

Numbers 1 100 Flash Cards

A fun and kid-friendly introduction to Indonesian! The Tuttle Indonesian for Kids Flash Cards is an introductory Indonesian language learning tool especially designed to help children from preschool through early elementary level acquire basic words, phrases, and sentences in Indonesian in a fun and easy way. The flashcards can be used as a learning tool in a classroom setting, at home, or anywhere that learning takes place, and can easily be taped around the room for an interactive learning experience. The set contains a total of 64 words organized into thematic categories, including: My Family, Colors, Numbers, Animals, Food and Drink, My Body, Clothes, and Where Are You Going? All of the words are illustrated—the pictures serve as effective visual aids to help children learn and remember each word's meaning. Words often reflect cultural objects and items and can be studied in any order. Learners may focus on one theme at a time or mix them up for a little more variety. Also included is downloadable audio which provides native pronunciation of the words, and sample sentences for practice—sentences that children would use in everyday life. Songs and other activities are also included on the downloadable audio files. Once these 64 words are mastered and the child yearns for more, check out Tuttle's MORE Indonesian for Kids Flash Cards 978-0-8048-3987-7).

Give children a head-start in math with these colorful, double-sided flash cards that teach essential skills. Each set includes activity cards with helpful tips and suggestions for making learning fun. For use with Grades PreK-3.

Contains 50 cards printed on both sides with suggested activities. Use to memorize number sequence and develop grouping skills.

The color-coded cards are used to develop grouping, addition, and subtraction skills.

The Graye Bridge Kids flashcards are perfect for anyone trying to learn NUMBERS!

"SSAT-ISEE Prep Flashcard Workbook 2: ARITHMETIC REVIEW" 600 questions and answers highlight essential arithmetic definitions, problems, and concepts. Topics: Addition, Subtraction, Multiplication, and Division of Whole Numbers; Fractions and Decimals, Multiplication Tables, Word Problems, Percents, Measurement, Metric System, Square Roots and Powers, Real Numbers, Properties of Numbers [=====] ADDITIONAL WORKBOOKS: "SSAT-ISEE Prep Flashcard Workbook 1: MIDDLE SCHOOL VOCABULARY-Review" 300 basic words every high school freshman should know. Includes part of speech, pronunciation, succinct, easy-to-remember definition, and common synonyms and antonyms.

_____ "SSAT-ISEE Prep Flashcard Workbook 3: ALGEBRA REVIEW" 450 questions and answers that highlight introductory algebra definitions, problems, and concepts. Topics: Algebraic Concepts, Sets, Variables, Exponents, Properties of Numbers, Simple Equations, Signed Numbers, Monomials, Polynomials, Additive and Multiplicative Inverse, Word Problems, Prime Numbers, Factoring, Algebraic Fractions, Ratio and Proportion, Variation, Radicals, Quadratic Equations =====

"EXAMBUSTERS SSAT and ISEE Prep Workbooks" provide comprehensive, fundamental SSAT and ISEE review--one fact at a time--to prepare students to take practice SSAT and ISEE tests. Each SSAT and ISEE study guide focuses on one specific subject area covered on the SSAT and ISEE exams. From 300 to 600 questions and answers, each volume in the SSAT and ISEE series is a quick and easy, focused read. Reviewing SSAT and ISEE flash cards is the first step toward more confident SSAT and ISEE preparation and ultimately, higher SSAT and ISEE exam scores!

