Colin Wainwright Director & Secretary, The British Chemical Distributors & Traders Association Ltd (BCDTA) Sec. Gen., Federation of European Chemical Traders & Distributors (FECC) Chemicals are the building blocks of almost all minimum risk to both man and the environment. other industries and it is a fact of life that a Third party carriers, if involved, should also be a hazard value, however low, can be placed on party to this working relationship. most chemicals. Whatever systems are in place, Whilst the prime responsibility and liability falls on there will always be hazardous waste and the disposer - both producers and carriers have unforeseen accidents. shared liabilities and it is the responsibility of all Chemical manufacturers already have cradle-to involved to be confident of the professional and grave, product stewardship and Responsible Care effective disposal of the waste involved - by policies in place which should incorporate waste incineration or landfill. In the USA, there is a law minimisation, control and disposal. These systems ensuring that liabilities revert back to those whose do not, as yet, go all the way downstream. waste has entered a site and covering the cost of Reputable distributors or agents either have these cleaning-up the site.

Sittig's Handbook of Pesticides and Agricultural Chemicals is specifically designed for use by those engaged in the agricultural and food processing industries, both vital to our nation's health and economy. People in every phase of food production, from the farm to the fork, will find a wealth of material here. It will also be of interest to professionals in the pharmaceutical, cosmetics, and personal care industries who use agricultural products as ingredients. It provides crop, chemical, regulatory, health and safety information on nearly 800 pesticides, fertilizers, and other agricultural chemicals. These chemicals are organized with unique identifiers so that all who may have contact with or interest in them can find critical information quickly.

Mauritius Mineral & Mining Sector Investment and Business Guide - Strategic and Practical Information

First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Dr Simon Johnson BSc, MSc, Ph.D, FGS Research Manager, Construction Industry Research & Information Association (CIRIA)

Extensive efforts have been made in recent years those already owning, or responsible for, in the U.K. to recycle contaminated land for contaminated sites, further spurs are increasingly further beneficial use. However, rapid expansion stringent legislation and its enforcement by of the knowledge base and the variety of regulatory agencies. remediation techniques now available can inhibit Public pressure is for the best possible their adoption into practice. Developers and their environmental protection.

Rehabilitating engineering advisers, in making commercial and dereliction and cleaning up contamination are technical judgements, have to be confident that seen as positive actions. The public, wanting they understand initially unfamiliar technologies improved neighbourhood services and and changing environment liabilities. preservation of green belt and countryside, Remedial treatment of contaminated land always prefers new development to be within schemes for requires specialist input, but it is often carried out urban regeneration. for developments designed and built by However the standards of treatment, have to construction professionals. They have to assess achieve a viable compromise of safety, the best engineering options for remediation. In effectiveness and cost in the short term, and order to do so, they have to assimilate, sort, and satisfy long-term requirements of reliability, in question an expanding amount of research and order to gain the confidence and acceptance of performance information. Effective and owners and purchasers.

The energy industry is boiling over with changes. Deregulation, new opportunities in foreign fields and markets and environmental challenges are rushing together head-on to shape the energy and utilities business of the future. Extremely deep offshore wells in the Gulf of Mexico and offshore of West Africa are being drilled at immense cost. Meanwhile China has become a major energy importer and Russia has become a major exporter. In the U.S., Europe and Japan, renewable and alternative energy sources are developing quickly, including big breakthroughs in wind power and fuel cells. This exciting new reference book covers everything from major oil companies to electric and gas utilities, plus pipelines, refiners, retailers, oil field services and engineering. Petroleum topics include upstream and downstream. Additional topics include coal, natural gas and LNG. More than a dozen statistical tables cover everything from energy consumption, production and reserves to imports, exports and prices. Next, our unique profiles of the Energy 500 Firms are also included, with such vital details as executive contacts by title, revenues, profits, types of business, web sites, competitive advantage, growth plans and more. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

Published for more than 24 years, there is no substitute for the Worldwide Government Directory, which allows users to identify and reach 32,000 elected and appointed officials in 201 countries, plus the European Union. Extensive coverage that includes over 1,800 pages of executive, legislative and political branches; heads of state, ministers, deputies, secretaries and spokespersons as well as state agencies, diplomats and senior level defense officials. It also covers the leadership of more than 100 international organizations. World Government contact information that includes phone numbers and email. Listings include: Name, addresses, telephone and fax numbers, email and web addresses Titles Hierarchical arrangements defining state structures

This guide is the perfect companion for the international business traveller who wants to have the best of both worlds - business and leisure. It offers comprehensive info which is either difficult to find or simply doesn't exist elsewhere. All sections include full contact info (telephone, fax, email, website, postal addresses).

