"In 1996 I channeled that there would be a large influx of walk-in spirits moving onto the Earth plane in the next few years. They will be coming in large numbers to assist with the accelerating transformation of this world as we approach the end of the century. My guides said the new walk-ins were going to need a lot of sources of information to help them orient to this world."Whatever way we arrive on this plane, once we are here, we are all playing the same game. There are both advantages and disadvantages to either group: being born into the bodies we use or walking in and bypassing the condition of childhood." —Hannah Beaconsfield

Have you always wanted to know how psychics do what they can do? Or where they come up with that information? If they're not looking through your garbage, how do they know what they know? Would you like to develop your own psychic "openness" while avoiding all the legendary fairies, dragons, and gnomes in the process? The manual you have been searching for is here. During my quest, I have come to realize that this "The Guidance within", has been with me all along. What I mean is, my Psychic ability is part of my DNA just as it is with you, and the rest of the people on our planet, believe it or not? It's also the reason why I couldn't

find it in the first place until now. As a result, I thought that I could at least help you to learn how you can develop your own psychic abilities; or at least, how to recognize them. Without further haste, lets get started. We've been waiting for you.

Somewhere in the depths of space, near the edge of the known galaxy, exists a parallel universe, and in that universe is Weeniworld, the Pop Culture Planet.

As the author of this novel, I prefer not to provide biographic data, except to disclose that I currently reside in Florida, having moved there in 2004 after working in the financial district of New York City. While still a rail commuter from New Jersey, my daily morning route included taking the PATH train from Hoboken into the basement of the World Trade Center where, especially when the weather was spring-like, I usually would exit the complex through its central plaza and, from there, walk the three blocks to my office. My timing was such that I was usually in the plaza by 8:45 AM in order to be on time for work. Having returned a few days earlier from a tiring vacation, I decided that fateful Tuesday morning of September 11, 2001 to get a few extra winks of sleep and to take the late train to work. As a result, I was about thirty minutes later than usual, and not where I normally would have been at 8:46 AM when the first plane struck the north tower of the World Trade Center. If the events of that day did not change my perspective on life, then the following weeks and months of working in the humbling atmosphere of such a terrible disaster did. Many questions were asked and not answered. Was it by human design alone? Was it because of divine punishment? In any event, in order to mentally escape the reality of an environment in which physical escape was not then possible, I found that when I had a private moment to think (on the subway, the commuter train, on a work break, etc.), I did so with pen in hand. And what emerged at the time were poems that

helped me deal with questions of the soul and resolve the remorse I felt which was later replaced with a sense of hope. Although I always had what I thought to be a talent for writing, through which I could express thoughts and feelings in a way I never could do verbally, I had never written anything of consequence before that disastrous day in 2001. And yet, looking back, it seemed that whatever pen I subsequently used in writing those poems, which eventually turned out to be many, must have had a magical connection because the words came only after first picking up the pen. Many times, the words came quickly without my having to think, as if I was simply transcribing what was being dictated. It was the same with this novel. I never planned to write a novel and, most certainly, do not consider myself an author. But one day, a thought came into my head, causing me to pick up a pen and, on a simple notepad, I began to write the first chapter of this book. The characters immediately came into being and, essentially, it is their novel, their story. At times, when the story stagnated, causing me to sit at the computer while my fingers remained still, it was as if the characters had nothing to say; so much so, that if a family member who knew of the writing of this novel would ask me, at the time, how it was coming along, my answer would be that the characters weren't talking to me. So maybe this isn't a novel at all. Maybe it all did happen a long while ago, and that through some kind of a time anomaly, the people described herein may have telepathically communicated their story to me so that this world that we live in today could have knowledge of what once had been. I really don't know – what do you think? J. V. Perrone

Describes the transformational journey to enlightenment and awareness using the tarot, astrology, the Qabalah, the alchemy of transformation, and analytical psychology.

"In the history of this planet there has not been a person like you. In the infinite of times to

come, there will not be another person like you. You are rare, you are unique and you are a masterpiece. The Master's piece." These words of the author's teacher left an indelible impression in him. The grace of this Universal Order is not to repeat itself. No two beings are the same. Every creation in this Universe is unique. That is the precision of the Universal Order's caliber, design and execution. If such is the uniqueness with which we are created, then why has the majority of mankind evolved to be monotonous and repetitive in their approach to life? Most of us live the grind and strive to meet the standard expectations of the societal make up. There is no sense of awe to the independent uniqueness that is prevalent in each individual. Why aren't we aware of the uniqueness within each of us? What would we do with such awareness? What benefits are there from this awareness? Is there a reason for being so unique? Is there more to life beyond mankind's intellectual understanding? If yes, how to identify it and what to do with it? An intellectual quest that began in this manner and followed by a series of questions led to an edifying exploration of self-journey. A journey that was radiant with Universal benevolence. A journey that identified the potency of stupendous possibilities to unleash from within. The outcome of that journey became the book - Universal Abundance. This book may ideally be read - a chapter at a time, contemplating and internalizing it.

Contacting spirit guides is as old as civilization itself. Shamans dating back to at least 50,000 B.C. ritualistically contacted nonphysical entities. The Mystery Schools of Ancient Egypt, Greece, Persia, Rome, and India also dealt with contacting spirit guides. Every major religion acknowledges the reality of discarnate entities or spirits, whether they are called saints, angels, the Holy Spirit, and so on. One of the purposes of this book is to demystify this process.

The media's depiction of spirit contact has led to the false assumption that anyone who establishes this contact must be in great danger. In reality, this

Many people go through life feeling lost, afraid, anxious, angry, depressed, and confused. They are confined by the prison of their negative thoughts, living out their lives unsure of who they are, what their purpose is, what it means to be alive, and how they can find happiness and live life peacefully. This feeling of separation from the world is a result of not understanding our true nature. We fail to realize who we are at our deepest level and, as a result, we experience a great deal of suffering. This suffering is felt around the world and it causes people to act out in violence, harming one another, harming the planet, and harming themselves. The state of the world is a reflection of our inner state of being. We have forgotten our true nature, and until we remember who we are and find peace within ourselves, we will never be able to have peace on this planet. Full of practical wisdom and intuitive insights, "Stillness" speaks directly to your heart and mind, providing you with valuable information to help you awaken to your true nature, and find peace in your life regardless of your circumstances. Each of us is capable of living a life of peace, joy, and bliss, and it starts with quieting our minds, bringing our awareness back into this moment, and connecting to the

Utilizing the healing power of breath to change consciousness • Explains how to enter altered states of consciousness, increase paranormal abilities, and resolve old traumas using breathwork • Introduces the Five Cycles of Change that bring about major life shifts and how to work with them Incorporating psychospiritual tools with her Shamanic Breathwork practice, Linda Star Wolf shows how to spiritually journey in the same way shamans entrain to the rhythms of drums or rattles using the breath, either alone or together with music. Much like traveling to sacred places or ingesting entheogens, this practice can be used to enter altered states of consciousness, connect to cosmic consciousness, increase paranormal abilities, and awaken the shaman within. Breathwork can also be used to resolve old traumas and shapeshift unproductive modes of thinking in order to move beyond them. Utilizing the healing power of breath along with chakra-attuned music, Linda Star Wolf explores the Five Cycles of Change--the Alchemical Map of Shamanic Consciousness--and how these cycles affect you as you move through major shifts in your life.