"NY Regents INTEGRATED ALGEBRA Study Guide" 450 questions and answers. Essential

definitions, formulas, concepts, and sample problems. Topics: Sets, Variables, Exponents, Properties of Numbers, Like Terms, Simple Equations, Property of Equality, Signed Numbers, Monomials, Polynomials, Advanced Equations, Verbal Problems, Factoring Polynomials, Algebraic Fractions, Equations with Several Variables, Advanced Verbal Problems, Evaluating Formulas, Simultaneous Equations, Ratio and Proportion, Variation, Quadratic Equations and Radicals, Coordinate Geometry ===== ADDITIONAL WORKBOOKS: "NY Regents UNITED STATES HISTORY Study Guide" 700 questions and answers (ILLUSTRATED). Essential names, dates, and summaries of key historical events. Topics: Discovery, Colonial, Revolutionary, Early National, Age of Expansion, Civil War Era, Reconstruction, Industrial Era, Progressive Era, World War I, The Twenties, The Depression, World War II, Cold War Era, Cold War - 1950s, Cold War - 1960s, Cold War - 1970s, Cold War - 1980s, New World Order _____ "NY Regents BIOLOGY Study Guide" 450 questions and answers (ILLUSTRATED). Essential definitions and concepts. Topics: Cells, Biochemistry and Energy, Evolution and Classification, Kingdoms: Bacteria, Fungi, Protista; Kingdom: Plantae, Kingdom: Animalia, Human Locomotion, Human Circulation and Immunology, Human Respiration and Excretion, Human Digestion, Human Nervous System, Human Endocrinology, Reproduction and Development, Genetics, Ecology ===== "Exambusters NY Regents Prep Workbooks" provide comprehensive NY Regents review--one fact at a time--to prepare students to take practice NY Regents tests. Each NY Regents study guide focuses on fundamental concepts and definitions--a basic overview to begin studying for the NY Regents exam. Up to 600 questions and answers, each volume in the NY Regents series is a quick and easy, focused read. Reviewing NY Regents flash cards is the first step toward more confident NY Regents preparation and ultimately, higher NY Regents exam scores!

Traditional Chinese edition of "1,2,3 To the Zoo." A counting picture book for preschool children. Large size. In Traditional Chinese. Annotation copyright Tsai Fong Books, Inc. Distributed by Tsai Fong Books, Inc.

Read Easy is an easy to use program designed to be used in the home, the classroom or other group settings. The program provides FULLY SCRIPTED materials for a family member or peer to teach reading skills and then provides fun, creative exercises that provide immediate results! It is the perfect combination of Phonics, Whole Language and Life Skills training in only one workbook.

234 pages. Discover the Math & Reading Flashcard Series. Flash cards with attitude and critters. Use this book to help your child learn numbers from 1 to 100 and from 100 to 1. Complete with 10 different flash card sets that help children learn not only to recognize numerals, but also number order. Links for easy navigation are included as well. In full color on color devices. With repetition and context clues, your child should quickly master numbers from 1 to 100 and from 100 to 1.

Super Minds is a seven-level course for young learners. This exciting seven-level course enhances your students' thinking skills, sharpening their memory and improving their concentration along with their language skills. Super Minds develops creativity with visualisation exercises and art and craft activities, explores social values with lively stories and encourages cross-curricular thinking with fascinating 'English for school' sections. For ease of use, this Level 2 Teacher's Book is interleaved with pages from the Student's Book. It includes detailed lesson aims, clear instructions and a vast array of extra activities.

Flash Action cards work! There's no better way for children to memorize numbers, letters, and math facts. That's why they're so popular. Now School Zone Interactive, and only School Zone Interactive, has the electronic version -- Flash Action Software. Flash Action Software transforms flash cards into exciting, interactive learning games that can be played independently or with a partner. The level of difficulty keeps pace with players' increasing skills,

and animated rewards provide another incentive for success.

Make math matter to students in grades K–3 using Place Value! This 64-page book helps students, especially struggling learners, understand the base-ten system. This book contains reproducible base-ten models, practice pages, assessments, games, and Web sites. It covers topics such as naming and writing numerals, counting, using expanded notation, ordering and comparing numbers, and applying knowledge about numbers. The book supports NCTM standards.

These cards will help your child learn to write the numbers 1-30 properly. Using the special pen, write & wipe cards can be used to trace as many times as you wish for repeated practice. "The Targeting Maths for Victoria scheme is VELS compliant. It has been written for CSF II and provides complete coverage of the course with student books that are clear, fun and easy to use. The teaching guides (Prep - 6) include the following features: Outcomes and indicators clearly stated; Key vocabulary and material requirements; Detailed guidance on introducing and teaching the mathematical concepts and skills; Two photocopiable activity cards for each unit; The Activity Bank supplies a range of differentiated activities for consolidation, practice and extension; Easy-to-manage assessment with an assessment work sheet for each unit." -- Back cover.

