Following Edison Hark -- a haunted, self-loathing Chinese-American detective -- on the trail of a killer in 1936 Chinatown, THE GOOD ASIAN is Chinatown noir starring the first generation of Americans to come of age under an immigration ban... the Chinese - as they're besieged by rampant murders, abusive police, and a world that seemingly never changes. "Both important and incredibly fun. Don't miss it." - Scott Snyder (Nocterra, Batman) "A smart, classic noir drenched in style and history." - James Tynion IV (Department of Truth, Batman) "A brittle story that takes place during an unfamiliar time in our history that is tragically all too familiar now in our present." - Brian Azzarello (Moonshine, 100 Bullets) "Absolutely the best kind of comics noir." - Kieron Gillen (The Wicked and the Divine, Die) "The best noir comic I've read in years. It's taut, evocative, and though it's set nearly 100 years ago, incredibly relevant." - G. Willow Wilson

Why are so many people attracted to narrative fiction? How do authors in this genre reframe experiences, people, and environments anchored to the real world without duplicating "real life"? In which ways does fiction differ from reality? What might fictional narrative and reality have in common--if anything? By analyzing

novels such as Arundhati Roy's *The God of Small Things*, Amitav Ghosh's *The Glass Palace*, Zadie Smith's *White Teeth*, and Hari Kunzru's *The Impressionist*, along with selected Latino comic books and short fiction, this book explores the peculiarities of the production and reception of postcolonial and Latino borderland fiction. Frederick Luis Aldama uses tools from disciplines such as film studies and cognitive science that allow the reader to establish how a fictional narrative is built, how it functions, and how it defines the boundaries of concepts that appear susceptible to limitless interpretations. Aldama emphasizes how postcolonial and Latino borderland narrative fiction authors and artists use narrative devices to create their aesthetic blueprints in ways that loosely guide their readers' imagination and emotion. In *A User's Guide to Postcolonial and Latino Borderland Fiction*, he argues that the study of ethnic-identified narrative fiction must acknowledge its active engagement with world narrative fictional genres, storytelling modes, and techniques, as well as the way such fictions work to move their audiences.

Breaking box office records, the Marvel Cinematic Universe has achieved an unparalleled level of success with fans across the world, raising the films to a higher level of narrative: myth. This is the first book to analyze the Marvel output as modern myth, comparing it to epics, symbols, rituals, and stories from world religious traditions. This book places the exploits of Iron Man, Captain America, Black Panther, and the other stars of the Marvel films alongside the legends of Achilles, Gilgamesh, Arjuna, the Buddha, and many others. It examines their origin stories and rites of passage, the monsters, shadow-selves, and familial conflicts they contend with, and the symbols of death and the battle against it that stalk them at every turn. The films deal with timeless human dilemmas and questions, evoking an enduring sense of adventure and wonder common across world mythic traditions.

This book is designed to help teachers from middle school through college find exciting new strategies to help students develop their literacy skills.

Throughout the history of the genre, the superhero has been characterised primarily by physical transformation and physical difference. *Superhero Bodies: Identity, Materiality, Transformation* explores the transformation of the superhero body across multiple media forms including comics, film, television, literature and the graphic novel. How does the body of the hero offer new ways to imagine identities? How does it represent or subvert cultural ideals? How are ideologies of race, gender and disability signified or destabilised in the physicality of the superhero? How are superhero bodies drawn, written and filmed across diverse forms of media and across histories? This volume collects essays that attend to the physicality of superheroes: the transformative bodies of superheroes, the superhero's position in urban and natural spaces, the dialectic between the superhero's physical and metaphysical self, and the superhero body's relationship with violence. This will be the first collection of scholarly research specifically dedicated to investigating the diversity of superhero bodies, their emergence, their powers, their secrets, their histories and their transformations.
