THOUGHT PREVOKING. INVIGORATING. INSPIRATIONAL. A ROUSING ROADMAP FOR ANYONE WHO DESIRES TO TRANSFORM THEIR FINANCIAL SITUATION AND DISCOVER HOW TO USE WHATS IN THEIR HANDS TO CREATE GENERATIONAL WEALTH AND TRUE FINANCIAL FREEDOM. LaShawne Holland never knew what she wanted to be when she grew up. Unlike her 3rd grade classmates, who wanted to be attorneys, astronauts, chefs, and doctors, she never had THAT vision. Her vision was unconventional and so was her answer to the teacher. “I DON’T WANT TO BE BROKE” were the words that escaped her mouth. Loud and clear, she confidently repeated it as second time as if the class didn’t hear her the first time as confirmation of her big dream. She was an honor roll student all throughout school, then in her 12th grade year, her High School Guidance Counselor told her in a meeting that “kids like you don’t go to college”. Confused and shocked by his comments, she left that meeting more determined than ever to not become the statistic that society would try to box her in to be. She went to college, working three jobs to pay her way through school, graduating with a Bachelor of Science in Accounting and went to work in Corporate America. It didn’t take long for her to start to feel the uncomfortable tug in her heart that she didn’t want to be placed in a box and only make in a salary what her boss deemed she was worth. Born to Multiply is about seizing and taking hold of the promises of God in the bible where wealth and riches is concerned

and apply them to your life. Its about employing your gifts, that was placed inside of you before the foundations of the world to create wealth. LaShawne believes that wealth follows purpose and no one has the right to tell you that you can only have a certain income level. LaShawne disrupts the social-economic norms that society tries to tag children of teen parents with. In Born to Multiply, she shares her journey and helps the reader discover how to transform financial suffocation to financial success
Simplified Chinese edition of Rework. Seth Godin, author of the international bestselling marketing Purple Cow that changed the way marketing is performed, says: "Stop reading the review. Buy the book." This small book is filled with common sense - yes, you know them, but the book tells you how to put them into practice. In Simplified Chinese. Distributed by Tsai Fong Books, Inc.
Why do couples find it so difficult to stick with a savings plan? The answer lies in their thoughts and motivations-what Laura Bell refers to as a "Spending Mindset." By developing a "Wealth Mindset" instead, new ways of thinking about money can lead to a prosperous future. Bell lays out a roadmap for couples looking for financial well-being and possibly a healthier relationship as well. The Couple's Strategy for Building Wealth is not a risky get-rich-quick scheme; rather, it is an easy-to-read guide that presents couples with a straightforward approach for building wealth. "This book is as unique as it is crucial: every couple needs to understand these concepts because money is a notorious relationship buster and doesn't need to be. I defy anyone to read this book and not come away with some ideas that are immediately usable." -Ted Cadsby, MBA, CFA, ICD.D, Corporate Director, best-selling author, consultant and former executive vice president of the Canadian Imperial Bank of Commerce

The New Psychology of Money is an accessible and engrossing analysis of our psychological relationship to money in all its forms. Comprehensive and insightful, Adrian Furnham explores the role that money plays in a range of contexts, from the family to the high street, and asks whether the relationship is always a healthy one. Discussing how money influences what we think, what we say, and how we behave in a range of situations, the book places the dynamics of high finance and credit card culture in context with traditional attitudes towards wealth across a range of cultures, as well as how the concept of money has developed historically. The book is split into four sections: Understanding Money. What are our attitudes to money, and how does nationality, history and religion mediate those attitudes? Money in the Home How do we grow up with money, and what role does it play within the family? What role does gender play, and can we lose control in dealing with money? Money at Work. Are we really motivated by money at work? And what methods do retailers use to persuade us to part with our money? Money in Everyday Life. How do we balance the need to create more money for ourselves through investments with the desire to make charitable contributions, or give money to friends and family? How has the e-revolution changed our relationship to money? Radically updated from its original publication in 1998, The New Psychology of Money is a timely and fascinating book on the psychological impact of an aspect of daily life we generally take for granted. It will be of interest to all students of psychology, economics and business and management, but also anyone who takes an interest in the world around them.
