

Pharmacology Connections To Nursing Practice 1st Edition

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the MyLab(TM) and Mastering(TM) platforms exist for each title, and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for the MyLab platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For courses in pharmacology. This ISBN is for the MyLab access card. Pearson eText is included. A holistic approach to pharmacology essentials Pharmacology for Nurses: A Pathophysiologic Approach simplifies pharmacology by linking it tightly to therapeutic goals. Instead of learning about drugs in isolation, students approach them by body systems and diseases in order to draw connections between A&P, diseases, and drug interventions. Engaging features and exercises relate pharmacology to nursing care, while discussion of alternative therapies and cultural and lifespan considerations give further context for clinical decisions. The 6th edition adds the most current pharmacotherapeutics and advances in pathophysiology. Personalize learning with MyLab Nursing By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student. MyLab Nursing helps students master key concepts, prepare for success on the NCLEX-RN(R) exam, and develop clinical reasoning skills.

Check with the seller before completing your purchase. For pharmacology courses in nursing programs This package includes MyNursingLab® Help students think like nurses and understand how pharmacology relates to patient care When drugs are learned in isolation from their associated diseases, students have difficulty connecting pharmacotherapy, pathophysiology, and nursing care. Pharmacology for Nurses: A Pathophysiologic Approach, Fifth Edition, helps students master pharmacology by tightly linking it to therapeutic goals and patient wellness. Organized by body systems and diseases, it places drugs in context with how they are used therapeutically. Students can then easily locate relevant anatomy, physiology, pathology, and pharmacology in the same chapter. Nursing Process Application features clearly relate pharmacology to key nursing processes. Features highlighting complementary therapies, community-oriented and evidence-based practices, and lifespan considerations help students make connections to nursing practice. To give students a clear picture of the holistic nature of pharmacology, the Fifth Edition reflects current pharmacotherapeutics and advances in understanding disease. Personalize learning with MyNursingLab MyNursingLab is an an online

homework, tutorial, and assessment program designed to engage students in the Pharmacology course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application. 0134460057 / 9780134460055 Pharmacology for Nurses: A Pathophysiologic Approach Plus MyNursingLab with Pearson eText -- Access Card Package, 5/e package consists of: 013425516X / 9780134255163 Pharmacology for Nurses: A Pathophysiologic Approach, 5/e 0134449010 / 9780134449012 MyNursingLab with Pearson eText -- Access Card -- for Pharmacology for Nurses: A Pathophysiologic Approach

MyNursingLab with Pearson eText -- Access Card -- for Nursing: A Concept-Based Approach to Learning

Employing an evidence-based approach, this comprehensive textbook introduces the core clinical skills and competencies a newly-qualified nurse is required to have for professional practice. It is divided into five broad sections looking at: Care and compassion and communication, including personal care and pain assessment Essential skills, including observations, monitoring and emergency management Organisational aspects of care, including moving and handling, and wound care Safety and protection, including medicine management and infection control Nutrition and fluid balance, including hydration and nutrition. Designed to allow readers to develop and enhance their clinical skills with one key textbook, each chapter contains learning outcomes, recommendations for practice, case studies, activities, 'clinical significance' highlights and step-by-step guides to important procedures. This invaluable clinical skills textbook is an essential reference for pre-registration nursing students of all fields of nursing.

Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9780131525993 .

Pharmacology: Connections to Nursing Practice recognizes that pharmacology is not an academic discipline to be learned for its own sake, but a critical tool to prevent disease and promote healing of illness. This connection to patients, their assessment, diagnoses, and interventions, supports basic nursing practice. Like other core nursing subjects, the focus of pharmacology must be to teach and promote wellness for patients. Pharmacology: Connections to Nursing Practice identifies key pharmacologic concepts and mechanisms and clearly connects them to current nursing theory and practice for providing optimal patient care.

The only exam review for the two leading neonatal critical-care nursing certification examinations, Certification and Core Review for Neonatal Intensive Care Nursing, 4th Edition prepares you for your exam with realistic questions and test simulation. Based on the blueprints of the AACN's CCRN-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the information in Core Curriculum for Neonatal Intensive Care Nursing, 3rd Edition, and reflect essential knowledge, the latest evidence, and best practices. A total of 600 questions and answers with rationales are provided. Developed by the AACN, AWHONN, and NANN, this powerful review tool offers excellent preparation for your certification exam! This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Realistic exam practice is offered through questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Updated questions reflect the information in Core Curriculum for Neonatal Intensive Care Nursing, 4th Edition, and the latest test plans by both AACN and NCC. Complete remediation includes rationales for both correct and incorrect answers. A compact, portable size makes the book easier to study anytime, anywhere.

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. All registered nurses must have a thorough understanding and a strong knowledge of pharmacology, medicines administration, and the ability to recognise and react to the effects of medicines. Fundamentals of Pharmacology helps nursing and healthcare students develop the skills and confidence required to apply the fundamental principles of pharmacology and to offer safe, competent and compassionate care. Concentrating on the medicines that students are most likely to encounter in real-world practice, this textbook provides concise coverage of pharmacology, essential medicines management principles, legal and ethical issues, drug formulations, analgesics, immunisations, and much more. Clinically focused chapters feature defined learning outcomes, multiple-choice questions, practical examples, and full-colour illustrations to aid readers' comprehension of the complexities of pharmacology and care provision. The book utilises a straightforward, student-friendly approach to present 'must-have' information, with contributions from experienced clinicians and academics. Describes how to use pharmaceutical and prescribing reference guides Stresses the role and importance of compassionate care throughout Contains a full range of pedagogical tools which enhance learning and recall Aligns with current NMC Standards and Proficiencies for Registered Nurses and Nursing Associates Supplemented and supported by a wealth of online extras and resources Fundamentals of Pharmacology is essential reading for all nursing students, trainee nursing associates, post-registration nurses taking 'nurse prescribing' or 'non-medical prescribing' modules, and newly qualified nurses and nursing associates looking to better understand pharmacology. This is a student supplement associated with: Pharmacology: Connections to Nursing Practice, 2/e Michael Adams, Pasco-Hernando Community College Carol Urban ISBN-10: 0132814420