Kenya Energy Policy, Laws and Regulation Handbook

Corrosion in ageing refinery plant presents a serious safety hazard. This important book summarises key research into

corrosion processes in refinery equipment, how it can be measured and controlled. The book reviews factors affecting corrosion such as carburisation and metal dusting as well as corrosion in steel and other materials used in refinery technology. It considers corrosion in a range of refinery equipment such as storage tanks, HF alkylation units, sour water strippers and insulated units. Other chapters discuss ways of testing for corrosion and cracking in refineries together with integrity and life cycle assessment techniques. There is also coverage of ways of trouble-shooting corrosion problems and preventative measures such as coating systems. With its distinguished editor and team of contributors, Corrosion in refineries is a valuable reference for all those concerned with building and maintaining refineries in the petrochemical industry. Summarises key research into corrosion processes in refinery equipment Discusses ways of testing for corrosion and cracking in refineries

This revised and updated thirty-third edition provides a complete survey of the region including: * Over 1,300 pages of economic and demographic statistics, wide-ranging directory material and authoritative articles * Contributions from over 50 leading experts on African affairs * Incisive analysis of the latest available information. General Survey * Thoroughly revised and updated analytical articles written by acknowledged experts covering the issues affecting the area as a whole: Reforming Africa: Continuities and Changes; Economic Trends in Africa South of the Sahara 2003; The Privatization of Security in Sub-Saharan Africa and European Colonial Rule in Africa * New for this edition: Health and Medical Issues in Sub-Saharan Africa * A political map of contemporary Africa and a chronological list of the dates of independence of African countries. Country Surveys Individual chapters on every country incorporating: * An introductory survey, containing essays on the physical and social geography, recent history and economy of each country * An extensive statistical survey of economic indicators, which include area and population, health and welfare, agriculture, forestry, fishing, mining, industry, finance, trade, transport, tourism, media and education * A full directory containing names, addresses and contact numbers for key areas such as the government, political organizations, diplomatic representation, the judiciary, religion, the media, finance, trade and industry, tourism, defence and education * A useful bibliography, providing sources for further research. Regional Information * Detailed information on the following: regional organizations; major commodities; calendars, time reckoning, and weights and measures; research institutes concerned with Africa and a select periodicals bibliography.

TERI Energy Data Directory Yearbook, or TEDDY, is an annual publication brought out by TERI since 1986. TEDDY is often used as a reference in other peer-reviewed books and journals for energy and environment-related data. It gives an annual overview of the developments in the energy supplying and consuming sectors as well as the environment sector. It also provides a review of the government policies that have implications for these sectors of the Indian economy. The book provides extensive data collated from the various government ministries, on the energy supply sectors including coal and lignite, oil and gas, power, and renewable energy sources and technologies; energy demand sectors, namely, agriculture, industry, transport and domestic sectors; along with information related to environment and climate change. Graphs and maps have been used extensively to explain facts, that makes the book an interesting read. Besides, detailed tables have been provided at the end of each chapter, making TEDDY a comprehensive data book. Each edition of TEDDY contains India's commercial energy balances for the past four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for anybody working on energy and related sectors. This is the 25th anniversary edition of the book and a number of refinements have been made in the content and presentation to reflect the changing needs of the readers. At the same time, care has been taken to ensure that continuity of information is preserved so that researchers can study the trends over time in the energy sector.

2011 Updated Reprint. Updated Annually. Saudi Arabia Government and Business Contacts Handbook

This guide is an introduction to English language sources, in electronic and print form, dealing with business issues in Russia, the NIS and the Baltic States. It gives evaluative descriptions and costs of all listed sources, concentrating on recent sources. Sources of information on some of these countries can be difficult to locate, and the author gives guidance on how to go about finding them. Contents: Under each country, information sources are grouped in broad categories: Overview (sources designed to answer general, exploratory, country and regional questions, e.g. population, politics, how to do business etc); Current developments (e.g. recent changes in tax and other laws, trends in foreign direct investment, latest project tenders); Companies and contacts; Industries and services; Legislation; Organisations (a listing of agencies and bodies able to provide assistance, information and data to business people).

Russia Oil Refining and Gas Processing Companies Handbook

New Scientist magazine was launched in 1956 "for all those men and women who are interested in scientific discovery, and in its industrial, commercial and social consequences". The brand's mission is no different today - for its consumers, New Scientist reports, explores and interprets the results of human endeavour set in the context of society and culture.
