

Photography The Ultimate Editing Guide To Enhance And Create Stunning Digital Photos Photography Digital Photography Dslr Photoshop Photography Books Photography For Beginners Photo Editing

Photoshop A Quick-Start Guide to Starting With Photoshop And Creating Incredible Photos Like A Pro! Photoshop or photo manipulation has become a famous art that has been popular since the 19th century. Because photo shopping has been such a boom, this has resulted in the immense popularity of the software Adobe Photoshop that is used to edit videos or image. This editing software has been used as a neologism, and that's how the phrase photo shopped started to grow with ubiquity. This term is commonly referred to any digital photographs of editing regardless of how the software is used. Photo shopping has become a significant trend that has grabbed the attention of many editors. It has even become a trademark tool in the photography industry as it helps to beautify and enhance the captured moments. However bad or wrong photo shopping has also made headlines on many news channels and leading magazines, may that be Justin Beiber's Calvin Klein photo shoot or Kim Kardashian posing for any magazine. Photoshop has been an innovative tool that has really evolved a lot over time and has made like easy of all artist, photographers and editors. The scope of Photoshop has not been limited to editing photos or images; instead photo shop is also used for visual effects in movies and serial. Graphic designers heavy rely on Photoshop as they know the essential importance and need of this software that has eased their work in creating visual master piece and some awe-inspiring graphics that we enjoy may that be in the form of 3D. However, essence of this book is pretty much the same. The main crux of this book is to explain all the possible benefits and the Photoshop and how it can add ease to your life by making your work much easier and adding finesse to it. We guarantee that you would enjoy reading every word of the book as it will be the perfect tutorial for your use. Written by Multi Award Winning Australian Photographer, Trainer and Best Selling Author Steve Rutherford. This book, The Beginners Guide to Portrait Photography is one of the best selling "Beginners Guide to Photography" book series and is an easy to understand practical guide to portrait photography. Set out into an easy to follow, page by page guide, join me indoors, outdoors and at night on all aspects of photography and how to take control of your DSLR Camera, and master striking photos, with every shoot. The Beginners Guide to Portrait Photography, is clearly written, easy-to-understand guide will be an indispensable resource whenever you pick up the camera for your next portrait photography shoot. You'll also get FREE access to Video Training at - <https://www.photocheats.com>. Also FREE Access to One Shot Magazine at - <http://www.oneshotmagazine.com>. It is packed full of tips and tricks to improve your photography. Just follow the links to both Photo Cheats and One Shot Magazine in the book or Like us over at <https://www.facebook.com/OneShotMagazine> Please also come back and leave a review we would love to know what you thought of this book. Don't forget to check out the other books in the "Beginners Guide to Photography" book series. Written with all levels in mind, there is instruction for beginners, as well as many advanced techniques and tips. I have also included "live website links" throughout, as well as easy to find "quick tip" sections. The "Beginners Guide to Photography" book series breaks techniques down into specific categories so you can perfect these techniques. Please see the other books in the series for more in depth tutorials on a large range of photography styles. Please also come back and leave a review we would love to know what you thought of this book. Don't forget to check out the other books in the "The Beginners Guide to Photography" best selling photography book series. ***** 5 STAR REVIEWS for this book series so far ***** "Explanatory, easy descriptions involved material" "Loved it has helped me in numerous ways. Have used it as a reference constantly. One of my photos has gone viral since using the hints and tips in the book. Small adjustments make huge differences." - Mike Roche. "Has absolutely everything" "Do not miss out on this book. As the title says it has absolutely everything and I particularly like the boxes with advice to shoot particular subjects. It doesn't matter whether you are just starting out or experienced with a camera, it has something for everyone. Highly recommended!" - Paul B "Well worth the money" "Great book that starts from the very basics, explains everything to do with modern cameras, their use, settings and techniques under different settings and circumstances." - Qball "A great read" "Getting back into photography after a 6 yr break - born and raised on a film SLR, this book helped me remember things and to better adapt to a digital SLR - whether you're novice or experienced, you will get a lot out of this book..." - Brian I love this book and hope to capture few good images as a result of this." - Jatinkumar. Following the highly successful "Digital Photography Manual, the complementary "Photography and Your Digital World concentrates on image-editing and image manipulation, to provide a complete resource aimed at all levels of expertise. Highly practical with a results-oriented approach, the book looks at image creation from both a photographic and artistic viewpoint. The creation of images is examined holistically -- all the components of the process, including the original image, the software tools and the user's skill and creativity are examined and seen to contribute to the end result. Techniques and effects are given in the context of producing exemplary results, and creative solutions are presented for typical imaging problems. Taking a generic approach to software packages wherever possible, the low emphasis on individual software packages will prevent this title from dating quickly, allowing it to retain credibility as new software is developed.