Designed for pre-service teachers and teachers new to the field of ELT, What English Teachers Need to Know I and II are companion textbooks organized around the key question: What do teachers need to know and be able to do in order for their students to learn English? The focus throughout is on outcomes, that is, student learning. Volume I, on understanding learning, provides the background information that teachers need to know and be able to use in their classroom: the characteristics of the context in which they work how English works and how it is learned their role in the larger professional sphere of English language education Volume II, on facilitating learning, covers the three main facets of teaching: planning instructing assessing The texts work for teachers across different contexts (countries where English is the dominant language, one of the official languages, or taught as a foreign language); different levels (elementary/primary, secondary, college or university, or adult education), and different learning purposes (general English, workplace English, English for academic purposes, or English for specific purposes).

This book focuses on emerging issues in usability, interface design, human computer interaction and user experience, with a special emphasis on the research aimed at understanding human-interaction and usability issues with products, services and systems for improved experience. It covers modeling as well as innovative design concepts, with a special emphasis to user-centered design, and design for special populations, particularly the elderly. Virtual reality, digital environments, heuristic evaluation and feedback of devices' interfaces (visual and haptic) are also among the topics covered in this book. Based on the AHFE 2017 Conference on Usability & User Experience, held on July 17-21, 2017, in Los Angeles, California, USA, the book describes new findings, research methods and user-centered evaluation approaches.

"Brighter Child® Multiplication 0 to 12 Flash Cards offer children a fun and easy way to practice their multiplication skills. The set features 54 cards with two multiplication problems each, their answers on the opposite side. Bright, bold numbers are placed on a white background for easy reading, and a special card also offers creative game ideas designed to reinforce learning." --Publisher's website.

If you've ever questioned how to make maths stations work, you'll find this resource invaluable. It contains ideas to help children develop conceptual understanding and skills, use maths vocabulary as they talk about their mathematical thinking, and connect big ideas to meaningful exploration and practice.

The use of numbers is a skill developed from an early age. Counting is the action of finding the

number of elements of a finite set of objects by continually increasing a counter by a unit for every element in the set, in some order. Counting is used by children to demonstrate knowledge of the number names and number system. This book provides various activities formats for children. Learn to trace, read, write, and recognize numbers as well as counting images.

This book is designed to support children's learning of the numbers zero to one hundred. It includes flash cards for learning to read both the numerals and the numbers written out as words.

Each deck of Show What You Know® on the Common Core Mathematics Flash Cards includes 90+ cards. The front of each flash card presents a question aligned to a Common Core standard, which is noted on the top-left corner of the card. On the back of each card, the correct answer to the multiple-choice question is given along with an analysis explaining why each choice is correct or incorrect.

Traditional Chinese edition of *The Happiness Project: Or, Why I Spent a Year Trying to Sing in the Morning, Clean My Closets, Fight Right, Read Aristotle, and Generally Have More Fun*. In Traditional Chinese. Annotation copyright Tsai Fong Books, Inc.

Distributed by Tsai Fong Books, Inc.

Newcomers to the world of probability face several potential stumbling blocks. They often struggle with key concepts—sample space, random variable, distribution, and expectation; they must regularly confront integration, infrequently mastered in calculus classes; and they must labor over lengthy, cumbersome calculations. *Introduction to Probability with Mathematica* is a groundbreaking text that uses a powerful computer algebra system as a pedagogical tool for learning and using probability. Its clever use of simulation to illustrate concepts and motivate important theorems gives it an important and unique place in the library of probability theory. The author smoothly integrates the technology with the traditional approach and subject matter, thereby augmenting rather than overpowering it. This book lives and breathes in the sense that not only can it be read and studied in an armchair, but each section also exists as a fully executable Mathematica® notebook on the CRC Web site. Students will find *Introduction to Probability with Mathematica* an engaging, accessible, yet challenging way to venture into the fascinating subject of probability.
