Pastor Chris Oyakhilome The Rhema Word

Many struggle to live a victorious life as a result of their ignorance of the potency, which the Spoken Word carries. Challenges are made to be faced, but it is only revelation and incessant confession of God's Word that is capable of making any man triumphant. The Spoken Word is 365 days devotional, exploring all areas of life, and revealing the power of God to heal, transform, enrich and bless. This devotional is released by God in this season to satisfy the hunger of men, heal the broken hearted, liberate the captives, and empower the weak. Who would ever believe that the wisest man – Solomon, was born out of the erroneous affair of David and Bathsheba? In this case, the author recounts, "From the shells of total shame, and from the marrows of the utmost disgrace, God can still birth fame" When you think all is over, and when you have given up to an ill fate; God will start something fabulously new in your life.

This extensive work explores the changing world of religions, faiths and practices. It discusses a broad range of issues and phenomena that are related to religion, including nature, ethics, secularization, gender and identity. Broadening the context, it studies the interrelation between religion and other fields, including education, business, economics and law. The book presents a vast array of examples to illustrate the changes that have taken place and have led to a new world map of religions. Beginning with an introduction of the concept of the "changing world religion map", the book first focuses on nature, ethics and the environment. It examines humankind's eternal search for the sacred, and discusses the emergence of "green" religion as a theme that cuts across many faiths. Next, the book turns to the theme of the pilgrimage, illustrated by many examples from all parts of the world. In its discussion of the interrelation between religion and education, it looks at the role of missionary movements. It explains the relationship between religion, business, economics and law by means of a discussion of legal and moral frameworks, and the financial and business issues of religious organizations. The next part of the book explores the many "new faces" that are part of the religious landscape and culture of the Global North (Europe, Russia, Australia and New Zealand, the U.S. and Canada) and the Global South (Latin America, Africa and Asia). It does so by looking at specific population movements, diasporas, and the impact of globalization. The volume next turns to secularization as both a phenomenon occurring in the Global religious North, and as an emerging and distinguishing feature in the metropolitan, cosmopolitan and gateway cities and regions in the Global South. The final part of the book explores the changing world of religion in regards to gender and identity issues, the political/religious nexus, and the new worlds associated with the virtual technologies and visual media.