A full-color guide to the art of digital portrait photography Portrait photography entails taking posed photographs of individuals or set scenery and is the most common photo style among the most novice photography hobbyist to the most advanced photographer. Talk does not cook rice That's a Chinese saying, and it's so true. You can talk all you want about your plans but they end right there if you're unable to take steps to accomplish them. With this year coming to an end, it's time you gather the courage to accept where you currently stand. Have you applied for the scholarship that could take some burden off your ? nances? Have you sat for the exam that could open the door to the career of your dreams? Have you attended the seminar that could guide you to your courses? Have you met with the course counselor who could advise on your future career? It's all about planning and working hard to make those plans a reality. Nothing reveals your character more than your determination to succeed. To help get things on the right track is what the easyuni.com Ultimate University Guide all about. We keep our readers at the core of our focus. Like every issue, we have some very instructive articles to guide you in making informed decisions about your future career. Like the magazine you're now holding, with a fresh and clean design, our website has been redesigned to make it more intuitive and user-friendly. For instance, now, you not only get to see universities based on your subjects and study level but also ? lter your search results based on rankings, tuition fees and many more preferences. For example, if you're looking for a university with a low fee, you can just set your budget preference using our slider and ? nd the universities which fall under your budget range. Similarly, if a student is looking for top universities, just sort the search results by rankings. It's that easy. Till we meet again next year, I leave you with a gem from the father of invention himself, Thomas Alva Edison: "Genius is 1 percent inspiration, 99 percent perspiration". It's time for you to shine. Edwin Tay (Editor's Note, CEO)

The world of photography has become a better place ever since the release of Photoshop tool which is flourishing with emblazoning ease throughout the world. Many refreshing ideas from developers met the fundamental needs of photographers ranging from amateurs to professionals who always felt something is lagging in their photographs.

For digital camera and smartphone users, this easy how-to guide, written by an experienced National Geographic photographer, imparts the essentials of taking great pictures. This entertaining book from beloved National Geographic photographer and Photo Ark founder Joel Sartore shows aspiring photographers how to take great pictures, from framing and F-stops to editing and archiving. Whether you're using your phone or a DSLR camera, you'll learn the fundamentals of photography--and how to put them to work every day. In a series of short lessons, Sartore explains the basics, from choosing a camera and gear to understanding focus, exposure, composition, and lighting. Using examples from his own work, he applies the basic rules of photography to family, pet, travel, nature, and street photos, and how to get a great shot with the camera on your smartphone. Throughout the book you'll find pro tips, quick assignments, and the behind-the-camera stories of great photographs; helpful notes clarify how to use every piece of advice with your smartphone camera. Fun and informative, this practical book will be your gateway to taking great pictures.

