

# New South Wales Guide Book

The Historical Guide to New South Wales is a unique reference work. Never before has there been an attempt to succinctly record the location, history, industries, buildings, calamities and the population of over 9,700 cities, towns, villages, hamlets and localities (outside Sydney), whether extant or defunct. Neither has a record ever been made of the numerous surveyors who laid out our towns and the architects, engineers and builders who designed and built their most important structures. The small size of most of these places has never justified their inclusion in any standard reference book and, until now, their location and history have been a mystery to most. This book attempts to collate the significant details of each place from 1788 to 2020. More specifically, it indicates when a place was settled, surveyed, gazetted and established; the local produce of the district; the public services available and when they were provided; the natural disasters, accidents, epidemics and infestations that affected the inhabitants; the churches where they were baptised and married; the factories, mills and mines in which they worked; and the graveyards and cemeteries where they were buried. In addition, it gives details of many thousands of churches, industrial structures, public buildings, public works and utilities etc. and, in many cases, who designed them, when they were built and by whom. The Historical Guide to New South Wales will be indispensable to historians, geographers, librarians, heritage consultants, local historical societies, local councils, journalists, those tracing families, and inquisitive tourists. Topics covered are: Who are we? ; Old families, new families ; People in the community ; Shelters ; Water. Topics covered are: Celebrations ; Communication ; The

changing community ; Transport ; Australian environments. Photography, inspiration and tips guide to everything outdoor and adventurous in New South Wales, Australia. Group self-published book.

Arranged by area, suburb and town; list of serials published by local historical organisation; index. 358 pages, 167 original figures, including 18 photographs; glossary, general index, beach index, surf index. This book provides the first description of all NSW ocean beaches. It is based on the results of the NSW section of the Australian Beach Safety and Management Program. It has two aims, first to provide the public with

general information on the origin and nature of NSW beaches including the contribution of geology, oceanography, climate and biota to the beaches, together with information on beach hazards and beach safety. Second, to provide a description of each beach emphasising its physical characteristics including its name/s, location, access, facilities, dimensions and the character of the beach and surf zone. In particular it comments on the suitability of the beach for swimming, surfing and fishing, with special emphasis on the natural hazards. Based on the physical hazards all beaches are rated in terms of their public beach safety and scaled accordingly from 1 (safest) to 10 (least safe). This book will be revised in 2006.

OUR STORY Traveling is a passion of the Greater than a Tourist book series creator. Lisa studied abroad in college, and for their honeymoon Lisa and her husband toured Europe. During her travels to Malta, an

older man tried to give her some advice based on his own experience living on the island since he was a young boy. She was not sure if she should talk to the stranger but was interested in his advice. When traveling to some places she was wary to talk to locals because she was afraid that they weren't being genuine. Through her travels, Lisa learned how much locals had to share with tourists. Lisa created the Greater Than a Tourist book series to help connect people with locals. A topic that locals are very passionate about sharing.
