Creches in childcare, this Report will be of interest to practitioners, policymakers and influencers, think tanks and researchers of public policy, development studies, human rights, sociology and social anthropology, as well as general readers. Kasturi Shukla is all set to marry the man of her dreams. Time to stop doing silly things and start living happily ever after, right? Well, then maybe someone should tell Kasturi that. This irrepressibly irreverent and not-quite-beaming bride-to-be fumbles through a messy engagement and, in a moment of indecision, steps across a line that she should never have been near. To make things worse, her best friends are now nauseatingly mushy star-crossed lovers, her future mother-in-law thinks the kitchen-phobic Kasturi is a fabulous cook, her colleague Padma hates her for no reason, her boss wants medical intervention for her imaginary deafness and her mother has become a cyber-celebrity. This was not the way things were meant to go. Smart, hilarious and utterly unpredictable, *I Do! Do I?* will have you at the edge of your seat - unless you've already fallen off it laughing.

It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. Jean Drèze has a rare and distinctive understanding of the Indian economy and its relationship with the social life of ordinary people. He has travelled widely in rural India and done fieldwork of a kind that few economists have attempted. In *Sense and Solidarity* Drèze offers unique insight on issues of hunger, inequality, conflict, and the evolution of social policy in India over roughly the past two decades. Historic legislations and initiatives of the period, relating for instance to the right to food and the right to work, are all scrutinised and explained, as are the fierce debates that often accompanied them. "Jholawala" has become a disparaging term for activists in the Indian business media. This book affirms the learning value of collective action combined with sound economic analysis. In his detailed introduction, the author argues for an approach to development economics where research and action are complementary and interconnected. *Sense and Solidarity* spans the gamut of critical social policies, from education and health to poverty, nutrition, child care, corruption, employment, and social security. There are also less predictable topics such as the caste system, corporate power, nuclear disarmament, the Gujarat model, the Kashmir conflict, and universal basic income. *Sense and Solidarity* enlarges the boundaries of social development towards a broad concern with the sort of society we want to create.