What Makes The Ultimate Online Dating Book Different from Other Books on this Subject? The Ultimate Online Dating Guide: Secrets of How Savvy Women Find Great Matches has a unique twist that sets this book apart from others of its type. Ms. MacGowan came to the conclusion that many of the shortcomings that exist in Internet dating can be resolved by using proven business techniques from the recruiting and hiring of workers. Her skills in attracting the right mate or the right talent are enhanced with extensive background in human resource and skills as a journalist. The Ultimate Online Dating Guide modifies the recruitment tools from business into an easy-to-use guide for "recruiting, selecting and managing" great Internet dates. Why Does The Ultimate Online Dating Book use this Approach? These techniques are shown to be easily adaptable to dating and relationships. They dramatically increase the odds of finding a great match while having an enjoyable, interesting and safe dating experience. The Ultimate Online Dating Guide coaches readers through a step-by-step process of self-discovery that defines what's important to them in a great Internet date and to naturally attract and choose men who share their interests, values, attitudes and personality traits. Ms. MacGowan teaches readers basic principles of advertising and writing. Strategies for finding and choosing men (recruiting and selection) are extensively covered. How to analyze men's behavior to choose the best matches draws on how recruiters analyze human behavior to find the best workers. The Internet is quickly becoming one of the best ways of meeting new dates. Its rapid growth proves that it's not only acceptable but also preferable. Women can broaden their visibility and meet men they wouldn't otherwise have had an opportunity to meet. It's increasingly important to get the right man's attention for successful dating because there are now millions of men browsing these ads. However, women need to learn how to use this wonderful new resource correctly to fully reap its benefits. Internet dating without sound back-up principles can be compared to buying an item on eBay without knowing how to compare prices, assess an item's quality or knowing the strategies of bidding. The Ultimate Online Dating Book Women Approach to Internet Dating After the self-discovery process, the reader develops her ad using her interests in the headline to attract men who share these interests. But many women have trouble with creative writing. Ms. MacGowan shows them how to use advertising headlines from women's magazines to construct an appealing, attention-grabbing headline that attracts men. Ms. MacGowan includes examples of well-written ads for the reader to use as models. A great photo attracts. Tips that get results are covered as well as how to "read" men's photos. The reader also learns how to organize her email responses so she won't get her correspondents mixed up. Next is the advantage of creating "canned" responses that guide her in what to say about herself. She sees them as a timesaver that will provide consistency to her responses to men's emails. "Strip 'em Naked Questions, or Finding the Man beneath the Facade" is an unusual approach to analyzing men's responses. Each serious of questions, there are over 100 to choose from, begins with a hard-hitting discussion of what a woman should think about when she reads, and later, hears a man's answer. She'll learn if he has attitude, personality or behavior problems. Now it's time to learn about "problem" personality types. There are 16 whimsical personalities to avoid, which are described. A practice session reading and critiquing men's ads ties it nicely together in "The Devil's in the Emales, You've Got Tails." Let's conduct a "telephone interview"! Recruiters do this using prepared questions. In this chapter, Ms. Mac

Artwork from 30 of the industry's top photographers is used to highlight both clearcut shooting strategies and colorful, cutting edge approaches to family portraiture in this handbook intended for idea gathering and inspiration. Advice on focal length, perspective, and maximizing the potential of digital equipment highlights the technical aspects of family portraiture while group posing strategies demonstrate how best to flatter each subject and convey a sense of family unity. A lengthy discussion of lighting—the backbone of portraiture—and the manipulation of shadows and highlights instructs photographers on how to create mood and interest in a variety of lighting scenarios, both indoors and out. Specifics on adjusting body lines, colors, and shapes, working with young children, and creating a comfortable atmosphere ensure that the photographer captures the unique personality of each family with dynamic and attractive images.

An illustrated introduction to digital photography, examining hardware such as cameras, computers, scanners, and printers and the relationship between them; looking at image-editing software, tools, and techniques; featuring step-by-step instructions for taking professional-quality photographs; and discussing special-effects options.

Then plan and track your photoshoots Additional extra 10 pages to record further notes Ideal gift for any occasion for beginners, advanced and professional photographers, friends, family and other photo shooting enthusiasts What you will find in this logbook & planner ? 101 Technical settings ? Log your settings and equipment ? Creative ideas to remain inspired all along the year ? Monthly Planning: Month by month, define your photo goals and the associated actions ? MindMap: list all the steps to execute perfect shooting and create amazing pictures ? 15 Shooting sheets - For each shooting sheet 7 pages to shape your ideas and organize your shooting session (Goal, moodboard, Team, styling, decoration, location, technical settings, equipment, photo editing) A NOTE FROM THE AUTHOR I have been a professional photographer in France for 10 years, and I work with various professionals. One thing I learned is that you can't leave anything to chance in a photoshoot: you need to plan it properly, you need to select the right Team, you need to seek for the right authorizations, you need to execute properly and then you need to develop and publish. Moreover, without the right tool, you set up yourself for failure. This is why I decided to create this Logbook, to share my detailed approach. Please, do not hesitate to share any comments and visit our Author's page to find additional front covers. Have FUN and thank you for your purchase!

Master a Mac without jargon and complications. Once you go Mac, you never go back. And if you have this book, you'll be more than happy to never go back. In The Ultimate Mac User Book, we've made a bold attempt to unveil an ideal Mac setup that works for anyone. Whether you're switching from Windows or want to upgrade your knowledge of macOS, this is for you Here's what you'll learn from the book: - The anatomy of Mac's interface. How to set up your new Mac for years of use. - Basic and advanced shortcuts for all jobs on Mac. - Alternatives to popular Windows apps. - Ready-to-use workflows for writers, designers, developers, students, as well as people of any profession who want to hit new productivity milestones on Mac. - 20 hacks every seasoned Mac user should be using (but only a few actually do) in the bonus chapter. Reliable and intuitive, Macs still require a certain level of tech fluency. The family of Apple's Macintosh operating systems is very versatile, with tons of features and enhancements built on top of each other. Navigating through all of them can be complicated. Especially if you're a new user. Especially if you have no time to figure out how things work — you just want them to work. Hope we'll solve the problem for you with this book.

photographers, friends, family and other photo shooting enthusiasts What you will find in this logbook & planner ? 101 Technical settings ? Log your settings and equipment ? Creative ideas to remain inspired all along the year ? Monthly Planning: Month by month, define your photo goals and the associated actions ? MindMap: list all the steps to execute perfect shooting and create amazing pictures ? 15 Shooting sheets - For each shooting sheet 7 pages to shape your ideas and organize your shooting session (Goal, moodboard, Team, styling, decoration, location, technical settings, equipment, photo editing) A NOTE FROM THE AUTHOR I have been a professional photographer in France for 10 years, and I work with various professionals. One thing I learned is that you can't leave anything to chance in a photoshoot: you need to plan it properly, you need to select the right Team, you need to seek for the right authorizations, you need to execute properly and then you need to develop and publish. Moreover, without the right tool, you set up yourself for failure. This is why I decided to create this Logbook, to share my detailed approach. Please, do not hesitate to share any comments and visit our Author's page to find additional front covers. Have FUN and thank you for your purchase!

A Complete Guide to Using the iPhone 12 Pro Camera The best camera for the job is the one you have in your hands when there is an opportunity for a photoshoot, especially when that camera is the iPhone 12 Pro. Maximize the use of your iPhone 12 to take great shots A Complete Guide to Using the iPhone 12 Pro Camera The best camera for the job is the one you have in your hands when there is an opportunity for a photoshoot, especially when that camera is the iPhone 12 Pro. The question then becomes, are you making the most of that powerful tool in your pocket? Do the photos you take seem to be from an amateur because of how blurry they look, and very different from the kind of picture you had in mind to take? If this is you and you want to be able to take incredible pictures with your iPhone, then this book is for you. At the end of this book, you should be comfortable taking great shots with your iPhone 12 Pro even in low light conditions. You will also be equipped with the skills needed to capture awesome portrait pictures of people and nail down your composition such that others can be amazed at how professional your pictures consistently look, as you create jaw-dropping landscapes, food, and travel photos of the events you are involved in. The book starts by covering some of the basic things about the iPhone 12 Pro and the relevance of some of these features on the iPhone and how they affect the quality of the pictures taken with it. In no time after you start using this book, you will begin to start snapping with your camera with far more confidence and dexterity than others who simply go through the motions of pointing their cameras at an object and taking pictures without some of these basic knowledge and skills. Some contents to expect to see in this book include: •How to create animojis and even share memoji with other types of phone users •How to take stunning pictures for your social media platforms •How to take stunning pictures with the portrait mode and lots more With this book in your hands, you can move from being just a mediocre basic iPhone user to an iPhone photography specialist. It will save you the time and energy of stumbling into some of these features by deliberately exposing you to these features and functions. If what you want is a go-to guide on matters surrounding just iPhone photography, then this is a great reference guide for you, very different from what a generic iPhone 12 Pro manual can achieve because of how such books gross over different topics. Not only that, but you can also order this book as a gift for a friend, son, daughter, or a loved one to help them quickly get started with using their phone as soon as they start exploring the pages of this book. Special Bonus That is not all, at the end of this book, we have a special gift for you, something we believe you will love. Click the "Add to Cart" to purchase on your closeout or click the "Buy Now" to purchase at least one copy now.
